## FIFTY BUSHEL CORN, ETC.

Appropos an editorial in these columns on the opportunities in Chatham for profitable raising of chickens, hogs, and goats, we would call the attention of our farmer readers to the county agent's figures on the success of ten demonstrations of hog-feeding in this county. Mr. Shiver makes the point that the principal means of making profit in growing pork is in increasing the product of corn per acre. And right here we wish to insist that every Chatham county farmer plant no acre of corn from which he may not reasonably expect fifty bushels. There is no more work in making fifty bushels to the acre than in making ten. A few acres of fifty-bushel corn beats a large acreage of ten-bushel corn, and one has the extra acreage for pasture, and if set to Bermuda grass (we name the easiest thing to grow), that acreage will help prepare the hogs for the corn eating period. Fifty-bushel corn and the clovers, grasses, sweet potatoes, and rape and rye, will make hog-raising a profitable industry in Chatham county. Again, we should like to mention, in addition to the openings for the production of chickens, hogs, and goats, the availability of profitable sheep and turkey raising in this county. Talk to Mr. R. E. Harris of New Hope township about turkeys and sheep.

RECORDER'S COURT  
NEEDED

The infrequency of sessions of superior court for the trial of criminal cases and the apparently increasing number of such cases, together, make the establishment of a recorder's court here essential to speedy

justice and to its economic administration.

Men were in jail months before the last term of court and on rather unimportant charges. All those months the county had to bear the expense of boarding them, while the term in jail awaiting trial was as much punishment as would have been in some cases awarded them if the trial had immediately followed their arrest. Consequently, not only was the board bill lost, but whatever the guilty might have earned on the roads for the county or paid in fines was forfeited.

But it is conceivable that an innocent man be unable to give bond and have to lie up in jail, and as all accused are presumably innocent till proven guilty, a speedy trial in such cases is a matter of constitutional rights.

With a recorder given jurisdiction over the minor cases, both criminal and civil, and court held every two weeks, the expenses of the administration of the courts should be considerably decreased, and speedy justice rendered both guilty and innocent. Moreover, as there are submissions in most cases, it would require no

Marshall or Chase to meet out a fit measure of punishment. Besides, it would be permissible for any defendant who wished to have his case tried before a jury. Also, in cases of dissatisfaction appeal to the superior court would be available.

Such a court could be run at little more cost, it would seem, than a justice's court.

The county commissioners have the authority to establish a recorder's court, and The Record suggests immediate consideration of the matter by that honorable body.

Fall acknowledges that he lied to keep the Harding administration from being criticized for what he foresaw would be considered a bribe if discovered. But even yet it is hard to conceive of the poor old fellow's selling his country outright. But he has a year in prison and a \$100,000 fine imposed upon him, and whatever his degree of sin, at his age the punishment is great, and at any age the fall from a high place to a penitentiary cell is a terrible penalty. The lesson is that public servants must be above even suspicion, as all other men should be.

## LOOK WHO'S COMING

## FAMOUS CAROLINA TAR HEELS

This bunch of young musicians are pleasing their audiences wherever they are playing. There is a variety of music to suit the whole family. Doc Walsh, known as the Banjo King of the Carolinas accompanied by Thomas C. Ashley and Garley Foster, artists in the rendition of popular numbers that touch the heart or make you laugh—or put a tickle in your feet.

## HONEST-TO-GOODNESS STRING MUSIC of the Hills

Doc will entertain you with Hawaiian music on his banjo. Mr. Walsh will sing a number of the old-time Southern songs mingled with some of the latest Broadway hits. Garley Foster will make you feel that you are out in the deep woods, with his bird imitation and you will vote Garley good, too, when he plays the Guitar and Harmonica. Tom Ashley is a good singer as well as one of the best Guitar players in the country.

FAME OF SARGON  
NOW NATION-WIDE

Big New York Firm, with Branches in Leading Cities, Selling at Rate of Over Million Bottles Yearly—California Also Using at Rate of Million Bottles a Year.

When Sargon was first given to the world, well known authorities predicted it would become one of the great outstanding health-giving remedies of the age, but the men of science who labored for years to perfect it little dreamed it would become a household word in so short a time.

According to the statements of people everywhere who have actual-

ly put it to the test, it is restoring literally hundreds of thousands of weak, rundown, half-sick, discouraged men and women by some of the latest and most advanced methods known to Medical Science.

The demand for Sargon is probably without parallel in the history of the drug trade. In the State of California alone, it will require over one million bottles to supply the people of California during the first twelve months after it was placed on sale.

One big New York firm, with wholesale houses in leading cities, have sold and distributed 908,184 bottles in the past eight months, or at the rate of one million and a quarter bottles per year.

Kansas City wholesale and retail firms have sold and distributed over 300,000 bottles within twelve months, or an average of almost one bottle for every family in the State of Kansas.

Texas dealers required nine carloads the first four months. In the Northwest, the Twin Cities of Minneapolis and St. Paul have been

selling at the rate of over \$100,000 per year, to say nothing of the immense wholesale distribution. Sales in other sections have been correspondingly large.

Back of Sargon's triumph in the drug stores is Sargon's triumph in the homes. When a suffering man or woman finds a medicine that helps them, they invariably tell their friends about it, and in this way the fame of Sargon is spreading from coast to coast, sweeping the country like a great tidal wave.

No matter where you go—North, East, South or West—Sargon is bringing health to thousands, and many foreign countries are now clamoring for it. C. R. Pilkington, Agent.

"What!  
A weather bureau?"

Testing a car's performance in heavy rain. From actual photograph.

Drawn from a photograph of a car being tested on snowy roads.

VISITORS to General Motors' 1268-acre Proving Ground marvel at the sight of a complete weather bureau and ask what it is for.

The answer is that in the testing of cars every possible factor that might affect a car's performance is considered by General Motors' engineers.

So precise are some of the tests that even the difference between a sunny day and a partly cloudy day—or between a north breeze and a south breeze—is considered.

With each day's record of the mechanical tests applied to a car on the roads and hills of the Proving Ground is included a report of the exact weather conditions prevailing. The engineers then can know how weather affects performance, and can have a comparable record so that every car tested is given an equal opportunity to prove itself under exactly the same conditions.

Advance models of all the cars listed below were proved at the Proving Ground before they were introduced to the public. Read about them; then clip and send the coupon.
