Helps Fight Consumption

Bear's Emulsion Found to Be Great Aid in Battle Against Disease.

A strong body is the greatest asset in the fight against consumption and weak lungs and other diseases. People who are constantly catching colds and coughs do so because their bodies have become run down and are no longer able to quickly throw off the germs. In order to rid one's self of danger from tuberculous germs it is necessary that the body be restored to health and vigor.

Bear's Emulsion has been found a very wonderful aid in building up the strength and powers of resistance of nervous, weak people. This wonderful remedy is a natural product that is pleasant to take—builds up the whole system, inducing better appetite, making the sufferer able to throw off the germs of disease.

Bear's Emulsion aids the digestive organs in their work. It has been found a wonderful aid in the treatment of coughs, colds, bronchitis, grippe and weak lungs. It is so certain that you will be benefited by its use that your money will be refunded if you are dissatisfied after following the directions.

Bear's Emulsion is for sale at leading druggists, or will be sent direct from the maker for \$1.25.

Mother—Why, Willie, what makes you wish that?
Little Willie—Because then I could stay in bed all day.—Indianapolis Star

DYED HER DRAPERIES, SKIRT AND A SWEATER WITH "DIAMOND DYES"

Each package of "Diamond Dyes" contains directions so simple that any woman can dye or tint faded, shabby skirts, dresses, waists, coats, sweaters, stockings, hangings, draperies, everything like new. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is guaranteed, even if you have never dyed before. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run. So easy to use.—Advertisement.

Conceding His Defects.
"Your handwriting is very bad indeed," said a man to a young college friend who was more addicted to sport than study; "you really ought to learn to write better."
"Yes," returned the young man, "it's all very well for you to tell me that; but if I were to write better people would be finding out how I spell."—London Answers.

Wright's Indian Vegetable Pills contain nothing but vegetable ingredients, which act gently as a tonic and purgative. Adv.
Can't Be Bribed.
North—"Writers of jazz music are paid thousands of dollars." West—"But they keep right on writing it!"

Genuine

ASPIRIN

SAY "BAYER" when you buy. Insist!

Unless you see the "Bayer Cross" on tablets, you are not getting the genuine Bayer product prescribed by physicians over 23 years and proved safe by millions for

- Colds
- Headache
- Toothache
- Rheumatism
- Neuritis
- Lumbago
- Neuralgia
- Pain, Pain

Accept only "Bayer" package which contains proper directions. Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark of Bayer Manufacturers of Monoclonalacetate of Salicylic Acid.

SHOWS SUPREMACY OF MAN

Single Blast of Dynamite Has Power to Destroy What Nature Took Centuries to Build.

The next time you pass one of the excavations that are being made in the solid rock here, there and everywhere in New York these days for foundations of new buildings, stop, look and wonder, says the New York Sun. Every foot of rock that is destroyed by these workers with pick and steam shovel, drill and dynamite, nature spent a hundred years to make.

For stratified rock forms at the rate of about one foot in a century. So it follows that if you see an excavation through stratified rock 30 feet deep this means that within a few weeks' time 3,000 years of nature's labor has been destroyed through the brain and brawn of man.

This is one thing to wonder over when looking at such an excavation. But it is not all.

When this rock was being formed man had not appeared on the earth. Yet the earth in those dim ages of the past teemed with living creatures. Creatures that, through the passing of untold millions of years, developed from weak invertebrates into huge, weird monsters unlike anything known today. They ruled the earth, the air and the water. And part of their dominion was this region of New York where man's dominion is now supreme.

Some of these creatures, as they walked over this region, stepped into shallow water and left the imprint of their footsteps in the mud, which, as it hardened into rock preserved the imprint, a perfect outline on the surface of the stone. Others, sinking to the bottom of deeper water that was then where is now dry land, were buried in the mud. As this mud turned to rock, their bones fossilized into the water from the land and the streams, settled to the bottom and, in its turn, was hardened into stone. And so, layer on layer, the rock was formed, miles in depth. As it formed it imprisoned and turned to fossils the bones of many a bizarre creature that no man ever saw, but whose likeness and history may be found in these records of stone.

A blast of dynamite! The rock falls shattered. Men lift the pieces into containers. The great cranes, as by magic, lift the containers and dump the contents into the wagons waiting above. Who cares if the work of 30 centuries is destroyed? Soon this great hole will be the basement of a skyscraper. It will be filled all day and every day with men carrying on their busy bustling activities with no thought of the strange animals that made this very spot their home millions of years gone by.

Pulverized Coal.

With the commercial advent of pulverized coal many engineers who made preliminary tests with the substance drew conclusions that it would never become an important factor in power development. At that time the remarkable ability of the internal combustion engine became known and coal-power engines, as a whole, were given but a short period of life. Investigations have proved, however, that coal as a power factor will live for many years to come, at least in this country, as the United States contains more than half the available coal deposits of the world.

Pulverized coal has one decided advantage—it burns almost smokelessly. Injecting the pulverized material into the furnace is accomplished by much simpler means also than with lump coal. Boiler repairs are less frequent in factories using pulverized coal than in those employing lump coal.

Advertising.

Advertising has become such a monumental feature of newspapers today, that it is somewhat refreshing to see how unsophisticated appear the advertising attempts of a couple of centuries ago. The following is taken from a copy of the American Weekly Mercury, dated November 29, 1722:

"Whereas, Mathew Burne of Chester county served John Camm two years (that is, 10 or 12 months), at stocking weaving and other work, during which time John Camm's stockings bore many reflections, and now the said Mathew Burne goes about selling stockings in John Camm's name, as tho they were his make, which is false and not true."

It is sincerely to be hoped that "said Mathew Burne" felt that he got his money's worth from the insertion of this notice.

Plantigrade.

Interesting is the origin of the word "plantigrade," frequently used in the science of zoology. Its classic origin is the Latin "planta," the sole of the foot, and "gradus," meaning a step.

The species homo, with the exception of the man with a broken instep, is not, however, properly speaking, a plantigrade, because he does not walk on the entire, or nearly the entire, sole of his foot.

The high instep saves men from being designated as plantigrade.—Chicago Journal.

Suspected.

The general manager entered the president's office, mysteriously.

"That new assistant to the superintendent," he said, "reports every morning on time, works hard all day, never flirts with the stenographer, attends strictly to business and is the last to leave at night."

The president turned white and trembled.

"It is as I expected!" he exclaimed. "A detective."—New York World.

Good to the last drop

The fate of the luncheon may be predestined by the hostess who will only take the pains to see that Maxwell House is served.

COUGH

Prescription

Try PISO'S
Automatically quick relief. A syrup—different from all others—pleasant—no upset stomach—no opiates. 35c and 50c everywhere.

LOS ANGELES MAN SAYS IT NEVER FAILS

"Tanlac is my stand-by, and I wouldn't think of being without it. It has set me on my feet more than once when I had such bad spells of stomach trouble. I thought I couldn't get well." This emphatic statement was made recently by W. C. Wallace, 320 N. Normandy Place, Los Angeles, Calif.

"An acid stomach and indigestion caused me indescribable suffering for more than four years," he said. "Awful pains would strike me soon after eating, and I would be almost doubled up in agony. Often I had to take to my bed, and I would lose much weight with every spell. I was told I had ulcers, enlarged stomach and other ailments, but all my efforts to get relief failed. I kept getting worse, and figured I would have to get something to help me or I couldn't keep going much longer."

"I read in the papers where Tanlac was helping others with stomach troubles, so I began taking it. It never failed to straighten me out, and I gained back my lost weight, too. I am more grateful than I can say for the good this medicine has done me, and I do not hesitate to give it my fullest recommendation."

Tanlac is sold by all good druggists. Over 35 million bottles sold.—Advertisement.

Awful Plight of a Tramp.

Tramp (at the back door)—Kind lady, I ain't one er them what's seen better days. I ain't 'ad no better days. I've bin neglected right from the start—bein' born in a little attic in Lunnon while me parents was down at South End enjoyin' theirselves.—London Punch.

Cuticura Comforts Baby's Skin
When red, rough and itching, by hot baths of Cuticura Soap and touches of Cuticura Ointment. Also make use now and then of that exquisitely scented dusting powder, Cuticura Talcum, one of the indispensable Cuticura Toilet Trio.—Advertisement.

Spreading the News.

"I hope that you won't object to my guests knowing that I paid you \$1,000 to entertain them this evening?" remarked Mrs. Gawker.

"Not at all, ma'am," replied the tenor, in sarcastic tones. "Would you like me to pin the check on my coat lapel just before I sing?"—Birmingham Age Herald.

Many people imagine that Worms or Tape-worm cannot be gotten rid of entirely. Those who have used "Dead Shot"—Dr. Peery's Vermifuge, know that they can. Adv.

An old bachelor says that marriage quickly sobers a man who is intoxicated with love.

Knew What They'd Catch.

The twins had gone in swimming without mother's permission and they anticipated trouble.

"Well," said Tommy, philosophical, "we're both in the same boat, anyhow."

"Yes," returned Ray the humorist of the family, "but I'm afraid it's a whaleboat."

Beneficent Industry.

The very exercise of industry in itself is delightful and gives an innate satisfaction that tempers all annoyance.

IF SICK, BILIOUS! START YOUR LIVER

Don't Take Calomel! "Dodson's Liver Tone" Acts Better and Doesn't Gripe, Salivate or Make You Sick—Don't Lose a Day's Work—Read Guarantee!

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver, which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated, or you have headache, dizziness, coated tongue, if breath is bad

or stomach sour, just try a spoonful of harmless Dodson Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

Dear Sir:
I have used Mrs. Winslow's Syrup for many years for my three babies and it has proved successful. One of my babies had colic and I gave him Mrs. Winslow's Syrup. It certainly was fine, for it cured him.
Yours truly,
(Name on request)

Diarrhoea, colic, flatulency and constipation are quickly overcome by this safe, pleasant, efficient remedy. Guaranteed non-narcotic, non-alcoholic. Formula on every label.
