What Is a Dollar Worth?

To some folks it is worth mighty little.

To some it is worth many times as much.

But always a dollar is worth just what it will buy.

Benjamin Franklin when he came to Philadelphia with a dollar, and left it after a long life of industry and frugality, said that the most valuable thing he ever bought with money was a whistle. He saw the whistle, and had just enough money to buy it. After he bought it he tired of it shortly, and then realized that he had let go of his money, which would have bought him something more useful, and had nothing but the whistle to show for it. Right there he learned the lesson, to hang on to money until it would get him something worth while.

He put his money into the banks then and took it out when he could make it bring him something really worth the money.

Franklin was one of the wealthiest men in America when he died.

Money in the Bank has a power. Money in a whistle is gone forever. Put your money in—
