In renewing for The Record, our good friend J. N. Eubanks was kind enough to say "that he was proud of the foundation upon which the Record is being printed; first the religion of Jesus Christ and the fight against blockade liquor and the bootleggers and immoral conduct. May the Lord bless you and your effort for the uplift of humanity." Mr. Eubanks also says that he is as anxious each week to get the Record as a sweetheart is her letters.

We will greatly appreciate it if our correspondents will get their letters to us as early as they can. Owing to the fact that the electric power is scarce and only on at night, it is necessary that we set the type at that time, and printing on Wednesday forces us to cut everything short. We are doing our best under the circumstances to get out a good paper, but we are forced to leave out a great many things that we really want to print.

The Elkin Funeral Parlor is the newest establishment in Siler City. It is headed by Mr. P. H. Elkin and his wife, Mrs. Flora Elkins. They are located in the same building in which was located the Siler City Grit, a paper they published for many years with credit to the town and honor to themselves, and in which they are now operating the Paragon Press, a job printing business.

THEY FAILED TO ACT MONDAY.

The town commissioners of Pittsboro were called together in a meeting on Monday night by the mayor, Hon. A. C. Ray, for the purpose of considering a recent order to sell gasoline on the Sabbath. Mr. Ray wanted to enter his protest, the order having been passed during his absence. The matter was left as it was and no action taken.

It is stated to this paper by one of the gas dealers that he did not intend to operate his place of business on Sunday and that the order would be operative with him in cases of emergency only. This may be admissible, as there are folks who are on long journeys and often need gas at this point, but there is no excuse for allowing a regular business on Sunday of selling gas.

Don't forget to be preparing your exhibit for the Fair in Siler City in October.

While his son, Coy, was mowing in the low-ground Mr. Luxton went around in front of the mules and tied up a rein which had fallen down and not thinking about the blade, he told the mules to come up. Before Coy could stop the mules the blade had cut to the bone one ankle. Dr Cathell was called and dressed the wound.

CROPS ARE RIGHT GOOD THIS YEAR

This is the time to remember the rainy day that may be ahead.

The man with a few dollars laid by for the time when money may not be as plentiful is the man who laughs at adversity, and who is readiest to paddle his own canoe.

The man with money in the Bank does not need to be financed when it comes time to plant another crop, or to buy a cow or a piece of machinery.

Thrift is the greatest industrial virtue of any country, or of any people.

Sell your tobacco, sell your cotton, sell your products whatever they may be and get your money in the Bank and keep it there until you actually need it. Then some other fellow will not put it there while you wonder where you can dig up a dollar.

The Bank of this section is always—

Any Cow worth keeping is worth feeding in summer

Profitable cows can't produce up to the limit of their capacity on grass, because grass is practically never balanced. A cow can't eat enough grass to get sufficient protein.

Purina Cow Chow supplies the lacking elements, and enables the feeder to perfectly balance the grass ration, no matter how irregular the pasture conditions. This is done with ingredients that any expert will approve and practical dairymen know to be right.

Dairymen in all parts of the country have demonstrated time and again that

2 lbs. Purina Cow Chow make the average cow on pasture, produce at least

6 lbs. more milk per day at an additional cost of about 6c per cow per day. Figure out what this would mean to you each month.
