Ideat tone.
Well, I'll show you a sight that will interest you.
They were now over Ireland, and near large exattle-fashioned building. Light streamed from its many windows, long rows of carriages, with liverest soil. Twelve strokes on the bell in Ars, stored at the great hall entrance, walfing the breaking up of the built the porch was enouged with fair hills. The known, "said the witch to kicky. They are going home nuw; the revolvy is over: they are laughing and chatter, The known one, the revolvy is over; they are laughing and chatter, The known one, the to be below in the house and all be gentlemen, the latter assisting the former to put on their wings and these ormer to put on the to hicky. They are going home nuw; the revolvy is over; they are laughing and chatter, The known or straight on his legs. His a wild specified the fast on the fast of the mark in studies and distaget to the base. Will a specified to the insking, and as he bids his guests good-night con-tains. The known of the study of the basis the former to put on the house ing over the grant success of the after, the set wild specified the fast the grant and chatter ing were field with the previous will a specified the mark over, she is king will a specified the fast of the mark of the stars, and that's what O've been will specified the same the tot will be done for the fast will a specified the stard error were field the same to the stars, what that's what O've been will specified the same to be done for the stars, and that's what O've been will be the stars, and that's what O've been will be the stars of the same more the same to be will be going in goon in the stars, and that's what O've been will be the stars of the same to be stars, and that's what O've been will be the stars of the same to be stars, and that's what O've been will be the stars of the same to be stars, and that's what O've been will be the stars.

CHAPTER II.—Confinued. "Do you know me, I say?" "Indeed, I do. I've often heard of you. You are the—" "The Witch, they call me," she briteket; but I'm the multer of Elm-wood Rocks, and friend of all who seek my nit." "Ho, ho! ha, ha!" and the little fairy-man shock with laughter. "Let's take a drink, Micky." Now, Micky was never known to re-snid Micky." her

of emotion.

CHAPTER IV. 2015.

manded her with much distinctness and repetition to loca the door and adnih her own business of going to sleep. She resolutely put on her bounct and shaw and started for the nearest police sta-tion, where she did her errand so wildly that five minutes of goestioning was come before any sort of understanding could be obtained of what she had seen and heard.

into spent much care, in spite of the mental excitement which must have attended the compactition.
I must be compactition.
I must be means of works have instant test test you that on the second of the line instant test test you that on the second of the kinet. It was the instant is a second of the kinet is a second of the second of t and heard. Having at length ascertained that a robbery had probaby been committed, the police explain obtained from Mrs. Skelly the name of Dolf Begg. No de-scription of him was necessary, for sev-oral of the officers in reserve knew him as sine of the predict's foremost row-dies, and they were sent out to entch him. The Captan and a detective went to the house with Mrs. Skolly and rapped at the Beggs door. There was no response, and the officials opened it. Mrs. Fegg was dead. Her hedy lay on the bed, contorted as by a dying sting-gle, and on her neck were the harts that boll's hand hed made in choking her. her. "It's murder," said the Captain to the detective, "Hurry to the station and sentout an alarm. Be quick!" Michy Begg returned at this juncture, the encountered the amountement of his wire's death lefters for reached the rock. He was dumineumed when they said she had been murdered, and when have adde that body was the massive a

they added that Dolf was the murder r they added that Dolf was the murder, r he origit. "No. no. Dolf couldn't have dons it?" But a moment later, while he was kissing her lifeless face, two officers led Dolf in. He had been caught within ten blocks. A more adject wretch never heard blindell accused of a crime. "Did you find the nonex?" the Cap-tain a-kel of the officers? " was the re-"He had it in ble nonet?" was the re-He had it in his pocket," was the reply. The prisoner was taken away, and the police remained in possession of the

premises. It was not until morning that Nora, returning home from an overträgid visit to a girl freed, knew what had hap-pened in the humble hon ehold. Don-nell had no success in his efforts to confort her, but sho chang to him in her greet, and their decirrations of mitual love were quite naturally a part of his tenders of sympathy and her outbreaks of emotion. THE DECEPTION OF THE UNSTANTIAL EXI-DENCE. The prosecution of Dolf took the reg-

bizz intervention, the calibration of an tight of all tight of the previously formed in the calibration of the previously formed in the calibration of the previously formed that the calibration of the previously formed that the calibration of the previously formed that the calibration of the previously of th DERVE.
The prosecution of Doff took the regular course unhindered. He was commuted by a coroner's jury, indicted by a grand jury, and tried by an over any tried by a non-or any tried by a non-or any tried by a transfer of the prise-that a shadow of a doubt of the prise-that spatial. His differs attempt to sheal this mother's money, has return, as witnessed by the strangtle with the highest would be fouries by his flatter with the prise to the spatial fills. The best mathed yet devised for hey devised with the same set of head and community, it is to be dupon thy and country prop-erty able, men all choses of people, so that every beadity, every incapared in the bar of smaller size. To the question, "Where did you to the sec-imported for her eventsately.

Good Roads Zotes Good Roads Zotes Who Shall Pay For Them ? 6 TTT HE great reason why the farmers alone to build them. This

is wrong. It is absolutely impossible for the farmers above to provide a system of good rouds. The cost is altogether too great, and unless substan-tial help is furnished them, upon som reasonable basis, progress in road building will continue to be slow and

building wint confinue to be sow and unsatisfactory," says Otto Dorner, Chairman of the L. A. W. Highway Improvement Committee, "The help which the farmers re-quire in building roads should come from the etties. The etties are the great centres of wealth; they are the esset exercise of wealth; they are the esset exercise in which invinces as great centres of wonth, may no the great markets in which husiness & done the great distributing points for manufactures and for agricultural products, Agricultural America has built them up and maintains them. The union between the effice and farming districts is close, upon a hun-dred different classics of truths. Each dred different clannels of trade. Each depends upon the other. What is more project therefore, than that the city should unite with the country [9] constructing and maintaining suitable and efficient means of communication and transportation?

"There need be no doubt that the invariants of most American efficience willing ad ready to contribute to the cost of building country reads. Their necessity is as thorearily readired in the cities as it is by the farmers who become stalled on a modely road with a load of grain hauled half way to market. City people know the country better than they have ever known it before, and their business rolations with country people are growing more and more infinate. They are quick to see the convenience and savings which see the convenience and savings which would result from the construction of good roads, and know that they themselves would be, in large measure, the

thing as it sounds when it is used is derived wonner, we in any encounty derived period of it in summer galaxy. Thus to keep the skin smooth and dry and does much toward keeping the column form of the probary for expenditure in complete class of emergency, howed pendur, and after them error try districts for read hubbling purposed pendur, and after them error try districts for read hubbling purposed pendur, and after them error try districts for read hubbling purposed pendur, and after them error try districts for read hubbling purposed pendur, and after them error try districts for read hubbling purposed pendur, and after them error try districts for read hubbling purposed pendur, and after them error try distribution of the quest town tax upon furm property for building secrets in a distinut eity. Thus is one of the most convenient forms of entrying pender for the wonn and the state of entrying pender for the wonn and the try distribution of the size of entrying a little try that is also a little bene trace of the most convert. In a distinut eity, they pender not in a little trace to the wonn and the constant is in a little trace.
