

European Oil Pipe Line.
Minister Jackson of Athens, under date of April 12, 1903, reports that the Roumanian parliament has appropriated the sum of 500,000 francs (\$750,000) for preliminary work connected with the building of a pipe line from Campina, in the petroleum district, to Constantza, the Roumanian Black Sea port crossing the Danube by the railway bridge at Cernavoda.

FIT'S were not reported. No other noteworthy news from first day's use of Dr. Kane's Food. News of interest from the north and west. Dr. H. H. Kane, Ltd., 101 Arch St., Phila., Pa.

A good bit of heavy is exhibited after the danger is past.

\$1.00 the 500-Pound Steel Range Offer.
If you can use the best 500-pound steel range made in the world, and are willing to have it placed in your own home on three months' free trial, just out this notice only and send \$1.00 to **ROBEY & CO.**, Chicago, and you will receive free by return mail a big 18-inch of the steel range and will also receive the most wonderful \$1.00 steel range offer, an offer that places this best of ranges in your home in the hands of every family which offers that no family in the land, no matter what their circumstances may be, or how small their incomes, need to without the best cooking or heating stove made.

The average political candidate does not give as much for the nation as he does for the nomination.

Mrs. Winslow's Cooking Stove for sale. **Teaching** with a view to the education of the young. **Teaching** with a view to the education of the young.

It's where the heart is centered that the brain makes the heart work tender.

Utzman Fashionable Dress color Silk, Wool and Cotton at one pricing.

When it comes to starting things up the cook is generally all there.

CITY THAT IS UNDERGROUND.
It is in a Turkestan Cave, and Would Hold Thousands.

In Turkestan, on the right bank of the Amu Darya, in a chain of rocky hills near the Bokharan town of Narkat and a number of large caves which upon examination some time ago, were found to lead to an underground city built apparently long before the Christian era.

According to officials, inscriptions and legends upon the gold and silver money unearthed from among the ruins, the existence of the town dates back to some two centuries before the birth of Christ.

The underground Bokharan city is composed of an enormous labyrinth of corridors, streets and squares, surrounded by houses and other buildings two or three stories high. The edifices contain all kinds of domestic utensils, pots, urns, vases and so forth.

In some of the streets falls of earth and rock have obstructed the passages, but generally the visitors can walk about freely without so much as lowering his head.

The high degree of civilization attained by the inhabitants of the city is shown by the fact that they built in several styles, by the symmetry of the streets and squares and by the beauty of the houses, fountains and wells, and of the ornaments and ornaments which have been found.

It is supposed that long centuries ago this city, so carefully concealed by the bowels of the earth, provided an entire population with a refuge from the incursions of nomadic savages and robbers.

Chicago, Special.—John Temple, director of the "Problem of the Races" last week before the 45th convention of the University of Chicago. He said in part:

AGRICULTURAL.
To Make a Man's Nest.

Take a box fifteen inches square, fill it with four inches of top soil with material you use for nests. Make this firm and level. Take a strip of roofing—tin or paper will do—about forty inches long, and four inches wider than the box. Lay this on the soil and level it to the top of the box. This will have a nest that will hold from sixteen to twenty-four eggs, and one egg will cover them safely.—The Epitomist.

Grain and Soil in Summer.
While in many sections grain feeding must be done this summer, the ordinary practice is to feed grain to cows that are in pasture. This is no knowledge to be a mistake by those who have tried both methods, provided their cows were made of Cheshmeh breed. In some sections the belief is that the cows are born fat the year through. That this results in a good milk crop can be proved, for there is a large quantity of the milkability of the cow, and the other half of the cow, for the milk, and the other half of the cow, for the milk, and the other half of the cow, for the milk.

It is supposed that long centuries ago this city, so carefully concealed by the bowels of the earth, provided an entire population with a refuge from the incursions of nomadic savages and robbers.

THE LENGTH OF LIFE.
Longevity of Man Increasing, Says an Austrian Physician.

Medical men are discussing a lecture by Professor Pilger, of the University of Bonn, on longevity, in which he asserts that the average length of human life is steadily increasing, says the Indiana Medical Journal. He maintains that one-third of all the deaths registered in Munich are due to heart disease, brought on by the immoderate use of beer, and that tobacco also claims a large percentage of the victims. Among forty centenarians who have come under his notice there was only one smoker, while nearly all professed to a moderate use of alcohol. What Professor Pilger most seriously warns people against is the thought and fear of death. The mind must be occupied, he says, in order to secure longevity. Hard-working men who retire rarely live much longer.

The German census statistics show that in 1871 the centenarians numbered 147 men and 237 women, but in 1901 only five men and thirty women. The above report is of interest. As a well known fact in Munich the consumption of beer per capita is greater than elsewhere in the world and the percentage of heart disease is higher. Beer has a wide influence on the heart than either wine or whiskey. Tobacco is better borne by youth and the aged than by youth. No child should be allowed to smoke before the age of twenty-five. Wine has been said to be the milk of old age; it should not be used until past the noon of life. That the German census shows a reduction of old men since the war with France is natural. The use of industrialism, of city life, of strain, of alcohol and of the venereal diseases with increase of tuberculosis and general paucity is the present age of Germany as it is of the United States. Only the sodate and the temperate in all things can expect length of days.

At a recent tea-party meeting, said a visitor who just "chopped" one of the speakers, made the statement that the male teachers of New York City public schools were all graduates of the original ability; that they were just such men as one finds outside of the city in the positions of superintendents and principals of all kinds of schools. This statement seemed to me to be worthy of verification by something more reliable than the words of an enthusiastic partisan, so I set to work making inquiries about those male teachers in the school nearest my home. The following are the data given me by the principal of that school, which I am told, is by no means more favored in the way of appointments than the others in the system: "Out of ten male teachers all but three could boast if they desired to do so, the possession of a Bachelor's degree. Two of the seven are masters, with some work done toward a Ph. D., and nearly all are doing some postgraduate work either at Columbia or at the State University. The three spoken of are ex-high school principals from up-State cities." My respect for the New York City school teacher has been wonderfully increased.—New York Times.

Teachers Get a Year Off.
Successful teachers of Chicago schools who wish to continue their studies in colleges, universities, etc., now may be granted leave of absence for the period of one year, under the authority of the superintendent of the schools.—New York Commercial Advertiser.

GRATEFUL, HAPPY WOMEN.

Thank Pe-ru-na for Their Recovery After Years of Suffering.

Miss Muriel Armitage, 25 Greenwood Ave., Detroit, Mich., District Organizer of the Royal Company of Temperance, in a recent letter, says:

"I think that a woman naturally drains from making her foolishly public, but rest and health have never so much to me that I feel for the sake of other suffering women it is not easy to tell what Pe-ru-na has done for me."

"I suffered for five years with uterine irregularities, which brought on hysteria and made me a physical wreck. I tried doctors from the different schools of medicine, but without any success. I had read in the papers of Pe-ru-na and I had heard of it from a friend. I bought an old bottle, which I used to try Pe-ru-na and I found it was just what I needed. I had never before, and now I feel as if I had found a new life. I am a grateful, happy woman today."—Miss Muriel Armitage.

Female Weakness is Pelvic Catarrh.

Always Half Sick Are the Women Who Have Pelvic Catarrh.

Catarrh of any organ, if allowed to progress, will affect the whole body. Catarrh without nervousness is very rare, but pelvic catarrh and nervousness go hand in hand.

What is so distressing a sight as a poor, half-sick, nervous woman suffering from the many and varied symptoms of pelvic catarrh? She does not consider her-

self as enough to go to bed, but she is far from being able to do her work without the greatest exhaustion. This is a very common sight, and it is almost always due to pelvic catarrh.

It is worse than foolish for so many women to suffer year after year with a disease that can be permanently cured. Pe-ru-na cures catarrh permanently. It cures all chronic diseases as well as a slight attack, the only difference being in the length of time that it should be taken to effect a cure.

If you do not desire prompt and satisfactory results from the use of Pe-ru-na, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address: Dr. Hartman, President of The Hartman Sanitarium, Columbia, Ohio.

Best for the Bowels.

Cascarets CANDY CATHARTIC.

GUARANTEED CURE for all bowel troubles, constipation, biliousness, bad breath, bad blood, wind on the stomach, bloated bowels, foul mouth, headache, indigestion, pimples, itching, etc. Take one or two Cascarets today, for you will never get well and stay well until you start taking Cascarets today. Home Duties.

The real heroines of every day are in our homes. Frequently, however, it is a mistaken and useless heroism.

Women seem to listen to every call of duty except the supreme one that tells them to guard their health. How much harder the daily casus becomes when some derangement of the female organs makes every movement painful and keeps the nervous system unstrung? Irritability takes the place of happiness and amiability; apathy and suffering takes the place of health and strength. As long as they can drag themselves around, women continue to work and perform their household duties. They have been led to believe that suffering is necessary because they are women. What a mistake!

The use of Lydia E. Pinkham's Vegetable Compound will banish pain and restore happiness. Don't resort to strong stimulants or narcotics when this great strengthening, healing remedy for women is always within reach.

FREE MEDICAL ADVICE TO WOMEN. If there is anything in your case about which you would like special advice, write freely to Mrs. Pinkham. No man will see your letter. She can surely help you, for no person in America has such a wide experience in treating female ills as she has had. Her address is Lynn, Mass., and her advice is free. You are very foolish if you do not accept her kind invitation.

For proof read the symptoms, suffering and cure recited in the following letters:

"Dear Mrs. Pinkham.—I wish to express to you the great benefit I have derived from your advice and the use of Lydia E. Pinkham's Vegetable Compound. My trouble was female weakness in its worst form and I was in a very bad condition. I could not perform my household duties, my back ached, I was extremely nervous, and I could not eat or sleep, and the bearing-down pains were terrible. My husband spent hundreds of dollars to get me well, and all the medicine that the doctors prescribed failed to do me any good; I resorted to an operation which the physician said was necessary to restore me to health, but I suffered more after it than I did before; I had hemorrhages of the womb that nothing could seem to stop.

"I noticed one of your advertisements and wrote you for advice. I received your reply and carefully followed all instructions. I immediately began to get stronger, and in two weeks was about the house. I took eight bottles of Lydia E. Pinkham's Vegetable Compound and continued following your advice, and to-day I am a well woman. Your remedies and help are a blessing to suffering women everywhere. I cannot find words to thank you for what you have done for me."—Mrs. LORRIE V. NAYLOR, 1325 N. J. Ave., N.W., Washington, D. C.

"Dear Mrs. Pinkham.—I write to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I was suffering with falling of the womb and could hardly drag about, but after taking five bottles of Lydia E. Pinkham's Vegetable Compound I was completely cured. I can now do all the work I want to do all my life."

"I think your medicine one of the best remedies in the world."—Mrs. J. M. Linn, 141 Lyndal St., Newcastle, Pa.

"Dear Mrs. Pinkham.—Lydia E. Pinkham's Vegetable Compound has done a great deal for me. I suffered so much from falling of the womb and all the troubles connected with it. I doctored for years with doctors and other remedies but received only temporary relief.

"I began taking your medicine and had a great deal of relief. My husband said that I could keep right on taking it as long as it gave me relief from my suffering, as I could not expect to be cured by one or two bottles. I get so and am now able to be on my feet and work hard all day, and go to bed and rest at night. Thanks to your Vegetable Compound I am certainly grateful for the relief it gave me. It is the mother's great friend. I would not be without it in my house, for when I feel tired or out of sorts I take a few doses and feel all right again. I would recommend your medicine to all tired mothers, and especially to those suffering as I was."—Mrs. R. P. CHAMBERLAIN, Bennet, Neb.
