## BIBLE THOUGHT FOR TODAY

Bible thoughts memorized, will prove a priceless heritage in after years.

### Time to Object.

But, beloved, be not ignorant of this one thing, that one day is with the Lord as a thousand years, and a thousand years as one day.—2 Peter 3:8.

### ITS STRANGE BUT ITS TRUE.

There are a great many scheming agents that are traversing this section of the state at the present time, in the interest of various organizations, soliciting surplus money to be applied in the capital of the several undertakings and enterprises. Some of these companies are legitimate and have a splendid purpose in view, while others are doubtful and have only experiment to make.

These various companies are located in North Carolina and other parts of the United States. The agents come in to seek out those who have a few dollars surplus and under the guise of securing 8 per cent on the investment as against four per cent that the banks usually pay, they induce many folks to part with hard earned money. Some of the people in Chatham remember the Wizzard Automobile Co., of Charlotte in this respect.

It is strange, nevertheless it is true, how easy one with a little money saved up will gulp down everything that is said to them by a stranger, when they could easily secure advice from their banker, or others who have made a study of financial situations. Don't listen to these unknown men. A fly by night will secure your money and perhaps be intending to get the best results, but it is only conjecture and you stand nine chances to one of losing everything you invest with them, both your interest and your principal.

If you have saved up a sufficient amount of money to make an investment, put it in real estate, insurance companies, banks or other local institutions in your county or immediate section, where you know the men behind the investment, and men who are recognized for their integrity, honesty and financial responsibility.

So long as you take the proper precaution you will never be sorry, profit by the experiences of your neighbors. There is no genuine get-rich-quick scheme that will hold and your best friend that is qualified to do so, will advise you just as The Record is now doing.

Many people get the impression at times that the banker advises adversely on these investments because he wants to keep the money in the bank. This is not true, because your banker knows that if you make a good investment that you will increase your capital and in the long run you will have a larger account to place with him. If you have money you want invested, any financial institution that has an ad in this paper will invest it for you, guarantee you safe returns and a security of your principal. Try it and see.

### TOO LOW, NOT TOO HIGH.

Suit has been started by the U. S. government against International Harvester Co., to dissolve the company into at least three parts. Grounds for suit are apparently not, as one might think, too high prices on the part of Harvester Company for farm implements, but too low prices—"unduly depressed prices," and presumably, likely to hurt business of other manufacturers of farm implements. The Harvester Company's statement, however, says that their prices are low—too low—because of the hard situation of the farmer who is not able to buy normal and needed machinery.

Recently the Interstate Commerce Commission refused the program of western railroads to reduce rates in order to encourage shipments of certain products.

The Department of Justice and Interstate Commerce Commission are carrying out intentions of our numerous laws and attempting to reconcile and enforce their mandates.

Every new law adds a little more to our tax burdens or living expenses and increases the opportunity to pass another new law. The people must be "protected" however, even if the cost of protection is greater than the benefit derived.

### LINCOLN'S TRUST IN TOILER.

"The prudent penniless beginner in the world labors for wages, a while saves a surplus with which to buy tools or land for himself, then labors on his own account another while, and at length hires another beginner to help him, gives hopes to all, and consequently energy and progress and improvement of condition to all. No men living are more worthy to be trusted than those who toil up from poverty; none less inclined to take or touch aught which they have not honestly earned."

The United States offers the opportunity for the humblest man or woman to go from the bottom to the top of the ladder unhampered by class distinction or official dictation, if they will but take advantage of their privileges. Let us always keep this basic principle of our government intact.

### A WONDERFUL OBJECT LESSON.

The law of supply and demand works slowly but with irresistible force.

A few months ago we were told by political prophets that gasoline would be a dollar a gallon unless the oil industry was placed under political control. But high prices resulted in undreamed of crude oil output and stored supplies of petroleum products. Old man supply and demand must sit back and laugh. He knows that present low prices will discourage output of crude oil and when our reserve supply is low the price will begin to climb in order to encourage production.

The politicians will cry out that the oil combine is robbing the consumer and that government control is necessary to stop the outrage. And then old man supply and demand will laugh.

It's a great life for those who have sense enough to learn the lessons that nature teaches but its easy to fool those who pass the lesson by.

"Raleigh Iron Works," is the heading of an advertisement. It is a good thing that something works in Raleigh.

"A surgeon moves a Girl's Heart," says a headline. Shucks! That's nothing. We have moonshiners in Chatham that can move a still or a barrel of liquor, and think nothing of it, either.

We are in receipt of an educational edition of the Rutherfordton Sun, printed by R.E. Price and L. D. Miller as editor and business manager respectfully, at Rutherfordton. It contains 48 pages and is a credit to any town in North Carolina. These enterprising young men deserve much credit for the labor they are putting forth on a paper like the Sun. It is one of the leading weekly papers of North Carolina.

No wonder the farmers are quitting the farms. It is said that one out of every six bushels of grain, one out of every six bales of cotton and one out of every six baskets of fruit or vegetables are eaten by bugs. But if the farmers quit farming who is going to feed these bugs? Who is going to feed the city people? And how are these farmers going to pay anywhere from \$50. to \$100. a month rent, \$10. a cord for wood, pay for lights, water and taxes? The question is a serious one.

### NEWS FROM BROWNS CHAPEL.

Pittsboro, Rt. 2, Sept. 3.—Last Saturday night about two o'clock without their knowledge, Dr. P. W. Luterloh, of Arkansas, came to the home of his parents, Mr. and Mrs. C. W. Luterloh. The next morning some of their kinsfolk from Sanford, Burlington, Carrboro and Pittsboro and from the country around, gathered, the congregation from Browns Chapel also going, all arriving about 1 o'clock. They also came from Emmaus church and Saplin Ridge. There were more than 150 people to gather there and a long table was set in the grove, and it was loaded with good things to eat. It was a beautiful sight. Dr. Luterloh and his sister, Miss Annie, made snap shots of the table and some of the crowd taking a picture of Mrs. Luterloh and her husband, then the brothers and sisters.

Their brother, Mr. I. W. Durham made a short talk, and after a blessing and a prayer, dinner was served. Mrs. Luterloh, in whose honor the celebration was held, is 66 years old. We wish for her and her loved ones, many more happy years to gather together. Both Mr. and Mrs. Luterloh and all those who attended seemed to greatly enjoy the occasion.

Miss Ollie Walters is visiting Miss Annie Luterloh.

Mr. Wess. Harmon and the road force deserve credit for the nice road worked through to Browns Chapel and by Baldwin Mill. Thanks to the county commissioners for the order allowing it to be done.

Misses Blanche and Ruth Henderson of Virginia, are spending some time with their aunt, Mrs. S. J. Henderson.

Dr. P. W. Luterloh returned home Wednesday, accompanied by his brother, C. H. Luterloh and family for a trip of several days in Arkansas. They will stop on the way at many places of interest.

Miss Lacy Blanche Henderson, who has for some time held a responsible position with the county board of Education in Raleigh, has been on a visit to her mother, Mrs. S. J. Henderson and brother, F. R. Henderson. She has returned to Raleigh.

Quite a fox race was had near Roscoe last Friday and on Monday. It was said there were near 100 dogs in the race.

Messrs Henry Hatch and Lassic Sturdivant, of Pittsboro, were callers in the home of C. W. Luterloh Sunday.

Messrs June Dark and Frank Perry have put a new saw mill on Darks place for the purpose of sawing timber.

Mr. J. A. Marshall happened to the misfortune of feeling the weight of a cross on his toe last week.

Miss Margaret Mann, of Frosty, spent Saturday night with her aunt, Mrs. D. J. Dark, and she is spending the week with her grand father, Mr. I. W. Durham.

### A SURPRISE WEDDING.

Contributed.  
A surprise wedding occurred at the Baptist parsonage Monday morning at 10 o'clock when Miss Burchie Walters and Mr. Frank L. Gilmore were united in marriage by Rev. Mr. Broom. Only a few intimate friends and relatives were present to witness the ceremony.

Mrs. Gilmore is the daughter of the late George Walters, of Siler City, route 5. Mr. Gilmore is a well to do farmer of near Bonlee.  
Immediately after the ceremony, Mr. and Mrs. Gilmore motored to Lelber Springs where they will spend their honeymoon.

However, as talkative as one's barber may be, he has his dull moments.

### WISE AND OTHERWISE

Some Our'n—Some Their'n

Modern women do not deny their age, they point it out.

Don't worry about a hole in your stocking as long as it is in the toe.

Vacations are not so pleasant when the first stop is at the Savings Bank.

Those who clamor for privacy make a confession. Virtues do not covet concealment.

It may yet become fashionable for the divorced lady to list her six nicest husbands.

It isn't what a woman says that is shocking, but the fact that a woman could say it.

Some men go through life with undiminished faith in their fellowmen, and some sign notes.

Let the kids begin to get up and offer a man a seat and then he realizes that he is getting old.

Some public men can be trusted in all matters, and some think the newspapers should be censored.

When nature wants to make an ass of a man, she just makes him pretty and let's the scheme take care of itself.

Will you join my society for the Prevention of This and That? asked the sweet young thing. No, I'm too busy. At what? she sweetly asked. Minding my own business, he replied.

### NEWS NOTES FROM CORINTH.

### SURVEYING THE CREEKS.

Many Happenings of General Interest in and Around Bennett.

Bennett, Sept. 3.—Relatives and friends of Mrs. D. R. Smith, wife of the late D. R. Smith, met and presented her with a birthday dinner at her home Sunday. Her birthday was on Monday, the third, being the 59th anniversary. There was a large crowd present and all enjoyed the occasion very much. Mrs. Smith received a number of highly prized presents. During the time she was notified to go to the bedside of her brother, Sidney Phillips, who is very sick.

A large crowd from Bennett attended the opening of a series of meetings yesterday at Pleasant Grove Christian church. As usual there was a large crowd present at the church. This meeting always begins the first Sunday in September and folks attend from near and far. Rev. Monroe Caviness is assisting the pastor, Rev. G. R. Underwood.

Cross ties, lumber and cedar business is brightening up now; also the merchants are getting in their fall merchandise. The Standard Oil Co., is beginning to ship in their oil and gas for the new tank and they report they will put in their distributing man and truck this week.

Mr. W. C. Brewer is preparing to run his cotton gin here again this year and it is presumed he will gin and buy a great deal more cotton this year than last. He ginned and bought more than two hundred bales last year.

It is time that Bennett should wake up and try to get more enterprises here and help the county advance, also brighten this corner. We lack dwelling houses to accommodate the people who want to move here. We notice the government surveyors are surveying near us now, on the creek which runs in to the river near here and we hope that things will turn up to the good for us to secure some manufacturing enterprise.

It is very dry in this section and the corn seems to be drying up badly, especially the young corn. John Yow, our local weather prophet has scared us up by saying that we would have more dry weather yet. Several years ago John predicted a wet weather spell and while on his way home through the flat woods, he came very near being drowned by a heavy rain fall from an unusual cloud, and we trust his idea of the weather if this week is not as he predicts.

Mr. W. C. Brewer and E. C. Brewer, attended the picnic last Thursday at Greensboro, given by the Masons of Fall Creek lodge No. 285.

Mr. J. R. Peace and family visited their relatives and friends at Thomasville Saturday and Sunday.

We hope that on or before the next election for the county and state officials, that the people of Bear Creek township will be permitted to divide the voting precinct. This is a large township, and since the women have begun to vote it is not advisable to have only one precinct. Not only the distance is an inconvenience, but it is tiresome to have to wait so long before one can vote. It is too much of a rush. A great many of the women have already decided to stay away from the polls unless different arrangements are made for the voting. It has been suggested that one voting precinct be established at the Scott Place, known as the old Boaz post-office. It is at the turn of the road leading from Chatham road to Fall Creek church. The other voting place would answer every purpose where it is now located at Harpers Cross Roads.

Dr. H. A. Denson happily reports born to Mr. and Mrs. William Oats, a big boy.

Also twin boys to Mr. and Mrs. Frank Murray.

Rev. J. C. Kidd will baptize the candidates who have united with the Baptist church next Sunday afternoon at 3 p. m., at the Creek Bridge, near J. E. Jones. He will also preach here that night at 7:30 p. m. If there is no rain this week and the water is not deep enough at the bridge, arrangements may be made to have the baptizing at Cheeks Mill.

BEN—NET.

### HAD MISTRIAL.

A mistrial was had in the R. O. Garrett case at Cumberland Court-house, Va., Monday, the jury being unable to agree. The defendant will be again tried in the September (25) term of court. Garrett shot and killed Rev. E. S. Pierce on June 25th. Rev. Mr. Pierce was a native of North Carolina.

Teeth.—To clean and whiten dissolve half teaspoonful borax in a pint of soft water, then add half teaspoonful spirits of camphor and use as tooth wash after meals. Salt and water applied with a brush hardens the gums and whiten the teeth and is a good wash.

### FOGS IN AUGUST.

According to an old saying "that for every fog in August," there will be a snow in the winter. That being the case our people and just as well go to Iceland to get out of the snow. There were at least 15 fogs in August and every morning so far in September we are still having them.

Disinfectant.—A raw onion sliced and placed in a sick room is a good disinfectant, as it absorbs poison rapidly. For that reason it should be burned twice a day and replaced by a fresh one.

### LOOK BEFORE BUYING

We have now bought our Shoes and slippers—must unload same. It will pay you to give us a look before buying elsewhere.

C. B. CRUTCHFIELD,
