# Hunting Wild Turkey by Moonlight.

The best that can be said of the weld turkey is that he is the most itelience of birds to eat, but as remaining size of himself he exercise but fen, present tions. In the other external times tarkeys used to be caught in large num tiers in many different ways. One method was to found a turp somewhat The a house, and to have the lower part of it open. Then a trail of com way had, which the turkes followed much he god model of the point and then Melengris-gallop we had not some enough to exception again. To use a turkey call, and to thus bring the hirds from their means of dogs. On- the bird slighted on a tree branch, he was supposed to way there, but turkeys in time changed their ways, and this method of tre-ing a prairie, has been before this described. It is an exciting sport, requiring swift horses and good riders. The birds are whips of the riders. A turkey, if he is for this story, which, indeed, has noth fat, when draved in this way, takes a ing whatever incredible about it, says long flight at first, but by degrees his Frank G. Carpenter. One day a sow course diminishes, and sconer or later he Showing turkeys when possing can front door of a Mrs. Wang, the latter at hardly be called sport; that is, in the once preceded to claim damages which higher application of the term. It were refused. Whereupon a fierce at should, however, be remembered that in tereation ensued which terminated in southwestern Texas and Indian Territory, Mrs. Wang's threatening to take her meat is meat. Men kill game not se lown life," Mrs. Peng, upon hearing of much for the pleasure of the chose at fit this direful threat, resolved at once to satisfy longer. In the far West, where take time by the forelock and steal a turkeys take to the woods which skirt march upor her enemy by taking her the streams, they are spotted. The hunter leaves them above in the daytime, her. She accordingly three but of a meanlight night bags his score berself into the canal. And of birls. The unkeys seem unconscious a friend with whom I rode a that there is any dauger, and though there may be several on a limb, two or three can be killed, when almost in immodule contact, before the whole flock awakens and takes its flight. The alumdant food which the torker finds in Texas makes it the finest of all birds to with.
