The passenger train on the Pittsboro' railroad leaves Fayetteville daily, except Sundays, at 8:20 a. m. and arrives at Pittsboro' at 9:30 p. m., making close connection with the mail train on the R. & A. A. L. R. R., which arrives at Raleigh at 11:40 a. m. and leaves Raleigh at 2:30 p. m.

Coffee at O. S. Poe's for 17½ and 20 cents a pound.
Wheat threshers can get the best machine oil cheap at Chapin & Headen's.

A favorable opportunity will be offered next week for persons to take a trip from here to the seashore.

It has rained every day a week, and has done considerable damage to wheat and oats that had been harvested and not hauled up.

Don't forget that the shuttle mill at Pittsboro is still buying dogwood and paying cash for it. Bring a load whenever you come to town.

Great bargains at O. S. Poe's in all summer goods for the cash. Ladies' and Gents' Straw Hats cheaper than you ever bought them.

Mr. S. J. Tally requests us to state that he voted against the resolution to relieve the sheriff from his loss by the failure of the State National Bank.

The ex-Confederates of Chatham are reminded that tomorrow (Friday) is the day for them to meet here, and organize a Confederate Veterans County Association. Rally up!

If anybody does not believe that Chatham is a great grass country, let him now visit our cornfields and cotton patches, and see how hard it is to keep the grass from capturing them!

Only four marriage licenses were issued in this county last month, two to whites and two to blacks. Wonder if the increase in the cost of a license is the cause of this small number?

A stock of fresh Turnip seed from D. Lunn & Son, Philadelphia, will be shipped about the 10th of July to J. P. Steadman, Egypt, N. C. Nothing pays better than turnips. He will have all varieties.

The enterprising editor of the Fayetteville Observer published last week an illustrated trade issue, that was not only creditable to him, but to the public spirit of the citizens of that good old town, and we hope it will redound to the profit of all concerned.

One of the colored men, who went from here to Georgia last winter, has written us that it is a mistake for their being badly treated, as was told by one of their number, who recently returned home. He says that they are all well satisfied and receive their pay promptly.

Come and see the bargains being offered at London's this week. A large lot of Challies at 6½ cts. per yard; other dress goods as low. A lot of Satines at 25 cents per yard. These are cash prices. Remember you can buy a Parasol for less money at London's than anywhere else.

We regret to learn that many of our farmers, who planted western corn, are very gloomy over the prospect of a crop. The stalks are short and small and already beginning to tassle, and it is feared that the ears of corn will be small and few. The corn seems not suited to our climate and soil.

As one of our fair county women alighted from her buggy at church, on last Sunday, a hen flew out from underneath the seat cackling at a great rate and creating quite a commotion with the congregation. It had laid an egg in the buggy while riding to church, a distance of about three miles.

Half of 1889 is now gone and looking back London finds his sales have been larger than ever. He thinks this shows people appreciate his large stock and low prices, for which he returns his thanks. He is now making further reductions in his prices to cash buyers as he wishes to reduce his stock in time for fall goods.

The annual season has now arrived for the publication of "the first cotton bloom." The first rent to the Revenue office was by Mr. W. I. J. Brown, of Cape Fear township, and was plucked on the 26th of June. He has 18 acres in cotton and 20 in corn, all which has been worked by only himself and two daughters, 12 and 16 years old.

The price of a round trip ticket from here to Wrigthsville during the encampment will be only \$4.65. If a sufficient number of persons wish to go from here, an extra train will leave here next Wednesday evening at 7 o'clock, and arrive at Wilmington in time for breakfast next morning. If you wish to go, leave your name at once at the Record office.

The new Baptist church at Merry Oaks was formally dedicated on Sunday, the 23rd of June. The services were conducted by the Rev. Messrs. J. C. Wilson, G. P. Moore and C. Durham, the latter preaching the dedicatory sermon. A large congregation was present. Much credit is due those who contributed so liberally to the building of this church.

DR. THIRIE DEAD.—Dr. Ross R. Thirie died at his residence at this place on Friday, June 28th, after a protracted and painful sickness, aged sixty one years. He was born and reared in the State of Pennsylvania, his father having been one of the most prominent Representatives in Congress from that State fifty years ago. In 1854 he married the eldest daughter of the late John H. Haughton, Esq., of this place, and became a citizen of this county, having bought a large plantation near here. So thoroughly identified had he become with our section, that at the breaking out of the war he was one of the first to volunteer, and was elected Captain of the "Chatham Rifles," the first military company organized in this county. At the organization of the 15th regiment, to which this company was attached, he was elected Lieutenant Colonel.

Dr. Thirie never sought nor held any public office, but took a lively interest in all public matters and was one of the most public spirited citizens of our State, always contributing liberally to any enterprise that would tend to promote the prosperity of our people. He was a man of warm and generous impulses, ever ready to protect the oppressed, to aid the needy and to relieve the suffering. During the weary months of his painful sickness he was patient and submissive, and evinced the resignation of a true Christian, to the will of Him who ordereth all things well. Now that his sufferings are over, may he forever realize the joys of those who dwell.

His funeral services will be held at 10 o'clock on Sunday, July 1st, at his late residence, where Union trumpets and for consoling relief.

For the Record.
Durham District Conference.

The conference convened at Burlington, N. C., on the 27th of June at 9 o'clock a. m., Rev. J. T. Harris, P. E., presiding. Roll call showed there was a goodly number of ministers and lay delegates present. After the opening services, the usual routine of business was entered into. Had preaching twice each day, 11 o'clock a. m. and 8 o'clock p. m.—no preaching than usual on such occasions. The condition of the church seemed to be good, both financially and spiritually. There was a much larger number of Presiding Elders in attendance than usual—three de facto's and two ex's: G. W. Anthony, W. H. Branson, J. A. Johnson and A. H. Merritt were elected delegates to the next Annual Conference. The Conference was very hospitably entertained by the citizens. I, with the Rev. S. E. Coltrane, was domiciled at the pleasant home of Joseph Holt, Esq., a prince among men, and with his very kind wife gave us a royal entertainment.

Weekly Weather Crop Bulletin.

The reports of the correspondents of the Weekly Bulletin issued by the North Carolina Experiment Station and State Weather Service, co-operating with the United States Signal Service, show that there has been an excess of rainfall, a deficiency of temperature and sunshine for the week ending Friday, June 28th. For the same week last year the reports indicated an excess of rainfall and temperature and about the average amount of sunshine. An unusually heavy rain storm fell on Friday with prospect for continuance for several days. The effect upon crops is reported as favorable. There has probably been too much rain and too little sunshine for cotton, although that crop is reported generally in fine condition and growing nicely. Corn and clover are doing well. The week has been unfavorable to harvesting. The following rainfalls are reported, a comparison with the weekly normal, which is about 1.25 inches for this season will give the amount of excess in the localities where rain is reported: Elizabeth City, Pasquotank county, 2.50 inches; Hertford, Perquimans county, 3.75 inches; Raleigh Wake county, 3.72 inches; Hickory, Catawba county, 3.00 inches; Bat Cave, Henderson county, 2.10 inches; Morganton, Burke county, 2.05 inches; Marshall, Madison county, 1.50 inches; Davidson College, Mecklenburg county, 1.50 inches; Monroe, Union county, 1.38 inches; Greensboro, Guilford county, 1.30 inches.

EASTERN DISTRICT. Too much rain, too little sunshine, generally reported, with rather an unfavorable effect upon cotton. The wet weather has interfered with the grain harvest. Grass growing finely.

CENTRAL DISTRICT. An excess of rainfall, a deficiency of temperature and sunshine, are generally reported in this district. The effect upon crops does not appear to have been unfavorable. Some complaint of chinch bugs in this district. Corn, tobacco and cotton looking well.

WESTERN DISTRICT. Crops generally are reported as doing well in this district. There has probably been too much rain for cotton. Grain and fruit are excellent. Tobacco is growing nicely.

The law forbidding the sale of cigarettes to minors went into effect in New York June first.

Queen Victoria is the richest woman in the British Kingdom. She has accumulated a fortune of \$20,000,000.

Prof. Ralph Graves, of our State university, has become insane and on last Sunday attempted to cut his throat. He is now in the Raleigh asylum.

G. B. Studl, the rich Englishman who gave up cricket to go as a missionary to China, has introduced the game among his converts, he himself playing in native costume.

A young man by the name of Claude M. Lockhart, a clerk at the Orton House in Wilmington, was drowned last Sunday afternoon while bathing in the surf at Wrightsville Beach.

The historic lands at Appomattox Court House, Virginia, are to be bought up for a Northern syndicate. Options have already been secured upon most of the desired property.

Carriage manufacturers are predicting that in the not distant future wooden wheels will be done away with, and steel wheels substituted on account of the increasing scarcity of lumber for wheels.

It is estimated at the Treasury Department that there has been a decrease amounting to \$15,000,000 in the public debt since June 1st. This will make the debt reduction for the fiscal year ending June 30th, \$88,182,200.

A Local Option bill passed by the Legislature of Michigan, has been signed by the Governor. This, leaving the decision to the people of the localities, will insure practical prohibition, it is said, in more than half the counties in that State.

The North Carolina Teachers' Assembly has elected officers for the ensuing year as follows: Henry Louis Smith, Davidson College, president; F. R. Hobgood, Oxford Female Seminary, first vice-president; Eugene G. Harrell, Raleigh, secretary; Hugh Moreton, Raleigh Male Academy, treasurer.

State News.

Stanny Observer: Mr. J. C. Ridenhour, of Copal Grove, lost a horse last week that was 30 years old. He was purchased from a member of Wheeler's cavalry at the close of the war, and the price paid was four dollars in cash and a bushel of onions.

Monroe Enquirer: From various sections of the county we hear reports of the destructive work of the chinch bug. We had hoped that our county would be comparatively free from these pests this year, but in many sections of the county they are doing an immense amount of damage. It looks as if they had come to stay, and the only way to prevent their ravages is to kill as many as possible of the troublesome insects.

Durham Sun: News was brought to Durham yesterday that Mr. Nathan Fox a farmer about 60 years of age, living in Person county near Squire Hester, committed suicide by taking a dose of "Rough on Rats" Tuesday morning about 10 o'clock, and dying the evening of the same day. It is reported that he was in the habit of taking periodical spurts and was recovering from one of these when he was heard to remark Sunday that he intended to kill himself, but his family did not think he was in earnest.

Weldon News: Mrs. Richard Neville, sister of Mr. Dock Pittman, was killed by lightning at her home about six miles west of Enfield, in the Heathville neighborhood, on Thursday last. She had been out of doors and seeing the storm approaching she went into the house, followed by her son, who is about ten years old. Just as she entered the house and was standing near the fireplace, lightning struck the chimney and killed her. She lived a short time after the shock but was unconscious until she died. The boy, who was only two or three feet behind her, was uninjured.

Winston Sentinel: The latest disgraceful appointment was that of a negro who lived in one of the Eastern counties. He applied for a route agent's place. Soon after making application he was tried for stealing, was sentenced to the penitentiary and was sent to work on the loanokoke and Southern R. R. at Walnut Cove. A few days ago a letter from the post office department was forwarded from the negro's old home to Walnut Cove telling him to get up his bond, that he would be appointed! This shows how the Republican officials disregard the convenience of the South-ern people. The meanest and most incompetent man may get an office under Radical rule if he is a strong party worker.

Jonesboro' Leader: The new machinery for the Jonesboro' Cotton Mills has about all arrived, and workmen are putting it in place as fast as possible. Secretary Webb tells us that the addition of the new machinery will give the mill three times its former capacity. About three bales of cotton will be worked daily, which is equal to fifteen hundred pounds of yarn as the result of twelve hours work. Forty or more hands will be required to do this work, and Mr. Webb also informs us that a night force will be added in the fall. It will be observed from this that over 80—possibly 100 persons will be employed in this factory before Christmas. Regular work will be resumed at as early a day as possible.

Shelby Aurora: At Cowpens, South Carolina, Mrs. Goforth was ensnared into matrimony by a tramp painter, Ed. Williams, who had been in North Carolina penitentiary for several years for stealing a watch. At first everything was lovely and the ex-convict boasted of his property located in Charlotte and soon swindled a merchant at Cowpens. And then left his wife, who discovered last week that her husband No. 2 had deserted his lawful wife now living in Charlotte, and that her marriage to Williams was null and void. Williams has not been captured and does not wish to resist the penitentiary. It appears that credulous and loving women continue to marry in haste strangers and repent when it is too late.

Asheboro' Courier: There has not been the same amount of building going on in Asheboro' in many years—perhaps never. Mr. Thos. W. Cagle, of this county, takes the cake, so far as heard from, on wheat harvesting. Our informant says he cut 15½ dozen good size binds in one day. Who can beat it? The prospects are that Deep river is to have two railroads at an early day. Randolph is coming out in the matter of railroads, and it is only a matter of time when she will have outlets in all directions. —The South in general and North Carolina in particular are resping a harvest of delays and losses from the careless, ignorant management of these creatures of Harrison production. It is almost impossible to get the mails across the State with any degree of speed and regularity.

Reidsville Review: Mr. Abner Jackson, a worthy man, about 60 years of age, who lives in the north end of town, was killed by the southern bound train as it was coming into town Friday about 8 a. m. He had been plowing and had gone to the house to get a drink of water. Hearing the approaching train and wishing to secure his horse, he ran out and tried to cross the track in front of the engine to his field on the other side. The engine was too close upon him, and as he jumped the boiler struck him in the side, knocking him down. His arm was broken. Dr. Broughton was summoned in haste, but could give the unfortunate man no relief, and after lingering for about an hour in the most acute agony he died. He leaves a large family, who will deplore his death all the more, coming as it did from such a horrible accident.

Rockingham Rocket: There is one well authenticated case of longevity in North Carolina, that of Mr. Whitely, of Stanny county. He is now in his 117th year and is still hale and hearty. It is claimed that he has cut three sets of teeth, that he never had a case in court, and that he has never taken a dose of medicine in his life.

Raleigh News and Observer: News was received here yesterday of a narrow escape from drowning. Miss Martha Pool, sister of Mr. S. C. Pool, of the city, who lives about 16 miles from this city, was on the way here to attend the funeral of Mr. Pool's little daughter Bessie. She was accompanied by Mr. W. C. Newcomb and they were travelling in a buggy. While crossing a branch on the Rock Quarry road which had been very much swollen by the heavy rains, the horse and buggy were washed down the stream. They managed to jump out in time to save their lives. The contents washed down the stream. The horse swam out. The stream was not much swollen when they entered it, but a sudden current rushed down upon them almost in an instant and came near sweeping them away. It was a narrow escape. —News was received yesterday of another narrow escape from drowning at Rock Branch at the bridge about a quarter of a mile east of the city. A man was coming in from the country and on reaching the bridge his mule became frightened and refused to come across upon the bridge. He then attempted to ford the stream, which was swollen to a high point, when the bed of the wagon was washed away taking the driver with it. He was washed down the stream for some distance and was finally hauled out in an almost lifeless condition by some one on shore who threw him a rope.

If the Farmers' Alliance men of Chatham, in their fight against high prices and monopolies, instead of selling their wool and buying shoddy goods, would have it manufactured into nice jeans and flannels at home, they would be independent of merchants' high prices in the woolen goods line. Suppose the alliance men try this plan this year. How W. & T. Jones, C. Dixon, the proprietors of the Snow Camp Woolen mill say they can work up your wool into goods that look as well and wear better than that you buy out of the stores, and at a much less cost. Hitch up your wagon on some day and take your wool up to Snow Camp and see for yourself. Take your wife with you too. She can tell you what style to have it made and whether it will pay you or not, or if you are too busy now, send to them for samples of their work. They will take pleasure in mailing them to you.
