NEW ROOFS

OVER OLD ROOFS

If the roof on your home is beginning to give way to the weather elements, let's cover your house-top with a new roof before any damage is done to your home interior. The heavy summer rains will surely find leaks in the weak roofs and do lots of damage to interiors.

Let the old roof act as a base for a new Budd-Piper roof. And by doing you'll save yourself time, expense and worry, and also make yours a cooler house in summer and a warmer house in winter.

ANY MULE CAN KICK

"It may be all right to be meek and kindly," said Farmer Brown, "but by gum, I've observed that the kickers usually get the best service."

That may be true some places, but it is not so at OUR BANK. We treat EVERYBODY ALIKE, the large depositor and the child with a penny savings account, old customers and the new ones, kindly folks and those who kick. They ALL get the same courteous service, the same careful attention, a service that is YOURS for the asking.
