## Cold-Water Tinting

(Copyright 1927)

There are lots of "prepared tints" for home tinting of your dainty lingerie, but did you ever try real dye-tinting with a real dye? You get glorious effects when you begin with the true tones that only real dyes can impart to fabrics!

An envelope of the actual dye powder is only fifteen cents at any drugstore. Sift a bit in cold water—dip the garment—and it's done. Only, you'll have a smooth, even tone just exactly like materials have when bought; none of that streaky look; never weak or "washy" no matter how much you dilute or lighten the color. Furthermore, you can "set" the tint if you want, by merely having the water boil.

Every drugstore has Diamond dyes, color cards and suggestions for exquisite tinting or regular, permanent dyeing of anything. Or, write for Color Craft—a marvelous book of ideas in full colors; free from DIAMOND DYES, Dept. N33, Burlington, Vermont.

### DREAM FOR APRIL.

(By Frank L. Alderman)  
I have made a dream for April,  
A tender, fragile thing;  
And I have caught a little song  
From frosty winds of spring;  
I have found a thought for April  
Beneath her rain-cool skies,  
And all of it is colored . . . with  
The blueness of your eyes.

Tell your druggist you want only the genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother you must say "California." Refuse any imitation.
