Babies must be protected from flies. Besides their torment and torture, flies transmit over thirty different diseases, any one of which may prove fatal. Every fly you see must be killed. INSIST upon and get FLY-TOX, the scientific product developed at Mellon Institute of Industrial Research by Rex Research Fellowship. It is harmless to mankind but sure death to all household insects. Just follow instructions on blue label of bottle. Insist on FLY-TOX with its perfume-like fragrance.—Adv.
