

Miss M. Cartledge gives some helpful advice to young girls. Her letter is but one of thousands which prove that nothing is so helpful to young girls who are just arriving at the period of womanhood as Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I cannot praise Lydia E. Pinkham's Vegetable Compound too highly. It is the only medicine I ever took which cured me. I suffered from my first menstrual period, I felt sick and dizzy at times I could not carry my studies with the usual interest. My stomach became flatulent. I had headaches, nervousness and dizziness. In fact, I was in a state of nervous prostration. I had been told that Lydia E. Pinkham's Vegetable Compound was the best medicine for my case. I bought a bottle and took it. In a few days I felt better. In a week I was in perfect health. I feel bright, full of life, and find all my work easy. I am indeed glad to feel the experience with Lydia E. Pinkham's Vegetable Compound. For a number of years I have used it. I feel that it is the best medicine for my case. I have written to you many times. I am sure you will be glad to hear from me. I am, dear Mrs. Pinkham, your grateful friend, Miss M. Cartledge, 124 Whitehall St., Atlanta, Ga. — 1908. (Signed) Miss M. Cartledge."

No. 10

Tobacco Cure
The only cure for tobacco addiction. It is a powerful medicine that cures the habit in a few days. It is sold in bottles of 10 and 25 cents.

Doctors Fall in Line.
Practicing Physicians recognize the infallible reliability of Doan's Kidney Pills by prescribing them for Backache, Kidney, Bladder and Urinary Disorders—a tribute won by no other Proprietary Medicine. For cases cited from "Notes of Practice," by Dr. Leland Williamson, of Burlington, Ark.

FOURTY-NINE CASES. Buffalo, N. Y.
Gentlemen—I have been engaged in the practice of medicine in this section for forty-nine years. This is a very early example, on the Eastern Continent, of the use of Doan's Kidney Pills. It is particularly interesting and instructive, as most of the cases are of the kind which are usually considered as incurable. I have seen many of these cases, and have seen the patients in the last stages of the disease. Many of these cases have been cured by the use of Doan's Kidney Pills. I have seen the patients in the last stages of the disease, and have seen the patients in the last stages of the disease. I have seen the patients in the last stages of the disease, and have seen the patients in the last stages of the disease.

CASE 1. These cases are of the kind which are usually considered as incurable. I have seen many of these cases, and have seen the patients in the last stages of the disease. I have seen the patients in the last stages of the disease, and have seen the patients in the last stages of the disease.

CASE 2. These cases are of the kind which are usually considered as incurable. I have seen many of these cases, and have seen the patients in the last stages of the disease. I have seen the patients in the last stages of the disease, and have seen the patients in the last stages of the disease.

CASE 3. These cases are of the kind which are usually considered as incurable. I have seen many of these cases, and have seen the patients in the last stages of the disease. I have seen the patients in the last stages of the disease, and have seen the patients in the last stages of the disease.

CASE 4. These cases are of the kind which are usually considered as incurable. I have seen many of these cases, and have seen the patients in the last stages of the disease. I have seen the patients in the last stages of the disease, and have seen the patients in the last stages of the disease.

CASE 5. These cases are of the kind which are usually considered as incurable. I have seen many of these cases, and have seen the patients in the last stages of the disease. I have seen the patients in the last stages of the disease, and have seen the patients in the last stages of the disease.

CASE 6. These cases are of the kind which are usually considered as incurable. I have seen many of these cases, and have seen the patients in the last stages of the disease. I have seen the patients in the last stages of the disease, and have seen the patients in the last stages of the disease.

CASE 7. These cases are of the kind which are usually considered as incurable. I have seen many of these cases, and have seen the patients in the last stages of the disease. I have seen the patients in the last stages of the disease, and have seen the patients in the last stages of the disease.

FITS permanently cured. No fits or nervousness after the use of Dr. Eline's Great Nerve-Healer. 221 Broadway, New York. Dr. H. H. Kline, 101 Arden St., Philadelphia.

The U. S. Dept. of Agriculture
Circulars on various subjects. For example, Circular No. 100 on "The Culture of the Cotton Plant." Circular No. 101 on "The Culture of the Sugar Beet." Circular No. 102 on "The Culture of the Tobacco Plant."

AGRICULTURAL
Hints to Farmers. The farmers of Germany have discovered that dried sugar beets make an excellent fodder, which may be used as a substitute for maize. The beets may be kept without difficulty if they are properly sacked and stored. This use of them will be likely to prevent any over-production of sugar. They will be turned into fodder when the price of sugar falls too low.

Rheumatism in Swine.
An unusual number of inquiries are made regarding a cure for rheumatism among swine, mainly with the summer-dropped pigs. In the majority of cases this trouble is due to some cause other than dry or damp, perhaps both. This being the case, the first thing to do is to fix the pens, seeing to it that the floor is dry and kept so, and that the pigs have a heavy bedding of dry material every night. This is one that the water given them is clean, and that there are no direct draughts of air blowing over them at night. To relieve the attack, let the feed be of middlings and milk, for the pigs and the hogs also, with a half pint of dead flax seed divided equally for the three feeds daily and mixed in the feed. If other articles follow, give five grains each of salol and quinine combined in some vegetable, such as the hull of small flax.

A Wagon Tongue.
It is not always possible to have a two-horse wagon with only light for long distances, where it is best to use the two horses. The illustration shows a tongue which may be easily made by a local blacksmith of small expense for the use of a light one-horse wagon. The illustration shows a tongue which may be easily made by a local blacksmith of small expense for the use of a light one-horse wagon.

Not So Bad.
On the average, it is said, a week's work is done in Germany for the amount of one day's work in the United States. This is due to the fact that the German workman is more efficient than the American workman.

Doctors Cannot Be Cured.
The illustration shows a tongue which may be easily made by a local blacksmith of small expense for the use of a light one-horse wagon.

An Astonishing Comparison.
The illustration shows a tongue which may be easily made by a local blacksmith of small expense for the use of a light one-horse wagon.

A Cattle Barn.

ALABASTINE

The Only Sanitary and Permanent Wall Coating

ALABASTINE is not a disease-breeding, hot water glue wall finish. It is a natural, rock-bound composition, in white and heavy cream colors, which is applied in a dry, powdery form, ready for use by simply mixing with cold water. Any one who has used Alabastine will testify to its superiority over all other wall coatings. It is a permanent, fireproof, and water-resistant wall coating, which will last for years without need of repainting. It is a sanitary, healthful, and beautiful wall coating, which will give your walls a clean, bright, and permanent finish. It is a wall coating that is easy to apply, and easy to clean. It is a wall coating that is suitable for use in all climates, and in all rooms. It is a wall coating that is a true and permanent wall coating.

Hot and Cold Water Kalsomines Have No Merit

Some dealers try to sell them, buying them cheap, and trying to sell on Alabastine's demand until such time as their customers learn of the imposition.

THEY ARE WORTHLESS PREPARATIONS

If you cannot buy Alabastine of your hardware, paint or drug dealer, refer all inquiries, and write us. We will tell you where you can get Alabastine without delay, so write to us today. \$500.00 GIVEN AWAY. Write for particulars.

Headquarters, 1000 Broadway, New York, N. Y. and our agents' up-to-date lists on brevity of the home. Free. They Alabastine only in the U. S. A.
