The World's Fair.

Every visitor to the World's Fair ought to go through the Midway Plaisance...

But as above stated, every visitor will greatly enjoy seeing at least some of the sights and scenes of the Midway Plaisance.

At the time of our visit all of them were not ready for visitors, but there were enough to render our visit to the Midway Plaisance very delightful.

In striking contrast to this wild animal show was another show of animals of the human genus...

or dress peculiar to her nation. Some of them were strikingly beautiful...

Another attractive place was called the Moorish Palace. On the first floor was the "mythic labyrinth"...

The Liberty Glass Company's works were very attractive. You could there see the entire process of making all conceivable kinds of glassware.

To many visitors the most attractive sights on the Midway Plaisance are the foreign villages, representing almost every country in the world...

At another place was the Turkish village, in which was a large theatre, a mosque and several other buildings like those at Constantinople.

In striking contrast to this wild animal show was another show of animals of the human genus in the "International Beauty Show."

Washington Letter.

From our Special Correspondent.

WASHINGTON, June 23, 1893. If there are any persons who believe the silly stories now going the round of the republican press...

President Cleveland has not and will not attempt to say what the details of the bill for the repeal of the Sherman silver law shall be.

Ever since Secretary Callahan took charge of the Treasury department he has been quietly working to put a stop to the wholesale smuggling of Chinese opium by way of Panat Sound.

Not a few republicans, among them some Congressmen, have openly commended Judge Lochren for his vigorous efforts towards carrying out President Cleveland's idea of making the pension roll a roll of honor.

As was expected, Col. Alcyworth, the contractor, the superintendent, and the engineer have been pronounced guilty of criminal negligence.

Mrs. Cleveland and Baby Ruth have gone to Gray Gables, on Buzzard's Bay, Ruth's birthplace, while the President remains here, notwithstanding the dancing among the nineties of the thermometer.

ATTEMPTS AT TRAIN WRECKING. AURORA, Ill., June 25.—A dastardly attempt at a wholesale wrecking of Chicago, Burlington and Quincy trains was made last night in the Aurora yards.

Real Cause of Depression.

From the Richmond Times.

The present depression which oppresses the country is based solely on fictitious grounds, and is caused simply by lack of confidence.

If the people of the United States would look at this question aright they would be no more troubled. Now every man who has a little money is hoarding it away instead of investing it.

All this is worse than foolish, it is criminal. Let our men of large affairs invest their money.

This is a great country, and our large crop which will be in great demand in Europe will soon be on the move.

Closed to the Free Coinage of Silver.

LONDON, June 25.—In the House of Lords today the Earl of Kimberley, Lord of Council and State for India, stated that the India Court had passed an act for the immediate closing of the Indian mints to free coinage of silver.

In the House of Commons Mr. Gladstone gave information similar to that given in the House of Lords by Earl Kimberley.

The Often Repeated Story.

DENVER, Col., June 26.—Colonel Samuel P. Rose was awakened at his residence, No. 1434 Evans street, early this morning by a noise, and, thinking it came from burglars, he took his revolver and started to investigate.

A Kansas Cyclone.

TORREY, Kan., June 22.—A tornado last night, one of the worst cyclones that ever visited Kansas, swept over a section of the country in the Kansas River valley.

Over Four Hundred Drowned.

LONDON, June 23.—A most terrible calamity has befallen the British battleship Victoria, flagship of the Mediterranean squadron.

The Victoria was a twin screw battleship of 10,470 tons and 11,900 horse power.

The first reports of the disaster stated that about 200 men were drowned, but later dispatches show that the loss of life was far greater.

The first dispatches concerning the accident led to the belief that the disaster had occurred off the coast of Tripoli in North Africa.

As soon as the officers of the Victoria saw there was danger of their ship foundering, orders were given to close the bulkheads in order to keep the water into the compartment into which the Camperdown had shoved her ram.

Many Moslems Killed.

REYKJAVIK, June 25.—For several days the Moslems have been preparing to celebrate a religious festival today.

The news of the calamity has caused the most intense excitement, not only among those who had friends on board the ill-fated ship, but among all classes of people.

Imitating European Monarchs.

The Populists of Pennsylvania favor the state's owning and operating the coal mines.

Alongside of these facts comes the news from Italy that that government proposes to go into the insurance business.

It is not strange that the new populists who seem to think that they have found something new are only moving on a cycle of such government as Italy and Austria where the government owns the roads, and where there is no such liberty as we enjoy here.

We are not alarmed at these strange things. We have a strong faith in the conservative element in our land.

A Hotel Collapsed. Four Scott, June 26.—At 9:30 o'clock this morning, without a moment's warning, the Tremont House, a four story brick structure collapsed, burying nearly seventy-five people in the debris.

The Populists Disintegrating.

WASHINGTON, June 23.—Secretary of Agriculture Morton attacked the Populists today in an interview and declared that the Democracy can have no alliance with them.

Mr. Morton declares that the third party is disintegrating, and further that by the nomination of Mr. Cleveland and the wording of the platform the Democrats repudiated all heresies and took a position on the side of sound money and sound principles.

The election of Mr. Cleveland, he said, "meant the condemnation of laws placing artificial prices upon commodities, whether of wool or metal, tin or silver."

The Mississippi Higher than Ever Before.

NEW ORLEANS, June 24.—Two crevasses were reported yesterday morning. The levee opposite the Resene plantation, a few miles above Plaquemine broke last night and was 125 feet wide.

New Orleans, June 24.—The Resene crevasse, twenty miles below Baton Rouge is the most serious one of the season.

One Colored Boy Kills Another.

SALISBURY, June 26.—Paul Means, colored, a boy about 14 years old, living about one mile from town, was accidentally killed yesterday by John Kinley, colored, aged 19 years.

At Harmony, N. C., lightning struck the house of Mr. P. R. Lazenby and killed live stock to the value of \$800.

Mr. W. W. Scott, editor of the Lenoir Topic has been appointed chief of a division in the Treasury Department.

Geo. W. Vanderbilt has recently purchased a tract of 20,000 acres of land in Henderson and Transylvania counties with a view to making a game park.

Robert W. Sharp, a prominent young merchant of Graham Station, was thrown from his wagon last Thursday week, receiving injuries from which he died in a few hours.
