

SOUSA "OUTBATS" BABE RUTH IN GAME OF PAY

Elhart, Ind., May—Top notchers in the world of music "bat out" heavier salaries than do kings of the baseball diamond, reports J. F. Boyer, supervisor of the Con Music Center here. Mr. Boyer foresees a brighter future for the youngster following in the steps of Sousa than he who would fill Babe Ruth's shoes.

"To be sure Babe Ruth's \$75,000 a year salary is not to be sneezed at, but there are any number of starts in the music world who are 'batting out' salaries that have this beaten," says Mr. Boyer. "John Philip Sousa, for example, is now working a tour of the motion picture theatres of the country with his band at a reported salary of \$12,500 weekly. This is approximately \$650,000 for the year, but even allowing for several months lay-off and for the fact that Sousa must pay the fifty-five musicians who make up his band, there is a still a small fortune left for him, exceeding by far Babe Ruth's \$75,000. Then, too, Mr. Sousa's earning capacity endures many times longer than Ruth's, for the older Mr. Sousa gets, the greater his fame and drawing power, whereas Ruth at best only has a few years of maximum earning power."

Paul Witeman Vincent Lopez and Paul Ash are among the other outstanding musical figures mentioned by Mr. Boyer as having earnings which exceed those of the famous baseball star. Mr. Witeman is now playing at a new York restaurant on a guarantee and percentage which is said to give him in the neighborhood of \$15,000 a week. Vincent Lopez's most recent engagement on the Loew vaudeville circuit was at salary of \$4,000 a week, and Paul Ash has a five-year contract with the owners of the Oriental theatre in Chicago which calls for the payment of a million dollars within a period of five years.

KENLY GIRL CHALKS UP FINE ATTENDANCE RECORD.

Kenly, May 14—Officials and patrons of Glendale Consolidated high school, located near Kenly, was preparing to bestow honors upon Miss Rena Woodward, 17-year-old daughter of Mr. and Mrs. J. M. Woodward, when she is handed her diploma next week.

Since she enrolled in the first grade ten years ago Miss Woodward has not missed a single day in school. She has marked up an attendance record of eleven years, two months and ten days in completing her grammar and high school education.

A RECORD MONTH FOR THE CHEVROLET CO.

Spurred on by the greatest demand in its history, Chevrolet in April again set up a new production record with a total output for the month of 111,937 units. This exceeds by 4,037 units the best previous monthly performance in the history of the company and establishes an all-time record for the monthly production of gear-shift cars.

Equally as spectacular as the remarkable monthly production fast and dividing the spotlight with it was the mark established April 29, when in the short space of a day's working hours, the factories built 5,347 Chevrolet cars and trucks. This was 272 units in excess of the previous day's record.

It was particularly fitting that the record day happened to be the same one that Alfred P. Sloan, Jr., president of the General Motors Corporation, chose for a visit to the Flint plant. Mr. Sloan, with C. S. Mott, vice president of the General Motors Corporation, arrived at the factory early in the day as guests of W. S. Knudsen, president, and C. F. Barth, vice president of the Chevrolet Motor Company.

Before Mr. Sloan had completed his inspection of the big Flint plant, where men and machinery were combining to build the eight types of Chevrolet cars now available, it was evident that a new production record was in sight.

Mr. Sloan waited for number 5,347 to come off the line, congratulated Mr. Knudsen on the remarkable showing being made by the Chevrolet Motor company and its product and rode off the line in the epoch-making model which again happened to be a coach.

HIGH COST OF SPENDING

When you spend \$100, do you stop to think that your action will cost you about \$6.00 a year for the rest of your life?

It is a fact. That's what your \$100 would have earned you, had you kept it at 6 percent. simple interest. That's 50 cents a month; it amounts to \$60 in ten years; it is \$120 in 20 years, or \$240 in 40 years. That is what it costs you to spend a hundred dollars now. Can you see why people who save become wealthy? It is plain as the nose on your face.

LOW RATES for time payments on these cars

ANY FAMILY entitled to credit may buy a General Motors car and pay for it while using it, under the GMAC Plan.

When time payments first became an accepted form of car purchase, General Motors organized its own finance company, the General Motors Acceptance Corporation, to make sure that the sale of its cars on time would be in the buyer's interest and that the finance charges would be fair.

GMAC rates have always been low; and the last reduction has saved General Motors' customers more than \$12,000,000.

The General Motors line includes "a car for every purse and purpose"—a suitable model for every income. You can buy it out of income, paying no more than the cash delivered price, plus only the low GMAC financing charge. And the whole transaction is so conducted as to keep your goodwill and satisfaction.

CLIP THE COUPON

USE THE GMAC PLAN to enjoy a new car now. Use it to get a better car for what you plan to spend. Have General Motors quality. Share in the economies of volume production. Look over the list of General Motors cars below. See which car suits your purse. Then check and mail the coupon. We will send you full information about that car and about the fair, low-cost GMAC Plan of paying for it out of income. Don't wait. Clip the coupon and mail it TODAY.
