

WHITE AS COTTON FACE NOW RUDDY

Says Mrs. Wolcott—All the Terrible Aches, Pains and Sour Bile Sickness Gone

Like many other folks thereabouts, Mrs. Wolcott was a picture of misery. She says: "I was ghastly white as cotton, all thinned out, bilious all the time, terrible headaches, bones cracked as if they would snap apart, aches all over, could hardly walk or lift an arm; had been taking calomel steadily, and it made me so deathly sick I was completely discouraged. Then one day my cousin who lives near the state line came on a visit and she had a bottle of Dodson's Liver Tone. My! what a change. It gave me new courage. We sent to town for two bottles, and since then my face is filled out, with a ruddy glow. Gained over twenty pounds and am the picture of health. Whenever I feel bilious or constipated I take a dose of Dodson's Liver Tone and it works just fine."

This wonderful liver tone is sold by all druggists and is absolutely guaranteed to start your liver without making you sick.

Get a bottle today, and when you feel sick, bilious, sluggish, constipated, with dull headache, Dodson's Liver Tone will put you to rights every time. Try it today.

MOTHER!

Child's Best Laxative is
"California Fig Syrup"

Hurry Mother! Even a fretful, peevish child loves the pleasant taste of "California Fig Syrup," and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Can't Sew, but Keeps in Style!

Wear the colors that are stylish, but save the cost of new material and labor of sewing. You can home dye dresses just as good as the professional dyers!

The secret of perfect home dyeing (tinting, too) is to use real dye. Diamond Dyes are true dyes; they dye true, even colors and tint in beautiful tones. And so easy to use! Any kind of goods—right over the colors. Dye your curtains and other furnishings, too.

FREE: ask any druggist for the Diamond Dye Cyclopedic. Valuable suggestions, simple directions. Piece-goods color samples. Or, write for big illustrated book Color Craft to DIAMOND DYES, Dept. N12, Burlington, Vermont.

TRACES BULLETS BY THEIR MARKS

Expert Says Each Tells Its Own Story.

New Haven, Conn.—Bullets which kill or wound human beings tell their own story. Often they give mute evidence as a clue to the assassin because the weapon used can be identified from them. No two bullets are alike after they are fired; each has its characteristics.

These are assertions of Merton A. Robinson, firearms expert and ballistic engineer of the Winchester Repeating Arms company, who examined the bullets that figured in the slaying of Don R. Mellett, Canton (Ohio) publisher.

With increase in crime and the taking of human life, police authorities have turned to their ballistic engineer for assistance, especially where the gun is missing.

A common idea that bullets after being discharged are shapeless bits of metal is incorrect, he said. Unless disintegrated, the missile may tell its source and career by the markings upon it. In the case of the Canton bullets brought to Mr. Robinson by Coroner T. C. McQuate, the opinion was given that the guns were ordinary revolvers and not automatic pistols, and that the revolvers were of certain makes.

Each of the three bullets, one taken from Mellett's neck, one from woodwork of a garage near which he was killed and the third from a brick wall, were weighed. They corresponded closely with the standard 158-grain weight and appearance of Smith & Wesson .38-caliber bullets. Marks on one showed left-handed rifling, a characteristic of Colt revolvers. Rifling on another revealed five lands—high surface in relief—and grooves, a mark inherent to Harrington and Richardson guns.

Identification of bullets as well as recognition of missiles in other murder cases submitted to him from time to time is a part of the ballistic engineer's laboratory work. Mr. Robinson said bullets carry the peculiar characteristics of the gun from which they are fired, and no two guns are alike. Each has certain individual characteristics which can be found out by the expert.

The ballistic engineer first tries to determine the diameter of the bore of the gun, the number of grooves in the rifling, the depth of the groove, the width of the groove and the direction of the twist, whether left hand or right hand.

The bullet is measured for diameter and weight by delicate instruments. The results are compared with laboratory records which contain samples and data about every cartridge, shell and bullet turned out in the world.

BEAUTIFUL WAITRESS

Here is a photograph of Anna Louise Walters, Buffalo girl, who was judged America's most beautiful waitress, and winner of the national contest conducted by the American Restaurant Magazine. The winner, a brunette, is nineteen years old, weighs 118 pounds, and is 5 feet 6 inches tall. She is to receive a trip to the National Restaurant association convention at Atlanta, Ga., October 5-8, with all expenses paid.

WALL STREET PLAYS THROUGH NOON HOUR

Traffic Halts While Clerks Stroll and Gossip.

New York.—Money is king in Wall street, but the people there are far from being the pawns in the continual game which popular conjecture pictures them. They are very human, apparently more so in their hour of relaxation than members of other business groups.

Noon is akin to the proverbial Saturday night in a small town, with only the slight differences caused by custom and environment.

The streets are only canyons between walls of memory, but then the sunlight shines straight down into the voids and its brightness is reflected on the crowds. There are no bustling shoppers here, no persons rushing to appointments or the hurly-burly of business hours. Noon is a time to relax.

All traffic except that essential to the district is diverted at that hour and curbstone boundaries are forgotten.

Walk in Middle of Streets. Then the statue of Washington looks down on Nassau street, one of the few wide ones, where girls in fairs, groups of youths, or here and there a lad and the "girl friend," promenade. Lunch is brief and they saunter about in the middle of the street until the clock strikes one.

It is the same on Wall street itself—which is hardly more than a narrow alley—or on New street, which a wide truck would fill from curb to curb.

There is a sociability about it all, and an excavation for a new building is sufficient attraction for as many persons as can crowd around the guard rail.

Patrolling the streets during this time are the hawkers who reap their fortunes in nickels and dimes—news-papers, combs, novelties—anything that strikes the fancy.

The scene is entirely at variance with the activity of the street which makes a million dollars only small change.

Money is a commodity here, and all realize the futility of excessive display, except for the standard "prosperous looking" clothes which are affected both by bank presidents and \$20-a-week clerks.

The president and clerk eat side by side in the same lunchrooms, particularly those where you wait on yourself and then figure your own bill.

This action of the banker, however, may be construed as carelessness, as even small sums now are guarded closely. This practice was evolved only recently after a series of hold-ups.

Take Precaution. The same boyish looking messengers still carry the little black bags, but the bags are fastened to wrists by handcuffs and chains, making it virtually impossible for them to be snatched away. The kidnaping of the messenger is precluded by the presence of two or three armed guards walking behind him with weapons in hand in coat pockets, while the guards try to look as little like detectives as possible.

This quiet protection marks the street, for about the only visible policemen are traffic officers. For the rest, there is an abundance of plain clothes men and private guards in every establishment.

She Weds Cop. New Rochelle, N. Y.—A young society motorist, swimmer and golfer, is loving, honoring and obeying a motorcycle cop. Peggy Keogh, daughter of a former justice of the state Supreme court, was reprimanded by George Gotte for the way she drove her car. And now they are married.

Buy Where Your Dollar Buys a \$'s Worth

We Buy it for Cash and Buy it for Less.
We Sell it for Cash and Sell it for Less.

Owing to the low price of cotton, we are going to reduce prices on every article sold in our store if possible. We have been on a Cash basis since January 1. Therefore, we have been able to buy for Cash and thereby to take advantage of discounts on all bills. We have no bills to collect. We collected when we delivered the goods. Therefore we are in position to give you goods of the highest quality at the very lowest prices.

From now till the end of the year we propose to sell goods at even a closer margin than we have the last nine months in order to give our customers the advantage of getting the most possible for their money.

Visit our Stores at Pittsboro and Moncure and be convinced.

CONNELL & JOHNSON.

Ginning Price Reduced.

We wish to announce that our Gin Plant has been thoroughly overhauled by experts and will be in charge of Mr. R. L. Hatcher, an expert ginner.

Our charges are now only \$4.00 a bale, which includes bagging and ties.

We will give you at all times the highest ice for your Cotton Seed, either Cash or in exchange for Cotton Seed Meal.

We have a complete stock of fertilizer on hand.

Gentlemen:—

Please book me now for thirty (30) carloads of "AA QUALITY" Basic Lime Phosphate to be shipped in October.

My customers have tested out Basic Lime Phosphate in the field by the side of other mixtures and Basic Lime has given the best results. Several farmers around here grew wheat this year using Basic Lime Phosphate with five grains to the mesh.

Yours very truly,
T. ROSS ALEXANDER.
