MANY LOADS OF MELONS.

Mrs. Henry A. London and Miss Carrie Jackson returned to their home Friday. They had been on a visit to Mrs. London's daughters at Raleigh and Clayton, and have been away for about two weeks. While at Clayton Mrs. London says she saw an unusual sight. During one day there were 500 wagon loads of water melons, brought there for shipment.

Around the northern edge of Johnston county and the southern edge of Wake county thousands of melons are raised annually. Many of them being shipped to northern markets. Around the Garner section some of the finest melons seen anywhere are raised annually, retailing anywhere from 50c. to \$1. apiece, and that was way back yonder, when everything was low in price.

One of Mrs. London's friends gave her a couple of these "whoppers" to take to her daughter's to eat, but she was determined to bring them to Pittsboro and she arrived with them safely on Friday. She prizes them very much.

DID IT IN EIGHT DAYS.

Mr. Robert L. Johnson recently made a pretty good record with a tractor. At his saw mill plant on Moncure, Rt. 2, he sawed a tract of timber, yielding 60,000 feet of lumber in eight days. On one of these days he sawed more than 8,000 feet. This is a good record for sawing with a tractor, and is far superior to the old steam outfits for small tracts of timber.

THE PAGE TRUST COMPANY is the one big bank of Central North Carolina.

In forming your Bank Connections it is just as easy to be associated with a Big, Strong Bank, with assets over four million dollars, as to be tied in with the smaller Institutions.

Little things in some ways are alright. But here is the point. A Big Institution can do anything a little institution can do, but a little one can't do those things a big one can do.

A wheelbarrow will move fifty pounds of coal for you. A railroad car will move fifty tons. The car can move all the wheelbarrow can. But the wheelbarrow can't—see?

You don't want to be in the wheelbarrow class, for some day you will need to move the car load.

THE BANK BIG ENOUGH
FOR ALL KINDS OF BUSINESS.

WHY CHANGE FOR THE DIFFERENCE?

For many years you have been feeding the Checkerboard products, Purina and all those good things that make your horses, cows, hogs and chickens sleek, fat and healthy. Why should you change for something that is indefinite, of a doubtful nature to experiment with. Especially when the price is less in many instances.

An old reliable, well balanced ration, at a nominal cost is hard to beat and we appreciate the large volume of trade that we are receiving from the people of Chatham county and surrounding territory. We receive almost daily car loads and you are never in doubt when you come here to trade—we usually have what you want and we save you money.

We have been established many years and about everybody knows this old reliable firm. This knowledge is next to the reliability of the feed stuffs that you buy and the combination is hard to beat. Then, too, we not only sell cracked feeds, oats, corn and hay, but we are well stocked with other things for the farm and the home.

We are specialists in the Grocery line. Our grocery department is stocked at all times with the choicest that the market affords and you can get what you want when you want it and at the price you want to pay.

We are always a shade under the market with flour and sugar, as well as other staple merchandise. We can supply your wants in both heavy and fancy groceries, canned goods and the feed.

Remember we buy and sell all kinds of country produce, cross ties and pay the highest market price. If you are not now trading here give us a call and be convinced.
