

Have Had a 'Wonderful Year.'
 Raleigh, May 4.—Dr. Charles E. Maddy, secretary of the Baptist board of missions, closing the books on another year of Southern Baptist convention activities in North Carolina, characterized it as a "wonderful year's work."

White full details are not yet available, the North Carolina Baptists have paid in on the 75 million campaign quota of \$6,228,000, a total of \$3,629,956 during the past three and one-half years. From May, 1922, to May, 1923, State Baptists paid on 75 million campaign pledges a total of \$88,831.11. This does not include anything paid for local support in churches and all of it goes to missions, benevolences and education.

Out in California they have a novel way of deciding liquor cases. Liquor seized by officers is used as evidence. A case happened at Los Angeles the other day and "evidence" was taken along with the jury to the jury room after hearing the testimony after drinking the "evidence" and they went to report they stood seven to five for conviction. It must have been pretty good "evidence."

The commencement at Moses school will be held Saturday night, May 12. The exercises were scheduled to take place last Saturday night but owing to the stormy weather was postponed to next Saturday night. The teacher asks us to invite everybody and insure a pleasant occasion.

WHO IS MY NEIGHBOR?

The question, "Who is my neighbor?" has for ages been passing at times, through the minds of men. He is the one, be he for or near, that helps us when we are in need. It may be we need some one to labor for us or it may be we need a cheerful word, a bit of encouragement or even a pleasant smile. Some weeks ago J. F. Durham, of Brown's Chapel community, suffered a broken leg. Since that time he has been confined practically all to time to his bed and room. He being dependent on his farm for a living, naturally felt discouraged and heart sick. But since his accident his neighbors and friends have continuously given him aid in many ways. Some helped in breaking his land and some in getting his cotton planted, and last Friday, May 4th, they went with horses, plows, harrows, planters etc., and prepared and planted his corn crop, about twelve acres.

There were 27 horses and 21 men at work until this was done. It was a beautiful sight to see so many people working with merry hearts and willing hands doing something for their neighbor and good friend. Mr. Durham appreciates so much the many things that are being done for him.

He has proven that he is a neighbor worth while by the many good things he has done for others, always willing to aid anyone he could, and his neighbors appreciate and love him. If we would all be diligent in doing for others the little things that do us no harm but help and encourage others life would be more pleasant and we would all be happier.

We will all, after this life is over, only be remembered by what we have done in life, be it good or bad.

HENDLEY'S COMMENTS

Bits of Opinion Noted.

PETTY POLITICS.

The school trustees at Parkton, in Robeson county, have certainly contrived to place themselves in an embarrassing position.

They refused to let J. W. Bailey speak there at the commencement exercises of their school because they seemed to think that such a speech would cause the loss of a few votes for McLean, who is contemplating a race for gubernatorial honors in the State at the next election, but after they had refused to let him come there and it became common knowledge in the community they reneged and asked Mr. Bailey to fill the engagement as commencement speaker but Mr. Bailey had consummated other plans and stated that he would be unable to come.

Now the "Petty Politicians of Parkton" have certainly played hob. They have lost more votes to Mr. McLean than any speech Mr. Bailey or anyone else could hope to turn and at the same time haven't helped to raise the reputation of their community as there has been considerable manifestation of Ku Klux Klan spirit in that community and many people have drawn the conclusion that Mr. Bailey's recent attacks on the Klan had a great deal of weight in the decision of the trustees to inform Mr. Bailey that his services as speaker there could be very conveniently dispensed with.

Klan demonstrations in any community is bound to reflect on its character in the estimation of fair-minded American citizens and Robeson is succeeding in establishing for itself a reputation as a Klux stronghold and the action of the school trustees at Parkton hasn't added much to its assets. Without a doubt the trustees did a good job of bean-spilling.

AN EPOCH IN AVIATION.

Another American aerial triumph was recorded last Thursday when Lieutenants MacReady and Kelly brought their big monoplane to a safe landing at San Deigo, Cal., after completing a transcontinental flight over the North American continent. The distance was approximately 2,700 miles and was covered in a little less than 27 hours flying time. The aviators were in good physical condition when they arrived at San Deigo after their record-breaking flight.

These two young men have developed into real leaders in American aviation. They have broken numerous records, the latest one before the transcontinental flight being their own former endurance record of sustained flight about a fixed point.

The fete of the two lieutenants places San Francisco and New York within a twenty-seven hour journey of each other. Heretofore it has required two or three times as long to bridge the distance that separates these two cities and just so much facilitated American commerce and industry. The accomplishment promises far-reaching results for it is now an established fact and not somebody's pipe dream that the United States can be crossed in a continuous, non-stop flight at an average speed of more than 100 miles an hour.

The Pacific coast and the west does not now seem such a distant country to many of us almost a foreign country and the east and west are now in line to enter upon closer relationship more sympathetic understanding and all because of this wonderful feat of two young men. The nation will be more closely united, made more compact and stronger because of it.

MacReady and Kelly are now planning an attempt to encircle the globe via the air route and here is success to them. They have done a great deal for their country, more than many realize. Long may they wave.

INCONSISTENCY.

Rockingham Post-Dispatch.

In a speech at Lilesville school Wednesday Mr. A. W. McLean, of Lumberton, candidate for the gubernatorial nomination, declared that "there can be no justification for any man or group of men taking the law into their own hands; such acts are a species of lynch law which strikes at the very foundation of all law." Mr. McLean, by the way, is a member of the firm that is engaged to defend the three members of the Robeson county mob who beat up two women recently.

Red-blooded North Carolinians will be glad to know that the leading throat of the State is united in condemning this mid-night white-robed, hooded dirty work and the Post-Dispatch is glad to give voice to these sentiments.

ABOUT THE FAIR.

Don't Forget the Big Fair Dates, October 16, 17, 18 and 19.

The officers of the big Chatham county Fair are intensely interested in its success, and are determined that although former fairs have been praiseworthy, the one for this year, if their attention, labor and efforts will accomplish it, shall be pre-eminently a record-breaking event.

Contrary to the custom of waiting until summer months arrive before beginning the work of acquainting the people of this county, and especially those whose names we have recorded as our patrons of last year, with our ambitious plans for this year, we are commencing now to show them that we have neither forgotten our friends nor are we unappreciative of the support they have given us in the past.

The people of this good county of Chatham have always worked in conjunction with the fair and to them much praise is due for our past successes. The same cooperative efforts will this year give us a fair unsurpassed among the county fairs of the State.

Reports from all parts of this coun-

ty show the greatest interest in the fair and it is expected that this season's exhibits will fill all departments to overflowing.

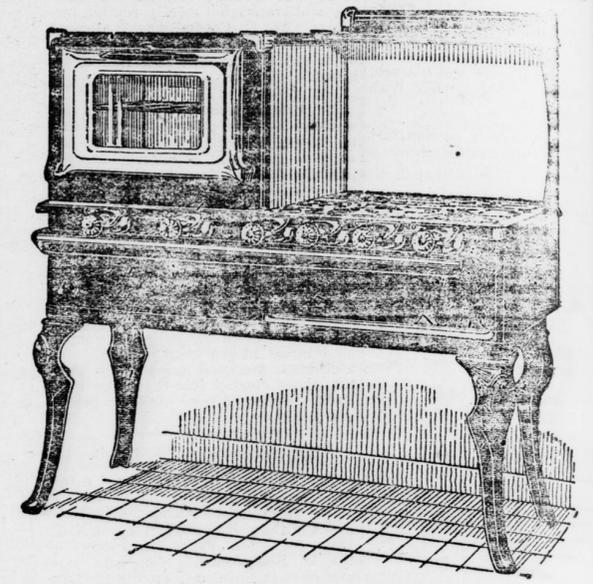

The Smith Greater Shows have been secured to delight the crowds with the special attractions, and that on the whole, will be ample amusement, education and relaxation to characterize this fair as being without rival in its class, and make it an event long to be remembered by every observer. The premium list will be ready for distribution in the next few days. Call for one and begin NOW to prepare for exhibit.

We cordially solicit your assistance and advice in the preparation for and conduct of this great exhibition and we want you to become an exhibitor and an attendant of the fair and thus that your relations to the work and your visits to the exhibition will be both profitable and enjoyable.

We feel that your cooperation will help make the fair a meritorious success.

Don't forget the big dates, October 16, 17, 18 and 19.

Art is long, but a lot of artists are short.—Philadelphia Inquirer.
