At 5 o'clock, everything theirg in readiness, the dazzing feat was attempted in the presence of 1,500 people. The crowd watched the man elimbing into the air with bated breath. When the baile on had traveled upwards about 700 feet the crowd discovered that it was bursting. The gas could be seen shooting out, and soon the canvas cloth began to drop. As Professor Perry was holding on under the parachute, he was not aware of insterrible situation. The crowd became frantic with excitement. Yolks went up and pistols were fired to at tract the man's attention, but all of no avail. Soon, however, all the gas tract the noan's attention, but all of no avad. Soon however, all the gas and air in the balloon was exhausted, and, twitching, jerking, and whirling, it began to fall downward. It was too late to loose the parachote from the wireked balloon but for some distance it was successfully engineered. The balloon causing the parachute to capsize all came down with a terrible crash to the earth. The crowd rushed around the unfortunate man and every attention was given bim, but for twenty minutes he did not more or show signs of life. His fall is variously estimated at from one to four hundred feet.

Professor Perry was brought here.
