### Paris Now Wearing

Jewelry of Rubber Paris.-Rubber jewelry is the abstraction of the moment. Designed for wear at the beaches, its popularity has caused it to appear even on the boulevards in the form of multi-colored bracelets. For beach wear imitated pearls of rubber composition or wood, bracelets and

anklets are chosen. Buttonhole bouquets of rubber for wear with beach costumes are also in high favor.

Earrings are a conspicuous part of the Parisian woman's scheme of self decoration this summer. The long pendants which disappeared for a time are back in more exaggerated form than ever. Long drops of chased crystal, jade or coral, nearly touching the shoulders. are much seen at the race courses where Paris' smartest women congregate.

Jet earrings the size of bracelets were worn recently at Autwil. Their size and weight made suspension in the ears impossible.

# We are glad to state that Mrs. C.

#### **CLUB NOTES**

All Departments of Pittsboro Woman's Club Active-Dr. Hubert Potent to Come Sept. 24

The Civic Department of the Woman's Club held its first meeting of the fall season Tuesday afternoon August the 24th at the home of the Chairman, Mrs. H H. London. Despite the downpour of rain the attendance was unusually good.

Interesting plans were made for next year's work and a course of study outlined and discussed by the Chairman, Mrs. London.

"The World One Hundred Years from Now" was read by Mrs. Ernest A. Farrell. The members present were: Mesdames H. T. Chapin, Jas. L. Griffin, W. M. Eubanks, G. J. Grif-fin, R. C. Griffin, George Brewer, C. C. Hamlet, I. H. Ray, R. A. Glenn, Arthur H. London and Ernest A. Far-

Delicious sandwiches, ice tea and spice cake were served by the hostess. The Health Department whose chairman is Mrs. Addie McManus, sponsored the Tonsil and Adenoid Clinic recently held at the school building. Members from all depart-ments of the club assisted in nursing the children.

The Health Department served sandwiches and hot coffee each evening to the parents whose children had operations.

Quite a bit of interest was mani-fested in this clinic. A number of children had to be turned away. Every club woman is eagerly await-

ing the recital to be given by Dr. Hubert M. Poteat Friday evening, September the 24th at the school auditorium. A real musical feast is in store for all who attend this recital and Pittsboro is indeed fortunate to have Dr. Poteat who comes under the auspices of the Music Department of the Woman's Club of which Mrs. V. R. Johnson is the capable and efficient

chairman. The August meeting of the music department was held thin Mrs W. P. Horton. The meeting was order by the Chairman, Mrs. Victor R. Johnson, after which the roll was called and minutes read by Miss Emily Taylor, acting Secretary, during absence of Miss Womble. Each springs Baptist church last Saturday member present responded to her sired. Details of the case, for which evening. Our sympathy goes out to name with an appropriate musical a "loan" of good biting mosquitoes is quotation. Quite a good deal of business was transacted at the conclusion papers were read: "Church Music" president, was the leader for the evea Cure for the Sick" by Miss Taylor.

served by the hostess assisted by Mrs. J. A. Thompson.

Miss Ethel Johnson, honorary member, was a guest of the club. This department has been asked by the president of the club to furnish a program at the meeting on September

#### Publicity Chairman. CARROLL FOUGHT OFFICERS

A bunch of officers in Gulf township had to use considerable force Saturday in arresting West Carroll. Deputy Straughan and others had just captured a brandy still and destroyed about fifteen hundred gallons of peach mash a few miles southwest of Gulf. Two men at the still es-Mr. Brooks married Carrie Ella Pol- all the week with their aunt, Mrs. caped, but a fellow Phillips who had lock, of Cheraw, S. C." the officers were coming, was arrested, and is bound over to court as one

of the results of the raid. After the still was taken and the mash destroyed, Carroll and his wife drove up on the hill near by, where Beulah Baptist church was held last Deputy Straughan was, cursed that officer, and threatened to shoot him. The candidates for baptism Straughan left and so did Carroll. The officer went to Gulf and phoned Purvis, Woodrow Keeling, Marvin for assistance from Pittsboro. Sheriff Blair and Deputies Nooe and Lacey

of her friend, Miss Annie Myrick, re- Straughan at Gulf and, supposing Carroll to be well out of the way, Mr. and Mrs. Walter Spivey and started to the still site for further investigation, when they came across Carroll, his wife still with him, in the road near Gulf cursing Mr. Straughan's companions of the raid, Sam Burke and Eugene Straughan. He had just threatened to beat hout of them and to take Phillips away when he saw the officers get out of the car. Leaving his threats in the air, he took to his heels, followed by Nooe, Johnson, and Burke. Mr. Nooe irst held him up with a drawn pistol, but Carroll was still boisterous and threatened to kill the whole tunch. Lacy Johnson finally laid hold of him and when the fellow had flung him off two or three times, he tapped him twice over the head with the butt of his pistol and tamed him, though he still called out to his wife to shoot the "scoundrels."

In the car were found two more pistols and a bushel and a half of

## ASKS ABOUT RELATIVES

Dr. W. B. Chapin has received letter from Dr. Robin Harris of 1201 Columbian Mutual Tower, Memphis, the oak under which the children tenn., stating that his grandfather used to play, and was loaded with Aaron Harris and brother Headen all kinds of good things to eat. It was a very enjoyable day, but joy was turned to sorrow in the evening brother here named Henry Harris and a relative named Aaron Thempson. bers of the family bade farewell to They have had no news from their B. J. and bride, who would leave Chatham relatives since the Civil find that it has greatly improved the Tuesday for their home in West Palm | War. Some of you Harrises and quality of leaf reports County Agent Thompsons write to Dr. Harris.

# MOSQUITO FOUND TO BE AID TO DOCTOR

### British Experts Use It in Treating Paralysis.

London,-"Can you lend us some mosquitoes about 80-? We've got a patient we want bitten."

Startling as this query sounds, it is the sort of thing the British ministry of health is getting used to as a result of the latest researches at the Royal Society of Tropical Medicine and Hygiene, London, for the venemous little insect pest has its uses in the sacred cause of healing.

The mosquito in fact is, in certain cases, a "doctor," and he has been able to do, in cases of general paralysis and mental diseases, what human doctors have been unable to accomplish; alone. So that the patient need not feel too grateful to the little pest, it must be said at once that "healing" is no part of the mosquito's intentions, for when he inserts his needle-like proboscis in the flesh of the patient selected for biting-treatment, he fondly imagines he is pursuing his old trade of "infecting." And this, in a way, he is doing-although his energies are now being directed by mod-

#### Produces Malaria.

It has been found excellent results have been obtained in otherwise "incurable" mental and general paralysis cases where the patient has become infected with malaria, for when the malaria germs have been conquered! recovery from paralysis follows in the majority of cases, "Doctor Mosquito" is, therefore, being called in to supply the malaria. The ordinary doctors will do the rest,

At the Horton Mental hospital at Epsom Surrey there is a "mosquito" room," where Prof. P. G. Shute, gold medalist of the College of Pestology, rears, with tender care, from 300 to 500 fine healthy mosquitoes, all guaranteed to bite ferociously, and able to infect you with any disease derequired, are sent to Professor Shute, and he proceeds to prepare his "pets"

for the ordeal. In normal paralysis cases, about 80 will do, though sometimes 200 are: A delicious ice course was then required. Shute sees his "pets" get a good feed from a person suffering from malaria (this may be a bit painful for the malaria patient, but it helps to remove the virus, so is curative even in his case). When Shute; is satisfied his mosquitoes have become thoroughly infected with malaria he sends them to the institution

Feed on the Patient. On arrival they are allowed to enjoy themselves biting a person suffering from paralysis, though the bites are carefully regulated by the doctors in charge of the case. One day, perhaps 80 mosquitoes are loosed on the patient, the next day perhaps only 60. On the fourth or fifth day he may only

have to entertain 30 or 40. When the patient is first bitten his temperature rises as high as 105 degrees Fahrenheit, and it is allowed to remain at that until ten readings have been taken. Quinine is then administered, the malaria is treated normally, and when it disappears the symptoms of paralysis disappear with it, in the majority of cases, at any

rate. Lieut. Col. S. P. James, advisor to the ministry of health on tropical diseases, declares that as a result of giving malaria to patients suffering from general paralysis, a new field has been found for research into the terrors of malaria in the tropics.
