## PITTSBORO COLORED P. T. A. NEWS ITEMS

The Parent-Teachers Association of the Harton Graded School met Friday night, December 6th with a large number of parents and teachers present. The meeting was presided over by the president, Prof. L. W. Ellis. The purpose of the association is to further the material, social and educational interests of its members in particular and of the people of Chatham county. The president brought to us many encouraging remarks as to future programs partly outlined. He also expressed his regret at the absence of the superintendent of public instructions, and said "We are here for business, that we may solve the problem of youth in this aeroplane age." Many of the members proved that they had a mind to work as never before.

Nineteen new members were recorded, which shows an increase of about two-thirds in membership of 66 2-3 per cent, and we feel sure of success. Already quite a number of our good white friends have pledged themselves to help us and more will, and we thank them for that God-like spirit. Prof. R. E. Lowe, principal of the school, spoke on the many needs of the school, which was very timely and in order. From time to time, there will be lectures, debates and discussions of all types in these meetings, as the committee sees fit. After many other interesting features the meeting closed to meet in its regular January 3, 1930.—Reporter.

Lawyer: "So your husband died intestate?"  
Aunt Sairey: "No, indeed. He died way down in old Kaintucky."

## Brown's Chapel News

Mr. C. H. Lutterloh says he found a boll weevil since the cold weather alive in a cotton boll. He had a red oak acorn lying by his side for the winter months. How are we to get rid of the pest?

Rev. E. C. Durham, one of our community boys, now a prominent M. E. minister, will preach in Front Street M. E. church, Burlington, Christmas morning, at a union service. He is pastor of Webb Avenue church.

Born to Mr. and Mrs. L. E. Sturdivant at Cary a fine boy. Mrs. Sturdivant is a daughter of Mr. and Mrs. J. T. Mann and was one of our best singers and Sunday school workers before her marriage.

Messrs. John Durham, Clay King, and McKindrey, all of Burlington, spent Saturday night with John's parents and were welcome visitors at Sunday school.

We all deeply sympathize with Mrs. A. P. Dark in the illness of her mother, Mrs. Ed Williams, but hope for her a speedy recovery.

Grady and Harry Henderson, on their way to Burlington with a load of tobacco one morning last week, had the misfortune of turning the car over and tearing up the top and windshield. The worst hurt was to their dad's pocket book.

Next Sunday is Brother Dailey's appointment and we invite everybody to hear him.

It seems hard to bring up a man before the church for non-support of the church, but no one would see his daughter marry a man who would not support her. But many seem to think the church can do just any way, that he is a member and God will save him; so let him stay. But where one's treasure is there is his heart also.

On Christmas night an entertainment and a fish pond of Christmas present will be held here. The public is invited.

Mr. and Mrs. James Nabors of Pittsboro were guests in the home of the latter's sister, Mrs. W. H. Mann Sunday.

Young Mr. Lewis, who is to occupy the old H. F. Durham place for the club owners, has won his employers' esteem to such a degree that they have consented to let him have all he can make on the place. The home has not been occupied for several years and much repair was needed, but as the sportsmen got the place cheap and fix it up.

The old homestead of Mr. I. W. Durham for 72 years has also been recently covered, and I am told that in the spring hardwood floors and other improvements will be effected and a road graded up to the place. It is to be turned into a club house. Mr. Moser, father of Mrs. Lewis, a first class carpenter and contractor of Greensboro, has charge of the job. Dr. Wyatt and his club are footing the bills. They may later build a big lake. There is a beautiful location for one, with four or five perpetual springs flowing out down through a big hollow.

## History of Legion in State Being Written

The "History of the American Legion, Department of North Carolina," from organization up to date, now in process of compilation, will contain the names of all North Carolinians who took part in the original conference held in Paris, France, in the spring of 1919, if these names can be secured. The department historian, A. L. Fletcher, of Raleigh, has already secured a partial list but is hopeful that a full list may be obtained. Mr. Fletcher asks that every Tar Heel who took part in this important organization meeting, write him full details of the meeting, giving the unit which he represented and his recollections of what took place in the various sessions.

For this chapter on the beginnings of the Legion, Mr. Fletcher desires also the names of those who attended the first conference in the United States, which was promoted by Colonel Theodore Roosevelt and his associates. Those North Carolinians who took part in these two conferences are in position to perform a very real service in the writing of the history of North Carolina's part in the formation of the American Legion.

You ask why we advertise. The answer is easy. It is because competition is keen and we want our share of the business.

Not necessarily banking competition, but all other lines. We need to advertise the service WE render, in order to hold our own. Money spent, is gone for good. Money on deposit not only retains its value, but INCREASES.

# SAVING VS. BORROWING

Even if borrowing were always easy, or indeed possible, borrowed money has to be paid back. Accordingly, it is easier to save when you can before the need of additional money arises and thus avoid borrowing at all, or much. Deposit every dollar you can spare with this bank, and you do two things:

You avoid the need of borrowing later; so much later, if not altogether.

And you are establishing a basis of credit in case borrowing should be necessary.

A bank has confidence in a person who saves when saving is possible, or difficult.
