GOOD THINGS UP TO DATE.

TO MAKE HALLWAY PLEASING TO EYE

This attractive hallway was furnished with a golden oak drop-leaf table from a department store, a chair from the attic and an old mirror. If you are not good at drawing, take any design that will fit the spaces on the furniture, prick holes with a large pin, around the outlines of the flowers and, placing the design face down on the furniture, dust powdered chalk through the holes. The design is thus transferred to the surface and can be painted in with oil paints.

HUNTER BRAVES BEAR IN HIS DEN

Wounded Animal, Maddened With Pain, Charges Man Who Has Close Call for His Life.

Malone, N. Y .- If you had tracked a big bear to his den among mountain rocks and Bruin laughed at you and refused to come out and be killed, what would you do? Leave him to himself and look for him another day? Or would you crawl in after him as Old Put crawled in on one memorable occasion and bearded a

wolf in his lair? That is just what A. M. Johnson, a Chateaugay hunter, did the other day, and he got his bear. Johnson, with Ed Cooke, Jerry Mahoney and other Chateaguay men, was stalking deer in the woods near Chateaugay lake. Coming upon tracks of a bear they abandoned their deer hunt to follow him. After a long trail they arrived at a naturally formed den in a rocky ledge. As the bear's tracks had ended there, they knew that the beast had taken refuge in the cave. How to get at the animal was the question. He showed no willingness to come out and let the hunters shoot him, nor did he promise to be a cordial host.

But Johnson was unwilling to leave without at least a sight of his game. So, holding his rifle in position for instant use, the hunter entered the den. He had not penetrated far before he caught sight of the animal. Recognition probably was mutual in the dim light of the cave, and Johnson took no chances of a warm welcome from the den's owner. He fired two shots in quick succession. One of them broke the bear's jaw.

Maddened with pain and rage the beast made a rush for the hunter, who backed out of the den as quickly as possible with the bear close upon him. As the animal appeared in the open the other hunters fired upon it, and a fusillade of bullets soon put in out of power to fight. The animal weighed 300 pounds.

"From Sublime to Ridiculous."

Although this saying is generally attributed to Napoleon, it is to be found in the works of Tom Paine, before Napoleon's time. Paine says: "The sublime and the ridiculous are often so nearly related that it is difficult to class them separately. One step above the sublime makes the ridiculous, and one step above the ridiculous makes the sublime again."
