## MAKE YOUR MONEY WORK FOR YOU

The reason some people seem so prosperous under all conditions is often because they have money at work for them. They have saved a reasonable portion of their earnings and placed it in the bank on interest. They are then assured of a certain definite income every year.

You have to work for your money. Then make your money work for you. Two dollars per week placed in a savings account every year for ten years will amount with interest to over \$1,300.00. Can you not save two dollars per week?

We pay 4 per cent interest and compound the interest quarterly. We would be pleased to have you open an account with us.

# WAS IT A BARGAIN?

The Dutch purchased Manhattan Island from the Indians for \$24 and a barrel of whiskey. Seems like a bargain, doesn't it? 

Yet \$24 invested at compound interest at the time the purchase was made would now amount to \$4,000,000,000 -to say nothing about the barrel of whiskey! Nothing pays quite so well as money at interest. Get your money to working for you. It can be done, has been done, is being done by many people. We stand ready to help
