Please Tell Us.

As this is the season when many of our subscribers are moving from one route to another they ask us to change the paper. When doing so please give your old address as well as the new one. We have two requests in hand now that we do not know where the paper is going to and in one case we have two names of the same initial and it is impossible to know which paper to change. It is almost impossible to locate a single name in a list of more than 2,000 unless we know the old postoffice.

Nothing To Freeze

Pumps freeze up. Watering troughs have to be chopped open. Water storage tanks are liable to burst. But a MILWAUKEE AIR POWER WATER SYSTEM has nothing to freeze. There is no water storage tank and the piping is carefully put beyond the reach of Jack Frost.

You do not realize fully the benefits of a water system on the farm till the blizzards come.

Don't forget that all the water supplied by the MILWAUKEE SYSTEM comes "Direct from the Well"—absolutely fresh. It costs you nothing to learn the price of a water system for your place. Phone us about it now.
