It is very dry in this seciton and the corn seems to be drying up badly, especially the young corn. John Yow, our local weather prophet has scared us up by saying that we would have more dry weather yet. Several years ago John predicted a wet weath-er spell and while on his way home through the flat woods, he came very near being drowned by a heavy rain fall from an unusual cloud, and we trust his idea of the weather if this week is not as he predicts.

Mr. J. R. Peace and family visited their relatives and friends at Thomasville Saturday and Sunday.

We hope that on or before the next election for the county and state officials, that the people of Bear Creek township will be permitted to divide the voting precinct. This is a large township, and since the women have begun to vote it is not advisable to have only one precinct. Not only the distance is an inconvenience, but it is tiresome to have to wait so long besection, where you know the men be-hind the investment, and men who are recognized for their integrity, hon-esty and financial responsibility. We are daily receiving new fall goods such as Star Brand Shoes, Dress Goods, Overalls, Work Shirts and Dress Pants. Also a line of trunks and suit cases. We are pricing these goods with a reasonable profit, believing as we do that, there is more money in a small profit and quick sale, than a large profit and slow sales.

Therefore: we invite our friends to call and look over our line for if we increase our business by small profits and quick sales, we are benefitted and so are our custom-
