

## Why Buick is "The Standard of Comparison"

It has been a fixed Buick policy always to anticipate motoring demands by developing new and advanced features of design and construction.

This has been one of the many factors contributing to Buick's great popularity—a popularity tangibly expressed in the fact that Buick is well on its way towards the manufacture of its two-millionth motor car.

Buick recognizes it as a distinct obligation to live up to the spirit and letter of its slogan "When Better Automobiles Are Built, Buick Will Build Them".

### ALAMANCE COURT HOUSE.

Graham, July 23.—The Alamance county court house contract was let today to the North Eastern Construction Co., of Charlotte and New York, the building to cost \$179,770. The heating and plumbing contract went to Kirkman Plumbing Co., of Burlington; heating to cost \$5,424; plumbing \$4,243.50.

The wiring will be done by Walker Electric Co., of Burlington, for \$1,650. The court house is to be built on the same site that the old one now occupies. Work of tearing down the present building was commenced last Monday, July 23. Temporary offices will be established in the Nicks building on the southeast corner of the square. The contract calls for the completion of the building in twelve months' time, the total cost to be \$191,087.50. While this is in process of construction the sessions of court will be held in the opera house.

At the same time, the contract for the new County Home was let to J. O. R. Davis, of Burlington, being the successful bidder. This building is to cost \$30,463.20.

A tablespoonful of ammonia to a quart of water is the best medium for cleaning windows, lamp chimneys or any kind of glassware.

### USE "COLD WINDOW"; SAVE BUYING ICE

This "cold window" will be found most useful during the cold months when one just hates to buy ice. There is just space enough between the doors and the window at the back of the cupboard for narrow shelves, and by raising or lowering the window the desired temperature, may be kept.

An aching tooth in action is the latest subject for the movies in France. It is a film used in a crusade to improve the teeth of the people. During the war, seventy-five percent of the men examined were dentally unfit. The film pictures a throbbing nerve in its most excruciating stages, and those who saw the picture attest to its vivid accuracy.

An instrument which automatically and accurately records the passing of any vessel over a given body of water, night or day, to observers who may be located on the shore, has been invented in Australia. It consists of a small searchlight sending a ray no larger than a pencil across the space to be controlled and a receiving apparatus at the other end containing a light-sensitive selenium cell.

Bari, a seaport and important commercial town in Apulia, Italy, has a church dedicated to the memory of St. Nicholas (the American Santa Claus). The church was founded in 1087 to receive the relics of the saint, which were brought from Smyrna in Lycia, where he was a bishop, and which now lie beneath the altar in the crypt. It was at Bari that Peter, the Hermit, in 1095, preached his first crusade.

Thomas A. Edison says, "There is something wrong with the college system. I don't know what the trouble is; that's not my line. I can only judge by the results. But one thing is certain: the present system of education in the colleges does not train men to think. I am in favor of the college. That is where I get some of my best men. I have 60 of them now, but they are 60 culled out of 2,000. That's a pretty low percentage, isn't it?"
