

This Legislature will prove an exception to all its predecessors in one respect at least, and that is with adjourn before its allotted sixty days expire. As stated in last week's Record our legislators cannot draw any pay for any time over sixty days that they are in session. Consequently it is seldom that any Legislature has remained in session a day longer than the time for which they draw pay, and it is still more rare for a Legislature to adjourn as long as it can draw pay. But this Legislature will adjourn nearly two weeks before its pay would expire. The Democratic caucus has adopted a resolution to adjourn on the 25th of this month, and all business will now be transacted as rapidly as possible. The object of this early adjournment is to have time for another short session next year if one should become necessary.

Several bills have been introduced to give possession to certain ex-Confederate soldiers, but they ought not to be passed. If they are not entitled to pension under the general law regulating pensions no special act ought to be passed for their especial benefit. Because it takes that much money from those who are entitled, which is little enough now.

Judge Newark, the Fusion Judge of the 12th district may be impeached for drunkenness as he has been. It will be reported here that the last Legislature was about to impeach him, and it is because he promised "he does not care" and he could not be impeached in case he did not drink again and afterwards withdrew.

The House has passed an important bill for working on the county farms. This bill empowers the county commissioners of any county to buy a farm and work on it and on the result all its proceeds whose sum does not exceed five years. The author of the bill is Mr. W. H. Burtis, who stated in his advocacy that his county has a farm worked by its convicts, and by doing the production and selling it had been reduced a thousand dollars a year.

In every Legislature the impossible diamond-bank terrapin has constantly and persistently "hopped up" and we were not surprised to note in last Monday's proceedings that a bill was introduced on that albatrossing question.

A bill has been introduced and favorably reported to change the present law in regard to "local option" elections, so as to allow elections at any time except within four months of a regular election.

A bill will be passed to increase the number of trustees of the Agricultural Department, so as to take it away from the control of Republican politicians and place it in the hands of the people. This bill will also give the people the right to elect the Commissioner of Agriculture, just as they elect their Governor and other high State officers.

The bill to create Scotland county out of the lower half of Richmond has been favorably reported to the House and is the special order for today. It will probably pass the House and, may pass the Senate, but it is doubtful.

The Senate has passed without a dissenting vote the House bill to compel foreign corporations doing business in this State to take out a license and be incorporated in this State. Thus all foreign corporations (that is, all corporations chartered in other States) are placed on the same footing as our domestic corporations, and can now no longer enjoy advantages and benefits not accorded them. This law is eminently right and proper, and is one of the most important that will be passed by this Legislature. A bill somewhat similar to this law (for it is now a law) was introduced in the last Legislature, but was ignominiously defeated, notwithstanding the hypocritical professions of those pretended "reformers" against trusts and monopolies. And, judging other people by themselves, the "reform" or

Fusion speakers and papers have been predicting that our Democratic Legislature would also certainly defeat this bill. They falsely alleged that the foreign corporations (and especially the railroad corporations) had elected this Democratic Legislature and predicted that it would never pass any bill that would restrict or interfere with those corporations. But the prompt passage of this bill proves that Fusion predictions, like Fusion promises, are seldom fulfilled.

The penitentiary will pass tomorrow into the control of the new board of directors elected by this Legislature. As heretofore stated a bill has been passed to elect twelve new directors, one for each judicial district, and, on last Friday, the following were elected: First District—Barth J. Thompson, of Beaufort.

Second District—Edw. L. Travis, of Halifax.

Third District—Robt. H. Hicks, of Zepher.

Fourth District—Jos. W. Peety, of Johnston.

Fifth District—Wm. H. Osborne, of Guilford.

Sixth District—James C. Davis, of Curritore.

Seventh District—James T. Leonard, of Richmond.

Eighth District—Alfred B. Young, of Curritore.

Ninth District—John L. Gwynn, of Alexander.

Tenth District—Marion E. Mowbray, of McDowell.

Eleventh District—J. Henderson, of Washington, of Mecklenburg.

Twelfth District—Samuel L. Ryan, of Mifflin.

The treaty of peace between Spain and the United States was duly ratified by the Senate on last Monday. Several senators voted for ratification who were opposed to expansion or the annexation of the Philippine Islands.

It is quite a coincidence that the ratification of this treaty also commemorated the battle near Manila, on last Saturday night. It is certainly some strange that while ratifying a treaty of peace with Spain—the oppressor of the Filipinos—we at the same time begin a war with her victims—the Filipinos whom we were professing to aid.

Tornado in Alabama.

Birmingham, Ala., Feb. 7.—The fiercest, most violent and most destructive tornado ever known in Alabama, struck the city on Saturday night, Feb. 7, 1899. It was a most unusual and terrible storm, and was accompanied by a heavy fall of hail and loud peals of thunder. The tornado struck the city at about 10 o'clock, and was accompanied by a heavy fall of hail and loud peals of thunder. The tornado struck the city at about 10 o'clock, and was accompanied by a heavy fall of hail and loud peals of thunder.

It leveled houses to the ground, and the inmates were hurled to flying timbers. Leonard Thomas and his wife and babe were thrown some distance, and the woman and child were thrown against a building and killed.

Passing from Dale to a small village a mile to the north the tornado struck the house of Miss Corbin and tore the roof off. Corbin himself was not hurt, but six members of his family were severely injured.

Windstorm Journal: Sunday afternoon, when the snow had begun to get in the proper condition for sleigh riding, Messrs. Geo. and Cal Caplan and their sister, Miss Kate Arnold, rode in town in an Indian coupe with two horses hitched to it. They came from Avoca, a distance of about 20 miles, and say sleighing was good and that a canoe makes the best sort of a sleigh. They returned Monday morning by the same route.

A young man while traveling on the railroad between Trenton and New York a few days ago, being snoring violently and disheveled his shoulder. A doctor happened to be on the train and set it for him.

A Union county man recently purchased three tombstones and had them placed at the head of the grave of three of his wives, who are buried side by side.

John D. Clews, aged 102 years, and Mrs. Sarah H. Jennings, aged 100, were married in Franklin, Pa., last week by Abnerman Henderson.

There were 52 applicants for law license examined by the Supreme court, on last Monday, three of whom were colored men.

Mr. William M. Boylan, an old and wealthy citizen of Raleigh, died last week.

Washington Letter.

Washington, D. C., Feb. 8, 1899.

Gen. Miles has advised the administration regarding the War Department Commission, by again charging that embalmment was issued to our soldiers. Secretary Alger would like to have Miles arrested, but he is afraid to do so, even if Mr. McKinley would consent, because he knows that it would give Miles an opportunity to prove his charges, and that is just what Miles wants. The positive assertion of Miles that he has abundant proof that the bodies of our embalmment are greatly deficient in the War Investigating Commission, which had almost completed its report declaring that an embalmment was issued to our soldiers. It is now a little bit ahead to make its report, and it is now a little bit ahead to make its report, and it is now a little bit ahead to make its report.

It is now believed that a sufficient number of Senators who were inclined to vote against the treaty will come to the rescue with the adoption of the resolution declaring that the treaty does not constitute an extension of the Philippines to the United States.

Nobody had any objection to the ratification of the treaty, but the ratification of the treaty was delayed by the House by a vote of 108 to 125. The House voted and six republicans voted for the bill and six republicans voted against it. The House voted and six republicans voted for the bill and six republicans voted against it.

BATTLE NEAR MANILA.

Manila, Feb. 8, 7:15 p. m.

The battle near Manila, which was fought on Saturday night, July 17, 1898, was a most unusual and terrible storm, and was accompanied by a heavy fall of hail and loud peals of thunder. The battle near Manila, which was fought on Saturday night, July 17, 1898, was a most unusual and terrible storm, and was accompanied by a heavy fall of hail and loud peals of thunder.

in a particularly tight place near Singdon and Col. Dulone, was compelled to rush past with the reserve, in order to prevent the regulars from being cut off. In the 1st line twelve men were killed and the rest of the line was scattered.

Both sides opened frequently during the engagement. The Americans "lurched" were almost invariably met by decisive "Vivas." Among the natives the Filipinos were especially noticeable for their bravery, about 700 of these natives having fired artillery fire with their bows and arrows.

The scene at Manila when the alarm was given on Saturday night was widely exciting. The American soldiers in the hospitals and at the arsenals were called out, the performances were stopped, Filipinos scurried everywhere and the native industry and the booming of cannon outside the city was plainly heard. The residents on the outskirts of Manila fled into the walled city, with their arms full of articles. All the carriages disappeared as if by magic, the street cars were stopped, the telegraph lines were cut and the soldiers hurriedly, but silently, marched out of the city to the stations assigned them. The streets were closed almost instantly.

Foreigners were to be seen fleeing from many windows, and a number of white nuns were being carried out from the convents and houses. On Sunday immense crowds of people visited the water front and others in the highest towers to watch the bombardment, which were no street cars or carriages to be seen on the streets, which were almost deserted. The Americans to some extent arrested many of the natives and arrested many of them, with the result that when there were several attempts to assassinate American officers those who were on Sunday, American officers were not permitted.

The United States ship Olympia steamed across the bay on Sunday and took up a position near the German cruiser, and the British cruiser, and the American gunboats. The Americans were determined not to give the Filipinos a chance to reappear.
