#### Boiler at Nooe Brothers Plant Chatham Now More Than Mil-Does Great Damage.

One of the most miraculous es-Thursday morning about 10:30 o'clock when the boiler at the planning mill uated about 200 yards north of the Pittsboro depot, blew up, scattering brick, mortar, plank, bolts, flues and everything about the mill in every direction. direction.

By the force of the explosion, the heavy sheeting, which enclosed the boiler was blown fully one hundred yards into a field adjoining and just west of the plant.

A house occupied by Mr. Ben Jorage dan, just across the street and south of the mill was badly damaged, the windows being torn out and glass and brick being scattered all over the inside. A piece of red hot railroad iron, which was about eight feet long, struck the gable end on the north side of the house, came out of the top and fell in the yard, burying one end at least two feet in the ground. Another piece not quite so long lodged under the roof and set the house on fire, but the blaze was soon extinguished.

Mrs. Jordan had just passed a window when the explosion occurred, fill-ing the room with brick and glass, Taxpayers must make un and she was near enough for the window sash when it fell to brush her dress. As luck would have it two of her children were playing in the yard and Mrs. Jordan grabbed up the youngest child and ran out into the vard where she found the two children sceaming. She says she was so excited that she never noticed the house being on fire.

A wagon driven by a lady and her daughter had stopped, between the house and the mill a few minutes before the explosion came and talking to Mrs. Jordan. After leaving fire Thursday from the heater flue and by the time they reached top of the hill some two hundred yards away the explosion occurred. If they had

lion Dollars In Debt. The Record is informed that sixty capes from death happened last thousand douars has been added to the indebtedness of Chatham county by the sale of so many road bonds within the past few days. It is also of the Nooe brothers, which is sit-uated about 200 yards north of the Barber, was paid a fee to make the

> The act of legislature enabling the commissioners to sell bonds without the knowledge and consent of the voters or taxpayers was passed by Leon T. Lane some years ago and it should

Have you ever considered just what Chatham has for the more than a million dollars indebtedness. It has a magnificent county home, one to be proud of, and it has its schools and a few pieces of good roads, but are they worth a million? Has the tremendous amount of money spent in Chatham served to the best interest?

The laws are such now that a road may be built under your house, through your orchard and both destroyed; your yard and fields may be dug up for top soil and you can't say a word, and if the whole thing is not taken, then the tax levy can be made

Taxpayers must make up their minds to go to the primary and vote for such men as will look after their interests. Machine politics must be schools are in progress. done away with and the sooner the better.

Mr. Mims and Miss Claireve Mims spent yesterday Miss Myrtle Crutchfield spent last with her. week end with her cousin, Mrs. Jesse This acc This accident points clearly to two things, nothing but two way bridges should be built in the future, even in remote sections, and it is criminal to drive with no brakes. Quite a number of young people gathered at the home of Mr. J. A. Mims Wednesday evening to "see the table walk." We are reliably informed that it really performed this feat, even going down a flight of stps without the assistance of anything more than the finger tips of three young ladies. At any rate, it afforded an evening of much merriment. On April 15th there will be given a play at the Brickhaven school, "Brookdale Farm." The public is cordially invited.

would have been Bricks, bolts, pieces of iron and other heavy articles were blown several hundred yards away. Bricks fell on the houses of Mr. T. W. Hackney, Mr. Gaston Johnson, Mr. Daniel Bell and Mr. C. C. Hamlet, cutting boles in the roofs of each one of

them. Fourteen panes of glass were brok-en in the dwelling of Mr.M.T.Williams, a block away, besides breaking up much of his crockery ware.

At the Exline House a quarter of a mile away, nearly every door in the house was blown open.

The force of the explosion rocked The Record office as if an earthquake had shook it, and a pane of glass in a rear window was broken, ard the office is at least a quarter of a mile from the scene of the accident.

With the exception of the colored fireman, Spence Degraffenreidt, who was about fifty yards from the boiler house loading lumber, and Sherman Alston, colored, who was over about the depot, and a little colored boy, no one was hurt. Spence was struck on the foot by a rock which incapacitated him from work and Alston was struck by a brick as also was the colored boy.

A negro boy was sitting in a truck about thirty feet from the boiler room when the explosion occurred. He says he jumped fro the truck, but it is thought he was blown from the vehicle. At any rate, the steering wheel he had been holding was struck by a brick and broken half in two, as was also the glass in the windshield.

Some funny things happen in a scene like the above and they happened here. All of the men were out in the yard, some fifty yards away, piling up lumber. Jim, a tall slender darkey, is a most excitable negro, ran at the first sign of the explosion. When asked where he was during the explosion, he said: "Boss, I was right over dere, but when the bricks commenced to fall, I was right vonder," pointing to a pile of lumber 300 yards away, and I was right under dat pile

Why no one was killed or seriously hurt is not known, but it was a most miraculous escape for all concerned.

The Nooe brothers have installed an electric motor and the men went to work as usual this week.

Total damage to the plant and surrounding property will not exceed \$2500.

#### LIST OF NEW SUBSCRIBERS.

We have another good list of subscribers this week, despite the fact that nearly all our subscribers are paid a year or more in advance and it is an off season for new subscribers. Many of these are highly complimentary to the paper, and we appre-ciate highly all the praise that is being given The Record.

Following is our list of new ones for this week:

John W. Clark, A. E. Yarborough, Miss Otis Pickard, Miss Lula E. Beale, A. E. Cole, A. T. McIver, A. Wilson, McKinnev, Marsh & Cushng, A. L. Yarborough and one who does not want her name published.

WINNERS AT THE STATE FAIR.

E. V. Walborn, manager of the North Carolina State Fair, informs The Record that there were three who won distinction at the state fair, from Chatham county. These were Mr Robt. E. Harris, Rt. 1, Pittsboro, who won a poultry entry, getting the premium of \$2.00; John W. Perry, Rt. 1, Siler City, won an entry on agriculture, a premium of \$9.75 and Mr. H. Clay Perry, Rt. 4, Siler City also won on agricultural products, the premium being \$2.00.

This is not as a large list from our county as it should be. There is need for more interest in the State Fair by Chatham people. There were entries from many counties that received premiums of \$1.00 to as high Next week The Chatham Record as \$1,795.50. Next year we hope that resented among the winners.

The date for the 1924 State Fair has been set at October 13, 14, 15, 16 and 17.

Russia does not know what to excomes will be an improvement.
