Must Get Prisoner to Secure Reward.

New Bern, May 21.—At the suggestion of Deputy Sheriff Tom Holton, the board of county commissioners has reduced the cash premium on captured whiskey stills from \$20 each to \$5, the minimum prescribed by law. Now if an officer expects to get \$20 for a still he seizes he must bring along a prisoner and prove his ownership or connection with the outfit. At this rate it will be a long time before the county has to pay a "whiskey still bill" of \$800 as it did in April; few prisoners are taken with Craven county stills.

We visited Fall Creek church a few weeks ago and it is ridiculous that such a bad road leads to the church from the main road which runs from Bennett to Carthage. We don't see why the people in that section don't get busy and have that road repaired. It is the roughest piece of road in this section. No doubt but that the county commissioners would assist in building that road if some one would only start and others that live elsewhere who attend services there occasionally would also aid in repairing it if they will only make an effort toward fixing this road and we hope the people will get busy and soon repair this road.

It's Happening Every Day

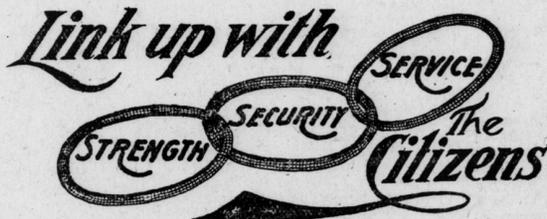

Take the case of Billy Belcher. One of the finest boys in Kenmore. Bright-eyed—alert—ambitious—prompt—neat—a good dresser and liked by all. Billy believed in "first impressions"—good association and was moderate, he thought in all things. He considered clothes as a good investment—but never over-bought or went into debt in his desire to be well dressed. But he was always mighty close to the danger line and seldom had any surplus cash on hand.

Result was that Billy accomplished all he aimed for. He made good impression; his personality was liked; he attracted attention and was offered a good proposition—but position and investment.

But he couldn't accept. He stood shame-faced and had to admit that he didn't have so much as \$10 to invest and make possible a good position. "I have not the money," were the five small words which ended the interview.

This story—a true one—carries its own moral. It is not against clean, moral and ambitious living. But it does show the importance of forming and carrying out the resolve to have a bank account.
