DOINGS OF
CHATHAM
FARMERSSTOCK FARMING,
POULTRY,
ETC.News of the Week on
Chatham County
Farms

As a result of our sweet clover demonstrations begun this year, we believe that Chatham will go in for sweet clover production more heavily in the future. We visited another successful seeding of sweet clover on the farm of J. L. Fields of Bonlee last week. Mr. Fields seeded 30 pounds of sweet clover seed on oats in the drill per acre, and also limed his land at the rate of one ton per acre. The sweet clover was seeded in February. Mr. Fields has a good start, and we advise farmers in his community to visit this demonstration, and study the opportunities for sweet clover growing on their own farms.

Mr. W. A. Snipes of Bynum, Rt. 1, who is conducting a one-acre sweet clover demonstration in co-operation with the county agent, also reports that his sweet clover is doing well, and that he has a good stand.

Mr. O. M. Buckner of Pittsboro, Rt. 2, has recently obtained a registered Jersey bull calf. This calf is of unusually good breeding, and should prove a real asset to our dairy industry.

Beardless barley is ripening fast, and a number of farmers are now cutting their barley. We are anxious to see what yields this barley will turn out.

A number of farmers in the vicinity of Pittsboro remember the field of alfalfa that Mr. Connell seeded in front of his residence. This alfalfa was turned last year and followed in corn. This spring, it was seeded in spring oats. There is a remarkable difference in the oats on the alfalfa sod, as compared with oats on land not seeded in alfalfa. The oats on the alfalfa sod have a dark green appearance, while the oats on land adjoining this do not have this rich green color. We predict a much larger yield of oats on the alfalfa sod due to this alfalfa. This is a real demonstration in the soil improvement value of alfalfa.

POULTRY SHIPPED FROM
PITTSBORO LAST WEEK

Thursday of last week, seventy-eight farmers co-operated in marketing a total of 3200 pounds of live poultry at the poultry car on the S. A. L. tracks at Pittsboro. A total of \$858 was paid to those farmers for their poultry, this sum representing a saving over local prices of \$260. Carlot movements of poultry from Chatham county this year now totals approximately 60,000 pounds, for which farmers have received a total of \$15,000. This sum represents a saving to the farmers of this county of \$4,800.

Poultry shipments from Pittsboro and Siler City will be continued throughout the summer. A car of poultry will be loaded at Siler City within the next three weeks.

TRIP FOR REGISTERED JERSEY
CALVES TO BE MADE IN JUNE

Our effort to make up a car load of registered Jersey calves for this county have been progressing rather slowly, but we are glad to report that the car is practically made up now, and we expect to leave Pittsboro on June 4 to select the heifers.

PLANS TO ERADICATE THE
SCRUB BULL IN CHATHAM

One of the most serious menaces to the dairy industry in this county is the scrub bull. Until our scrub bulls are replaced with good bulls, we cannot expect to make real progress in breeding Jersey cattle. With this idea in mind, the county agent, with the assistance of the farmers of the county, dairy specialists from State College, and other agencies expects to put on a pure bred sire campaign. It is our aim to place a good registered service bull in each of the thirteen townships of the county. We should like to place more than this, but we at least hope to place a good bull in every township. This campaign will be begun in June, and continued until the desired number of bulls is placed.

NEWS OF THE WEEK IN
NEIGHBORING COUNTIES

Farm and home week will be held at State College, July 22 to 26. An agricultural program for North Carolina will be studied that week.

The latest 4-H Club to be organized in the state is the Black Walnut Club. Each member is required to plant 25 hills or seedlings.

Top dressing cotton and corn with quick acting nitrogen materials, such as nitrate of soda is a paying proposition according to demonstrations conducted by county agents.

Buncombe county now plans to feed its purebred dairy herds by building silos and seeding alfalfa.

Catawba county has begun its campaign to eradicate the scrub bull. Catawba will become the third county to establish this enviable record; Gaston and Buncombe having already completed this work.

Commercial vegetable and fruit growing in North Carolina will suffer a big setback if the Mediterranean Fruit Fly gets a start here. The pests

attack peaches, apples, plums, figs, tomatoes, melons and other fruit of similar character.

The North Carolina Crop Improvement Association will be organized during the annual farm and home week at Raleigh.

Up until May 14, farmers of Beauford county had sold fat hogs to the value of \$101,888.10. These animals were fed and shipped under the direction of County Agent E. P. Welch.

PICNICS TO BE HELD AT
BRANCH EXPERIMENT STA.

The county agent hopes to induce a number of farmers to attend some of the field days held at various experiment stations in the state this summer, in connection with a Chatham county farm tour.

"The first of the annual picnics will be held at the Piedmont Branch Station Farm near Statesville, N. C., on July 18. The others are as follows: Tobacco station, Oxford, August 1; Blackland station, Wenoona, August 8; Mountain station, Swannanoa, August 15; Upper Coastal Plain station, Rocky Mount, September 5; and Coastal Plain station, Willard, September 12. Every farmer is invited to bring his family and a well filled picnic basket to the station nearest to where he lives. Interesting programs are being planned.

DAIRYING IS SUITED TO CROP
FARMING IN THIS COUNTY

There are a number of farmers in Chatham who feel that the keeping of cows mean that they will necessarily have to abandon the growing of cotton or tobacco. This is the wrong idea. The keeping of cows should be a sideline, something that will bring in an income to meet expenses through the year, in order that the cotton or tobacco money may be a clear profit.

A good dairy cow when properly fed on a crop farm in Chatham will return about \$200 per year in milk and manure produced, and about about \$137 a year if butterfat is produced for a creamery.

Many farmers who are growing cotton and tobacco as cash crops are finding that there is land and labor adapted in supplementary dairying. But the man who goes into the dairy business one year, and out the next according as the price of cotton and tobacco vary, will never make a dairyman, and is doomed to failure before he starts. The person who keep only enough cows to consume the by-products of a well balanced farm and gradually strengthens his herd by good breeding and good feeding will find that cows will build up his farm and give him a profitable income without any material increase in his operating costs.

There are hundreds of farms in Chatham county on which sufficient feed for five to ten cows could be produced without interfering with the growth of cash crops. On most of these farms, there is labor available to feed and care for these animals without extra costs. In such cases, the cows will pay for the operating costs of the farm and make it possible to bank the returns from the crops without having to use them for payments of old debts. Less than one-half the acres on the average farm in Chatham contribute to the income of the owner, yet if these idle acres are put in pasture and grazed by cows, hogs or sheep they will pay the owner from \$5 to \$35 per acre.

Oatmeal
Makes REAL
Chickens!

It builds white meat; it builds big, strong, eager-to-lay pullets. The Quaker Oats Company makes

Quaker
FUL-O-PEP
GROWING MASH

and puts in a large quantity of fresh, pure oatmeal; valuable minerals, proteins, cod liver meal, and molasses in dry form are added, with other choice ingredients. And HOW IT WORKS! You can almost see them grow. Come in and get some of this great feed. We have it—fresh, and it costs less to use because it does more.

4-H CLUB NEWS

Activities of the Farm Boys
of Chatham

Elmer and Elzie Connell, sons of Mr. R. M. Connell of Pittsboro, are members of the Chatham county calf club, and these boys are planning to obtain a registered Jersey calf each. In fact, Elzie has his calf, and Elmer plans to get his calf in this shipment.

Grover Hart, son of Mr. T. L. Hart, of Bonlee, has given his order to the county agent for a registered Jersey heifer.

A number of corn club members have taken advantage of the offer of the H. P. Brown Guano Company of Winston-Salem to supply basic slag to those corn club members for corn growers who so desire it. Jerome Durham of Pittsboro, Rt. 2, has already obtained his basic slag, and Ike Bland of Pittsboro, Rt. 1, is planning to obtain his.

It will be of interest to those 4-H club members who are planning to attend club camp this summer to know that the camp will be held during August 12 to August 17 at Jackson Springs in Moore county.

Brown's Chapel News

In last week's paper it should have been Mrs. Moore instead of Mrs. Moore who was reported as a returned missionary visiting her old home community 25 years after her departure for Korea. Mr. Moore's failure of health caused their return five years ago, and Mr. Moore died last year in Greensboro.

We suppose everybody gets out of humor sometimes and feels like giving up, but the man that is worth while is he that can smile when everything goes wrong.

Last week Mr. C. N. Justice fell out of his barn and sprained his hand. The serious part of it is that it is a mighty busy time when he needs that hand.

Mrs. Mollie Dark of Siler City and others have sent words of appreciation and ask for more and longer Brown's news letters. But while this writing is a labor of love, I may not be able to contribute as regularly during the busy season.

Mrs. N. B. Nixon of this community spent last week with her aunt, Mrs. Mollie Dark.

Mrs. Reid Cole of Winston-Salem is spending some time here with relatives.

Mrs. G. F. Perry and family of Carrboro spent Sunday with her sister, Mrs. J. R. Ellington, who has been ill several days.

It may not belong strictly under "Brown's Chapel News," but some of us up here are getting disgusted with the way strong drink is allowed to be handled around Pittsboro. Men are killing themselves drinking. If the officers cannot catch the men, we know folk who say they can catch some with the stuff if the officers will arrest. Now we feel that all law-breakers, rich or poor, black or white, should be prosecuted, and that some should not be subjected to imprisonment and hardship while others go scott free.

Little 14-year-old Edwin Cheek, Pittsboro, Rt. 2, is still in bed trying to overcome tuberculosis, if any of you wish to write to him or send him anything.

LIKE FATHER, LIKE SON

Johnny (asking for third helping of potatoes)—"Mother, pass the potatoes!"

Mother—"Johnny, you're a little pig."

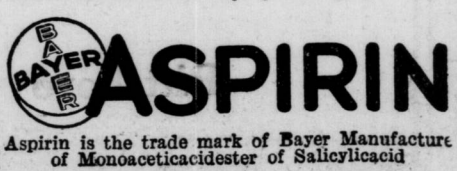

Dad—"Johnny, you know what a pig is don't you?"

Johnny—"Sure! A pig is a hog's little boy."

The wisest man is the best prophet.

NEVER wait to see if a headache will "wear off." Why suffer when there's Bayer Aspirin? The millions of men and women who use it in increasing quantities every year prove that it does relieve such pain. The medical profession pronounces it without effect on the heart, so use it as often as it can spare you any pain. Every druggist always has genuine Bayer Aspirin for the prompt relief of a headache, colds, neuralgia, lumbago, etc. Familiarize yourself with the proven directions in every package.

Moncure News

Since Capt. Wissler's illness, today, Monday, is the first time he has been down street speaking to his many friends. We are so glad he is able to be up and out again.

Also Dr. J. E. Cathell has returned from Scott's Hospital, Sanford, and is out again, we are glad to state, but is not able yet to take up his practice.

Miss Beatrice Wilkie has returned from a visit to her brother's at Laurinburg.

Miss Hetty Womble has returned from a visit to relatives at Meggetts, S. C.

Mr. J. V. Womble, who has been a member of the faculty at White Plains high school, is at home for the summer.

Misses Dorothy and Roberta Lambeth are visiting relatives at Fayetteville this week.

Miss Ruth Stedman is visiting her aunt, Mrs. M. D. Foister, at Sanford for a few days this week.

Miss Alma Walden, the popular young daughter of Mr. and Mrs. E. E. Walden is making a splendid record at Peace Institute in music this spring term. She was heard in a musical concert over the radio one night last week. We are proud of her and always like to hear her sing.

A concert exercise entitled "The Roses," was given by the members of Moncure Methodist Sunday school last Sunday evening, May 26, at 8 o'clock for Sunday school day which is observed in all Sunday schools during the months of May and June and the following program was carried out:

1. Song: "Spread the Message in Song," by choir.

2. Song: "That Great Day," by choir.

3. Song: "The Day Has Come" by the school.

4. Recreation: "Why," by Etheline Carr.

5. Scripture Reading by W. W. Stedman, superintendent.

6. Prayer by J. M. Craven.

7. Solo: "Thanks Be to God," by Mrs. W. W. Stedman.

8. Opening addresses by Dot McCracken.

9. Song: "Come to the Smiling Meadows," by school.

10. Recitation: "When the Roses Come" by Marjorie Lee Ray.

11. Song: "The Rose Class Greeting," by twenty small children.

12. Song: "The Rose" by Emma Lee Mann, Marjorie Strickland and Mrs. Daisy Lambeth.

13. Recitation: "The First Children's Day," by Ruth Stedman.

14. Song: "Rose, Rose, Rose," by Etheline Carr.

15. Recitation: "Faith, Hope and Love" by Carlton Clegg and William Moore.

16. Song: "The Flowers of the Field," by the large girls.

17. Recitation: "Go Labor On," by Lois Womble.

18. Song: "The Rose of Sharon," by the school.

19. Recitation: "The Lord in His Garden," by Nellie Womble.

20. Song: "The Promise Wreath of Roses" by eight girls.

21. Recitation: "In the Heavenly Garden," by Camelia Stedman.

22. An address by Rev. Jonas Barclay.

23. Collection taken by Lois Ray and Emma Lee Mann.

24. Anthem, "Praise the Lord," by large girls.

The collection taken amounted to \$10.00.

We wish to thank Rev. Barclay and the congregation of the Presbyterian church of Haywood for joining us

Are You
Ready

When your
Children Cry
for It

Baby has little upsets at times. All your care can not prevent them. But can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you can not pat away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

A PLEASED DEPOSITOR

The depositor has a right to expect his bank to return his money on demand, or pay it to some one else on his order.

Is he justified in that belief? He CERTAINLY IS. That's the one big aim of our Bank—to safeguard the funds entrusted to our care. We are ready at all times to pay our depositors in full, to justify the confidence reposed in this old, reliable Bank, and at the same time give our patrons the benefit of our modern banking facilities.

BANK OF PITTSBORO
PITTSBORO, N. C.

MAKE YOUR MONEY
WORK FOR YOU

The reason some people seem so prosperous under all conditions is often because they have money at work for them. They have saved a reasonable portion of their earnings and placed it in the bank on interest. They are then assured of a certain definite income every year.

You have to work for your money. Then make your money work for you. Two dollars per week placed in a savings account every year for ten years will amount with interest to over \$1,300.00. Can you not save two dollars per week?

We pay 4 per cent interest and compound the interest quarterly. We would be pleased to have you open an account with us.

THE BANK OF MONCURE
MONCURE, N. C.

Years
of service in
MODEL T FORDS

THE Model T was so strongly and sturdily built that it is still rendering reliable, economical service to motorists in every section of the country. Millions of these cars can be put in shape for two, three and five more years of use at very small cost.

So that you may have this work done economically and satisfactorily, the Ford Motor Company is still devoting a considerable section of its plants to the manufacture of Model T parts. It will continue to do so as long as they are needed by Model T owners. The following list gives the approximate labor charges for reconditioning the Model T Ford:—

Engine	
Tune motor (including replacement of commutator case, brush and vibrator points if necessary)	\$1.00
Grind valves and clean carbon	\$3.75 to 4.00
Overhaul carburetor	1.50
Reline detachable car transmission bands	1.50
Install new pistons or connecting rods	6.00
Tighten all main bearings	6.00
Overhaul motor and transmission	\$20.00 to 25.00
Rear System	
Replace rear axle assembly	2.50
Install universal joints	3.00
Reline brake shoes	1.50
Replace rear axle shaft, drive shaft pinion, or drive gear	5.00
Overhaul complete rear axle assembly	\$5.75 to 7.00
Rebush spring and perches	1.75
Oil and graphite springs	3.00
Front System	
Overhaul front axle	\$4.00 to 5.00
Rebush spindle bodies and arms (both sides)	2.50
Replace or straighten spindle connecting rod	.75
Tighten radius rod or steering ball cap	.50
Tighten all sockets and joints of front end	1.50
Replace front spring tie bolt or new leaf	2.50
Straighten front axle	3.00
Chassis	
Replace rear fender	1.75
Overhaul steering gear	3.50
Repair muffler	1.00
Overhaul radiator	7.50
Repaint Coupe	25.00
Repaint Sedan	25.00
Repaint Touring Car	20.00
Reupholster Runabout	8.00
Reupholster Touring Car	15.00
Replace top deck (Coupe or Sedan)	4.00
Overhaul starting motor	3.00
Overhaul generator	2.60

These prices are approximate and are for labor only, because the need and number of new parts depend on the condition of each car. The charge for these parts is low, however, because of the established Ford policy of manufacturing and selling at a small margin of profit.

FORD MOTOR COMPANY
