Doctors Disagree

When children are irritable and peevish, grind their teeth and sleep restlessly, have digestive pains and disk of appetite, and have itching eyes, nose and fingers, doctors will not always agree that they are suffering from worms. Many mothers, too, will not believe that their carefully brought up children can have worms. The fact remains that these symptoms will yield, in a great majority of cases, to a few doses of White's Cream Vermifuge, the sure expellant of round and pin worms. If your child has any of these symptoms, try this harm-less, old fashioned remedy, which you can get at 35c per bottle from Pittsboro Drug Co.

learned, and will make it serve his

increasing prosperity. We shall have

big agriculture alongside big business."

-V-C-

48.000 Farmers Say-

The profit on fertilizing, the profit

paid by the increase that fertilizing

brings, piles up to an average return

of \$3.54 for every dollar spent on

fertilizers for all crops in 35 states.

So says the National Fertilizer Asso-

ciation, after interviewing 48,000

farmers and studying their answers.

able verdict comes that wise fertiliz-

ing does pay the farmer who grows

crops for market. Part of the wis-

dom is in choosing the right ferti-

lizer-in deciding to use old reliable

V-C, if you'll take FULL Rows' word

Another truth is proved by the

answers of these 48,000 farmers.

This truth is that it pays best to

fertilize well. The more generous

applications of fertilizer per acre

are proved to produce the greater

returns-through earlier and bigger

and better yields, through yields of

higher gross value-in the final

figure that counts most-net profit!

--V-C-

"Like Father, Like Sons"

Many years ago the father of four

young sons became one of the first

customers of the old Ceorgia Chem-

ical Works, buying his fertilizer

from what is now the V-C sales

office in Augusta, Ga. The father

was A. J. McElmurray, and the

sons-E. W., J. A., R. L. and J. R.

McElmurray-all are grown now,

and have families of their own, and

are respected and successful mem-

"Our first recollections are of

coming into this office with our

father." said E. W. McElmurray re-

cently." Maybe we just formed the

habit then, but I think it was be-

cause the V-C brands were always

good and helped us make money.

Anyhow, we've kept coming back

ever since, for the same old brands.

I've been using them myself for 38

years and they suit me. My father

used to let me buy them on his

credit, till I got to be 21. My brothers

and I are carrying out the same pro-

gram with our families. We were

raised on V-C and it looks like we'll

bers of their communities.

for it.

From everywhere the unmistak-

farming and mass production. And

competition! Management must be

wiser, now, for total yields climb

faster than markets and no man

can say what his products will bring.

son-it hunts profit in lower costs.

Your successful farmer even adds a

little to his costs in order to cut

them! He buys and uses tons of V-C fertilizer, rich mixed food for

his growing crops-and produces

pounds or bushels or other units in

greater number per acre and man-

hour, thus cutting the cost each

unit must bear. Not only does this

farmer push costs down-he pushes

gross income up, for he sells at

higher prices the earlier yields and

better yields that V-C fertilizer

"And he gave it for his

opinion that whoever could

make two ears of corn or two

blades of grass to grow upon

a spot of ground where only

one grew before, would de-

serve better of mankind and

do more essential service to

his country than the whole

race put together."-Swift's

Voyage to Brobdingnag.

brings. He knows how to profit!

"The work of the chemical engineer "Used V-C Prolific 8-3-3 on five during the past century has advanced acres and sold the crop at an avercivilization by ten centuries."-Farmage of \$440 per acre. Have been using V-C for years and always er's Handbook of Explosives.

On Good Authority

Cotton farmers-16,501 of themtell the National Fertilizer Association that their average return is \$4.71 in exchange for every dollar spent on fertilizer. They say that their profits on fertilizing cotton, over and above the cost of fertilizer, range from \$13.61 per acre average for Texas to \$31.88 per acre average for North Carolina. According to the 16,501 farmers, these profits are paid by increases in pounds of lint per acre ranging from 94.6 pounds average for Texas to 211.9 pounds average for North Carolina; by increases in dollar value per acre ranging from \$17.64 per acre average for Texas up to \$41.46 per acre average for North Carolina.

V-C Means O-K

Like the seal on a bond or the signature on a check, V-C's name on a fertilizer bag means "Good." V-0 fertilizers pay face value in full.

analysis-and in a V-C bag you get rich, concentrated plant foods, the very best that economy and experience advise. In all V-C fertilizers, whether low analysis or high, honest values are blended most carefully and every value is there. A name-Virginia-Carolina

-V-C-

"The county agent is a public servant, a man of consequence in his community and, withal, a man carrying a heavy load of responsibilities." -DR. WILMON NEWELL, Dean, Florida College of Agriculture.

Demand high face value, high

Chemical Corporation. But what a good old name! No wonder you welcome it on a V-C bag, for you know this good name is inside too.

"One acre under which I used V-C Prolific yielded 1,890 pounds of cured tobacco which brought me \$452. No trouble selling V-C in this section."-A. WILLIAMSON, Dealer, Fair Bluff, N. C.
