Mr. Nat M. Hill, Jr., of Kinston, a former citizen of Pittsboro, has been appointed a notary public by Governor Morrison.

Name the farm this winter. Circle the farm sounds better than the Old Latham Place." Looks nice on letterhead, too.

HORSE AUCTIONS AT 75 CENTS.

News Items of General Interest From Neighbors at Bennett.

Bennett, Oct. 29.—The first car load of cotton that was ever shipped from here was on October 25th. This car of cotton was sold by Mr. W. C. Brewer to Middleton & Co., Charleston, S. C., through a local dealer at Sanford, N. C. The buyer states that the cotton in this section is of finer grade and the car he purchased will be exported to Liverpool. The soil in and around Bennett is well adapted to cotton and is not of that red substance and clay that discolors the lint. No doubt there will be more acreage around here next year.

The farmers in and around Bennett are about through husking corn and sowing small grain.

An interesting auction sale was had here Saturday when Mr. George Kidd had a horse auctioned off at the price of seventy-five cents. The horse appeared to be about seven years old in the eyes, but was several feeds behind in looks. The three dollar price made the animal show up better, but the onlookers seemed to prefer not to undertake to feed the animal through the winter. Mr. Troy Richardson was the highest bidder.

Mr. George Estridge has returned to Bennett. He moved last week to Greensboro, but he says Bennett was the best home and cheapest place to live. The writer was one of the first persons to build a home in Bennett. We have in mind several folks who have left Bennett but returned later.

The Christian church here has extended a call to Rev. Thomas Green, who was once pastor of the church before, having been succeeded by Rev. G. R. Underwood.

PISTOL, LIQUOR, DEAD NEGRO.

Harvey Pritchard, a 19-year old negro, was lodged in jail Monday night, charged with shooting an unknown negro at a frolic given by a colored woman who lives near Ebenezer church in New Hope township.

It seems that he had bought himself a new pistol and he wanted to try it to see how it would shoot. He tanked up on liquor, went to the frolic and picked a fuss with the strange negro about a woman. The pistol did its work alright. The wounded negro was taken to a hospital in Raleigh, but it was said there was no chance for him to live.

The Course He Took.

SAYS RADIO HAS USEFUL FUTURE

Electrical Genius Believes Wireless Waves Pass Through Earth as Well as Air.

By DR. CHARLES P. STEINMETZ
Chief Consulting Engineer of the General Electric Company

Radio messages that course through the earth and through water as well as the air are a well founded possibility in the light of recent and unusual performances of lower power radio apparatus in transmitting messages to surprising distances.

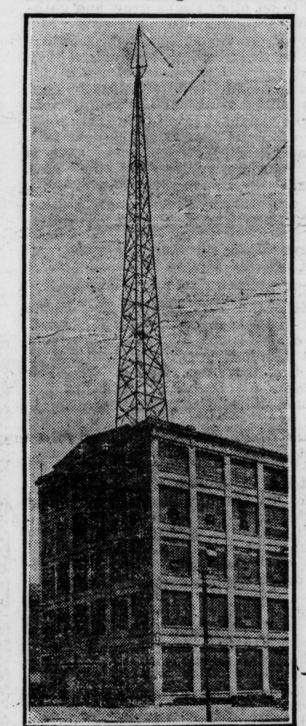

These possibilities are not difficult

of belief. In fact, I believe that under certain conditions it will be easier for wireless waves to pass through the ground than through the air. Submarines already have sent radio messages successfully while submerged, a primary substantiation of the theory which looks to the conquering of another element in addition to ether.

Nothing To Freeze

Pumps freeze up. Watering troughs have to be chopped open. Water storage tanks are liable to burst. But a MILWAUKEE AIR POWER WATER SYSTEM has nothing to freeze. There is no water storage tank and the piping is carefully put beyond the reach of Jack Frost.

You do not realize fully the benefits of a water system on the farm till the blizzards come.

Don't forget that all the water supplied by the MILWAUKEE SYSTEM comes "Direct from the Well"—absolutely fresh. It costs you nothing to learn the price of a water system for your place. Phone us about it now.
