

BEST CORN VARIETIES REPORTED BY STATION

That the farmers of North Carolina may know how the different varieties of corn grown in the state yield when compared with each other on the same soil under identical treatment, the agronomy department makes variety tests from time to time. The last five-year period ended in 1918. Since that time no further tests were made until 1926.

In the meantime, however, seed corn selection and breeding work has been conducted with the different varieties by the Cereal Agronomist, G. M. Carren. In this interval also new breeders of seed corn have appeared and some of the older growers made improvements in their varieties, so the tests were started again in 1926. For the two years of 1926-27, there have been some changes in the rank of the varieties as tested on the various branch station farms. At the mountain station, for instance, First Generation Cross No. 182 was first, Southern Beauty second and Biggs Prolific third under the five-year test concluded in 1918. For the past two years, however, Southern Beauty ranks first, Holcombe's Prolific second and Kiser's Cocke's Prolific is third.

At the piedmont station, Southern Beauty was first, First Generation Cross was second and Biggs Prolific was third in the old five-year test. In the new test, Latham's Double is first, First Generation Cross was second and Southern Beauty was third under the five-year test concluded in 1918. Under the new test, Latham's Double is again first, Southern Beauty second and Indian Chief third.

At the Upper Coastal Plain farm near Rocky Mount, Latham's Double and Briggs Prolific tied for first place in the last tests made. Gericks Prolific was second and Williams corn was third.

New York, Jan. 29.—Those persons who do not believe there is anything in a name should have a talk with Constance Pappadimitrakopoulos who thinks so highly of his cognomen that he will entertain no suggestions that he change it to one of not more than five syllables.

"It is a good name. It is the name my mother gave me," Pappadimitrakopoulos declared when, upon applying in Federal Court for naturalization papers, the Clerk of the Court suggested that he ought to Americanize his nomenclature by clipping off a few syllables—infering that a name with so many syllables offered unlimited possibilities for conversion into a really attractive name.

"It is my name. I'll stick to it," Pappadimitrakopoulos said. He related that he was born at Patras, Greece, on St. Patrick's day, 1883, and came to the United States in 1910.

Eleven poultrymen of Forsyth county culled out 800 birds from the 1400 in their flocks before beginning their breeds work for this season.

Farmers of Union county are still interested in growing kspedova for soil improvement and for hay. A group recently ordered 1,400 bushels of seed for planting on the small grain this month.

MAKING PROGRESS

We are glad to report progress in our institution. It has been only a few months since the organization of our Bank, yet the resources are already about \$100,000. This indicates that we have the confidence of the people of our section, also that we are able to serve our customers satisfactorily. We want you to let us serve you.

Your business will help us and we are sure we can help you. If you haven't a bank account, start one with us. We shall be glad to have your account, however small, and shall give it the same attention as the larger accounts. True, a small account is not profitable; but small ones may grow into large ones. Certainly, there is no better thing for a man to do than to make a habit of banking his money. Our savings department will take care of it for you, and pay you interest also.

Mother!

Child Gets Sick, Cross, Feverish if Constipated

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign the little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Fig Syrup" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious, "fruity laxative," and it never fails to effect a good "inside cleansing." Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your

druggist for a bottle of "California Fig Syrup," then see that it is made by "The California Fig Syrup Company."

WHEN TO SAVE

Today, this week, this year is the time to save! There will come no better time. Saving is not an easy process at any time, so there is little reason to think that next year it will be easier.

But making it to be considered before saving, and it is false economy to handicap one's earning ability by economizing on equipment necessary to efficiency. Therefore, the truest economy is in putting as much as is actually necessary in securing the things you need to make real progress in your business. And sometimes a loan is necessary to secure equipment or material to modernize and make thoroughly efficient one's business. Such loans this bank would encourage, and would be glad to negotiate under proper conditions.

But the money often wasted in useless ways would, if saved, soon provide the capital to fit one out for more efficient business. Begin by making a deposit in our savings department. We pay interest on time deposits.
