O. WAD SOME POWER GIFTIE GIE US.

During the holidays that have just passed, it has been our privilege to view some circumstances that were enough to make your blood run cold, and the very existence of humanity stand at a tremble. Not all bad, no. Some of it was of a touching nature that which appeals to the very soul and nourishes the ambition of any

There is no measure given either by avoirdupois or apothecary whereby the degree of joy and comfort can be adequately determined, erperienced by the unfortunates who are cared for by the good, kind people of any town or community.

During the season of festivities, all those confined in the jail at Pittsboro, as well as those aged and decrepit folks at the county home, together with the poor and unfortunate in Siler City, Pittsboro, Goldston, or any of the small towns, communities or rural section where good, pure men and women live, have been provided for. They have been enabled to share in

the good things that others enjoyed, Perhaps those who really enjoyed the Christmas season most, were those who made it possible for others to be happy At least evidences point that way. The miserable, miserly man or woman who sat down to a Dives feast must call the season of small import, while those who visited Lazarus and bestowed affection and good things upon him, rejoice that the season was one of gladness and happiness su-

Driving Comfort in Winter The Buick "Model 45" Six Cylinder-\$1195

As complete as has been the development of the enclosed car, Buick designers have not neglected to improve the open type of car, building into it a measure of comfort, convenience and weather protection surpassed only by the more expensive closed vehicle. Protection against wind and snow is assured by the snug-fitting storm curtains that open with the doors. The Buick design of storm curtains with a special weather strip provides a coziness, comparable to that of any closed car, while windshield wiper and tight fitting windshield, adjustable from within, make driving

Added to this, and equally important in winter driving, is the splendid performance that a Buick car always produces—its constant and surplus power—its roadability and perfect balance

For cold weather driving there is no superior to the Buick open cars.
