

H. A. LONDON, Editor.

Our present Legislature has done more for the cause of education in North Carolina than any of its predecessors.

The court of impeachment met on last Monday, and by consent of the attorneys of the State and of the respondents, adjourned until today, because the Senate was too busy in its legislative work.

The much discussed libel law has at last been passed by both branches of the Legislature, and a long delayed justice has at last done the editors of North Carolina.

The Legislature has passed a bill to provide for the permanent registration of illiterate white voters in accordance with the requirement of the suffrage amendment to the constitution.

In the next place, the funds provided for education are much greater in amount than ever before. While the usual school tax on property and polls has not been increased, yet a largely increased amount will be raised from license taxes.

By a practically unanimous vote the Legislature has appropriated two hundred thousand dollars a year to the public schools. This is in addition to the regular school fund.

The control of the State penitentiary passes into the hands of the new Democratic board of directors to-morrow. These directors were appointed by the Governor on last Saturday, and they are Messrs. E. L. Travis, of Halifax; J. S. Mann, of Hyde; Nathan O'Berry, of Wayne; J. A. Brown, of Columbus, and W. E. Crossland, of Richmond.

A check-law has been passed by the Legislature for certain counties. It makes it unlawful for any person to allow his or her chickens, or any other domestic fowls, to trespass upon the lands of another.

This bill, now passed by the House, applied only to Cleveland county, but in the Senate many other counties were added by their Senators. Chatham is not one of them. It is rather hard on an old woman to arrest and punish her, if her chickens should fly into a neighbor's field or garden.

The Legislature has not passed any bill to regulate child labor in cotton mills, because an agreement has been signed by nearly all the cotton mill companies in this State which renders such a bill unnecessary.

According to this agreement no child under ten years old will be employed at all in a cotton mill, nor any child under twelve except the children of widows and afflicted parents. The hours of labor are limited to sixty-six a week.

At last one branch of the Legislature (the Senate) has passed a bill to tax dogs, but it applies to only a few counties, one of which is Chatham.

This bill levies a tax of twenty-five cents on every dog, and the taxes thus raised will be used for buying school books for the poor children. There was a roll call on the passage of this bill, and the vote stood 28 for it and 10 against it.

Washington, March 8, 1901.— Senator Platt, of Connecticut, who did not make himself conspicuous as an advocate of the Ship Subsidy bill, is the ostensible author of the resolution for the adoption of a closure rule in the Senate, but that doesn't blind anybody.

When cotton was selling at ten cents a pound our Republican friends said it was on account of the McKinley wave of prosperity. What will they say now, when cotton is selling at about eight and a half cents?

Greensboro, N. C., March 11.— The Proximity Manufacturing Company has let the contract for the erection of a large brick school building at the Proximity Cotton Mills. The building will contain school rooms sufficient to accommodate all the children of school age residing in the district, of which there are about 700. It will also contain a large hall for all kind of public gatherings. It is expected to have the building in readiness for school by the beginning of the fall term.

A large majority of the children in the school district reside in the mill village, and it is principally for their benefit that the school will be maintained. The district's share of the public school money is \$500 a year, and all other funds that will be required to run the school will be furnished by the Proximity Manufacturing Company. The school will be conducted on the plans of the graded schools in the towns and cities.

It has not yet been decided whether attendance on the part of children of the mill operators will be made compulsory. If it is not done every effort will be made to induce the parents to have their children avail themselves of the opportunities afforded.

Wilmington Messenger: Mr. James Knight, aged 86 years, died on Monday. He was probably the oldest railroad employee in the South, if not in the United States. Mr. Knight ran an engine on the Raleigh and Gaston road in 1835, and had for more than 60 years been constantly employed in railway service.

Doctors Say: Whooping Cough and Intermittent Fever. Whooping cough and intermittent fever are prevalent in miasmatic districts and are invariably accompanied by derangements of the stomach, liver and bowels. The secret of health is in the liver. The liver is the great "driving wheel" in the mechanism of man, and when it is out of order the whole system becomes deranged and disease is the result.
