## HERE'S A SECRET

One of the world's greatest philosophers once said: "The secret of success in life is to be ready when your opportunity comes."

And that's true in financial as well as other affairs of life. Don't drift along from day to day and then find yourself short of funds that might secure some good investment. Begin NOW to get ready. Start a Bank Account. Then when opportunity knocks, you'll be ready. We never gave better advice. Use our Bank.
