

# THE CHATHAM RECORD

ESTABLISHED SEPTEMBER 19, 1878.

PITTSBORO, N. C., CHATHAM COUNTY, THURSDAY, JUNE 7, 1923.

NO 52

## DIPHTHERIA AND TYPHOID.

To Be Prevented Among White and Colored in Chatham County.

Chatham county and the North Carolina State Board of Health are offering free protection against sickness or death from each of these diseases to every white and colored man, woman and child in the county.

Last year 508 died in North Carolina from diphtheria and croup. About 250 of these were under 6 years. Toxin-antitoxin would have saved the expense of sickness and the lives. Every child between 6 months and 6 years should take the treatment which protects it for several years.

The treatment preventing typhoid has been one way for reducing the number of deaths from 859 to 293 in 8 years. Take it. Your neighbor may be careless. Three treatments of each are necessary. Each is harmless—practically certain and almost painless. Neither causes any sores. Bring the babies. Save them. They cannot save themselves. Protect your own lives for their sakes.

Remember, we wish to improve the health of black and white, old and young, rich and poor—you and the other fellow.

Below is given a schedule of the dates and places for this free treatment:

Siler City—Dr. Thomas' office, Dr. Edwards' office, Saturdays, June 9, 16, 23 and 30 from 12 to 2 p. m.

Pittsboro—Dr. Chapin's office, Dr. Uppchurch's house, Saturdays, June 9, 16, 23 and 30 from 12 to 2 p. m.

Moncure—Dr. Cathell's office, Saturdays, June 9, 16, 23 and 30, from 10 to 12 m.

Gulf—Dr. Palmer's office, Saturdays, June 9, 16, 23 and 30, from 9 to 11 a. m.

Goldston—Dr. Field's office and Dr. Burns' office, Saturdays, June 9, 16, 23 and 30 from 2 to 3 p. m.

Bennett—Dr. Denson's office, Saturdays, June 9, 16, 23 and 30, from 11 to 1 p. m.

Bynum—Bynum's Store, Thursdays, June 14, 21, 28 and July 5, from 4 to 5 p. m.—Dr. Chapin.

Bonlee—Bonlee Store, Thursdays, June 14, 21, 28 and July 5 from 4 to 5 p. m.—Dr. Thomas.

People must be vaccinated in the county in which they live.

Home doctors are going to give these treatments. You know their advice is good to follow. Be sure to be on time. If they are a little late, wait. Observe these hours. Come to any place you wish. Be on time. Tell everyone about this campaign.

The children of the Sunday school observed children's day at the night services which consisted of singing and a short talk by the pastor, Rev. J. J. Boone, and was listened to by a very large audience. The children did some good singing.

Dear Mr. Shaw—I received the letter from you in regard to the fishing on Sunday in New Hope creek, following memorial at New Elam and we have learned where the mistake started and we have corrected it as far as possible but we knew it was false in the beginning.

ALICE WEBSTER.  
New Hill, N. C., June 14, 1923.

## Didn't Require It.

Greensboro News.  
At last there is a break in the monotony of the reports. Chatham county jail and county home are reported by both the grand jury and the state board of public welfare to be in excellent shape. Hats off to Chatham, who didn't require the sting of scandalous revelations to spur her into action.

## AN OLD BLOCKADER CAUGHT.

Officers Make Raid North of Moncure And Arrest Three Men.

For months and years officers have been trying to catch another one of the old blockaders of the county but were unsuccessful until last Tuesday morning when they, under the lead of Prohibition Agent Roger Horton, accompanied by Sheriff Blair and deputies, captured Ex Campbell along with two negroes, Miles Beal and Oscar Mitchell, the latter an old offender. They were nabbed in the act of making "joy water" for those who are dry.

Early in the morning, knowing where the still was located, the officers hid themselves and watched patiently. They were at last rewarded by seeing two of the men with boxes on their shoulders approaching the still. When everything was in readiness the word upon them. For a half mile one of the three gave Officer Horton a hard race but he eventually captured his man.

The still was of copper and held about 50 gallons. Two sacks of sugar, a small quantity of liquor were seized and 1,500 gallons of beer were destroyed.

The three men were brought to Pittsboro, tried before Squire John R. Blair, who put them under a bond. Campbell gave his and was released. The two darkies were lodged in jail, failing to give the required security.

It is mighty poor business to be always complaining about things you can't help but with spring as late as it has been and a lot of rain too and cut worms and clods to contend with, it is no wonder that some of our folks are a little down in the mouth as you might say. There has not been a time in 30 years that I can recall when I did not take a day off when the black chubs were biting along in May but this year I missed all together and will have to wait until September now and the Lord only knows what will happen by that time. There is always a lot to be thankful for if we could only stop to take it in account. We have plenty of greens and onions and garden peas and strawberries, too, to end up with but it takes sugar to go with them and it sometimes looks like the sugar kings or the Republican party or somebody is going to put it so high that a poor man will have to sell a yearling to get a little sugar to put in his pies this summer. They tell us that all the fruit was killed by that cold snap in March. From what I see it will be scarce but there has never been a bigger blackberry crop. Some how or other there is always a kind Providence that takes care of the poor folks and niggers.

There has been mighty little stirring around among our people for the past few weeks. Everybody has been busy and well they might for if it comes to the worst the only man left on top is the one who is willing to earn his bread by digging the ground like the Creator panned in the beginning. Dodging around and beating the world out of enough to live on and more too, has been the habit of some folks ever since the days of Noah, but there is nothing in this world that equals the satisfaction that comes to a man to eat the bread that, with his own hands, he planted the seeds and tilled the ground and God's rain and sunshine brought the increase. Still there are lots of us who are willing to see the other man do all the work and get all the satisfaction if there be such. But for all that when spring comes and everything is growing, the call of the field is too much for those of us who have had the privilege of being brought up in the great, good land of the Old North State. I have no special desire to give up the struggle of this life just now, but I do want to pass on before this country, if it must some day, gets away from the old life of our forefathers who loved the open country and were willing to biv the last drop of their blood for its freedom and protection.

It will not be long until roast'ear time and if we can get by the 4th of July without getting run over or suffering some other calamity, it is safe to say that we will have plenty to eat and more before September comes.

Jim's boys have planted a big watermelon patch down on the sandy bottom and they tell me the prospects are all right for plenty of melons by big meeting time. There won't be much elisure any time soon but I will see for myself the chances for good rations with my old neighbors up on the river a little bit later. They are to busy at Jim Young's now to even be sociable. There is nothing like putting in work while time and opportunity is given. It will be too late to be planting corn when other folks are fixing to pull fodder.

## News and Prophecy.

Tampa Times.

Along in last January when everybody was fighting the frost king, an Asheville weather sharp had the temerity to say that Asheville would see snow on or about May 12. Everybody laughed at such ridiculous forecasting. Well May 12 came along according to schedule and brought with it "slight traces of snow," and the forecaster had the last laugh. But it must have taken some nerve to make the prophecy.

## FOR C. M. T. CAMPS.

## CHATHAM'S SCHOOL FUND.

Wilkes County Tops List and Chowan is at the Bottom.

Wilkes county with an allotment of \$75,647.41 leads the 66 counties that draw from the State school equalizing fund of \$1,162,929.42 announced by the State Board of Education last Saturday and Chowan county is at the foot of the list with \$2,600. The average amount received by the 66 counties is \$18,000.

Distribution of the fund was determined by fixing the average amount of money necessary for salaries of all teachers in the counties for six months and deducting therefrom the amount of the gross tax levied in the county for that purpose. The difference between the gross tax and the gross salary of teachers is the amount received by each county.

Chatham county gets \$28,506.90 as her share for the coming year.

## See the Tall White Pole.

In front of The Hamer-Green Music Company's store, in Siler City, is a tall telephone pole. It stands just on the edge of the sidewalk and has recently been painted a rich colored white. It attracts attention and many question the reason. The work was done by the music company.

## Saturday Night Marriage.

Last Sunday night about 11 o'clock Rev. J. J. Boone was aroused from sleep by loud knocking on his door. On ascertaining the cause he found a couple who wished to be married. Mr. Boone invited the bride party into his home and in a few minutes Mr. R. B. Summers, of Statesville, and Miss Alice H. Petty, of Sanford, were made man and wife. The couple, with their attendants, were soon on the wings of love, or a Ford car, to their home in Sanford.

## Getting on the Map.

Pittsboro folks see curious things these days. All sorts of automobiles pass through the town, some with trailers and some built like houses. Last Sunday a car stopped here for a few minutes that was painted like a map. The colors were red, white and blue and each color was laid off in squares. Whoever owns the car must have had it painted in colors to keep thieves from stealing it.

## THE TONSIL CLINICS.

(Special to The Record.)  
Raleigh, June 1.—Before the bells ringing out on crisp autumnal air again call "to books" the State Board of Health will have contributed thru its tonsil and adenoid clinics to the physical betterment of close to 3,000 children, thereby enabling them to take the greatest advantage of the State's modern system of schools.

Already definite arrangements have been completed for these clinics to be held in 20 counties during the present year. Other counties are tentatively arranging for this service and the indications are that the demand will be greater than the one hospital unit operated by the Board will be able to handle.

Clinics have been held during the month of May for Chatham county at Pittsboro, for Beaufort county at Belhaven and Washington, for Martin county at Williamston. Another is in process during the present week for Bertie county at Windsor. A total of 447 children have been treated thus far. In addition the Board assisted the authorities of Pamlico county in the conduct of a clinic during March at which 200 were treated.

## DEEP RIVER COAL FIELD.

More Comprehensive Report Received by U. S. Geological Survey.

Chapel Hill, May 31.—The wings of detailed and comprehensive report on the Deep River coal field, just received by the Survey from M. R. Campbell and K. K. Kimball, of the U. S. Geological Survey, which co-operated in the work fully justifies and substantiates the preliminary reconnaissance made by the Survey in this important district.

The preliminary estimates of sixty million tons available and suitable for mining operations has been increased by the later report to 67,000,000 tons.

The Survey has forwarded to the Lee County Chamber of Commerce at Sanford a copy of the report complete, where it will be kept on file and available for the use of interested persons. The report has also been sent to the public printer, but some delay will necessarily attend its publication.

A summary and digest will therefore be printed in the June 16 issue of Natural Resources, the bi-weekly publication of the Survey.

The Deep River coal field, which includes the ancient Cumnock mine, is owned by several interests and has been only superficially developed. Every indication, however, is that it is susceptible of being a really important coal mining area.

Persons interested who may wish copies of any portion of the report before publication, are invited to address the North Carolina Geological and Economic Survey, Chapel Hill, which will be glad to furnish them at a cost to cover actual stenographic work.

## TEN RICHEST MEN IN WORLD.

Smithfield Herald.  
In ancient times Croesus was without a rival when it came to picking out the wealthiest men in the world. But today with more than 150 millionaires in the United States to say nothing of the rich men of other countries, the task of naming the richest men becomes complicated. It was apparently easier however, to name the richest man than to select the ten richest men, according to an article published recently in The New York Times. Henry Ford, who heads the list, because of the financial statement of the Ford Motor Company, is able to estimate more accurately his fortune than some of the others who are set down among the ten wealthiest men in the world. The men selected are as follows and include men possessing more wealth as individuals rather than families:

Henry Ford—\$500,000,000.  
John D. Rockefeller—\$500,000,000.  
The Duke of Westminster—\$150,000,000 to \$200,000,000.  
Sir Basil Zaharoff—\$100,000,000 to \$125,000,000.

Hugo Stinnes—100,000,000.  
Percy Rockefeller—\$100,000,000.  
Baron H. Mitsui—\$100,000,000.  
Baron K. Iwasaki—\$100,000,000.  
J. B. Duke—\$100,000,000.  
George F. Baker—\$100,000,000.  
The Gaekwar of Baroda—\$125,000,000.

T. B. Walker—Perhaps less than \$100,000,000; perhaps as high as \$300,000,000.
