

**TOWN AND COUNTY BRIEFS**

Mr. and Mrs. Atlas Woodlief of Kittrell and children spent the week-end with the latter's parents, Mr. and Mrs. Chas. D. Burns.

A colored child jumped off a buggy last Saturday in front of a car driven by Mrs. Bruce Burns and was knocked senseless, but fortunately had no bones broken.

Miss Azile Hill went down to the Sanatorium Monday for treatment.

The Confederate Veteran, a magazine published at Nashville, Tenn., carries a splendid tribute to the late Mrs. Henry A. London in the September number.

Mr. C. S. Copeland of Cary, former citizen of Chatham, was here Monday.

Mrs. W. F. Williams is visiting her daughter, Mrs. Roy Dixon, in Durham.

"Aunt" Lyria Brown, a former cook at the Exline Hotel, died Sunday.

Mrs. J. T. Petty returned Sunday from a visit to relatives in Raleigh.

Mr. and Mrs. Wagner are moving from the little White residence on Salisbury street to the Jackson residence.

Mrs. W. F. Beard wishes to thank the people of Pittsboro and community for their kindness during the illness of her step-mother and at the time of her death.

**RESOLUTION OF RESPECT**

The Pittsboro Woman's Club, which had recessed for the summer months, in a recent meeting passed the following Resolutions of Respect:

Whereas, since the last meeting of the Woman's Club of Pittsboro, the death angel has entered our portals and removed from our midst Mrs. Henry A. London, a loyal and devoted member of the club, be it resolved:

That in her departure there has passed from life to enrich the realms above a devoted and faithful member of our club, a tender and affectionate mother, a devoted sister, a sincere friend and a devoted Christian, one who with faithful discharge of the duties of life, who loved her friends, and who for her kindly acts and unselfish deeds was herself beloved by them, and who through weeks of suffering pain, with uncomplaining fortitude and smiling courage, gazed into the vast unknown and finally embarked for the silent shore utterly unafraid, and that her name will be held in grateful memory by our club, in that her worthy example may be emulated.

Resolved that these resolutions be spread upon the minutes; that a copy be sent the bereaved family of the departed; and that the same be sent to the Chatham Record with a request to publish.

Mrs. Julian M. Gregory, Chm.  
Mrs. E. R. Hinton,  
Mrs. W. B. Chapin,  
Mr. Victor R. Johnson,  
Committee.

**Farm Notes**

Edited by N. C. SHIVER, County Agent

**News of the Week on Chatham County Farms**

**TESTING NEW VARIETIES LESPEDEZA**

Mr. John Mil's, prominent farmer of the New Hope section of this county, has an acre of Lespedeza, Tennessee Strain No. 76, and an acre of Kobe Lespedeza growing side by side. In company with E. C. Blair of State College, Extension Agronomist, we visited this field last week. Both varieties showed a good stand, but Mr. Mills declares that he likes the Tennessee strain best as it seems to have grown better and higher on his soil. Mr. Mills intends to save seed from both of these varieties.

**HAS GOOD CORN CROP**

Mr. Johnson, Manager of the County Home Farm, has ten acres of corn from which he expects to gather 500 bushels this year. This corn was grown on land that averaged 50 bushels to the acre last year. On 15 acres, Mr. Johnson averaged 18 bushels of wheat this spring.

**PIGS MAKE GOOD GAINS**

Mr. John Clark, Pittsboro RFD2, has just completed the first months feeding of eight pigs in a cooperative hog feeding demonstration. When weighed and put on feed August 11, the total weight of the eight pigs was 185, and when weighed on the 14th of September, their total weight was 446 pounds. Mr. Clark is feeding a mixture of corn meal, shelled corn, shorts and fish meal.

**HICKORY MT. FARMER BRINGS IN EARLY COTTON**

Mr. T. M. Clark of Pittsboro RFD 2 brought in some of the first new crab cotton we have seen this year. He sold this cotton Friday of last week in Pittsboro, the cotton bringing him 10 cents per pound. Mr. Clark has seven acres of cotton from which he expects six bales at the least. This cotton was poisoned consistently throughout the season.

**POISONED COTTON WILL TRIPLE YIELD OF UN-POISONED COTTON**

Mr. Pendergrass, who lives across from the County Home near Pittsboro, controlled boll weevil damage on three acres of cotton near his house this year. This field was given four applications of dust. According to a count made last week, this cotton will average 20 grown, undamaged bolls to the stalk. On another field that Mr. Pendergrass has in cotton this year, he declares that there will not be an average of seven grown, undamaged bolls to the plant. Mr. Pendergrass is convinced of the efficiency of the dust poison method for control of the boll weevil.

**SILOS INCREASING IN NUMBER IN THE COUNTY**

Siilos, a sure sign of permanent dairy development, are fast becoming fixtures in Chatham County. Where the sale of whole milk was an unheard of thing in this county four and one half years ago, there are now some fifty odd farmers in the communities of Hickory Mt., Pittsboro, Gum Springs, Brown's Chapel and Riggsbee who produce approximately 700 gallons of milk per day. To produce this milk, the number of dairy cows in these communities have been increased more than 100 percent, and among them, a number of pure bred.

Some of the farmers who have constructed silos are: C. G. Oldham, Chapel Hill RFD 3; G. W. Bair, Pittsboro; R. N. Connell, Pittsboro; W. H. Ferguson, Pittsboro RFD 2; Lacy Webster, Pittsboro RFD 2; T. M. Clark, Pittsboro RFD 2; J. E.

**FEEDING WHEAT TO LIVESTOCK**

According to Miscellaneous Publication No. 96 issued by the U. S. Department of Agriculture recently, wheat should be substituted for corn in sections where the corn crop is short. With the idea that this method would be practical to a certain extent in this county, we are presenting a few salient facts brought out in this bulletin; "In a general way, and for all feeding purposes, a pound of cracked wheat or a pound of cracked barley, or a pound of both in any proportion is equal to a pound of corn in feeding value.

Farmers whose corn crop are short can now save money by substituting wheat and barley, pound for pound, for corn, and in feeding these grains in the same way and in the same combinations as they have heretofore fed corn. It is usually unnecessary to ground grain for feeding livestock, but wheat kernels are small and rather hard; hence they should be crushed or coarsely ground. Barley is sometimes steamed, but it may be ground for horses and cattle.

A number of feeding combinations with wheat for swine, horses, dairy cattle, beef cattle, poultry and sheep are given in this bulletin, and the County Agent has a limited supply of these bulletins for distribution, to any interested party.

**"FARM PHILOSOPHY"**

The dub who buys a scrub will find that he has been sold.

Frank Farmer says: "I take a vacation sometimes, but I never give my garden one."

If you don't believe a gas tank attack will take the evil out of the grain weevil, get a copy of "Fumigating Stored Grain", a bulletin on this subject from State College.

More farm relief—sell cull animals before they eat up any more feed.

Showing you best at the fair helps make it a success even though you do fail to win the blue ribbon.

"What seems to Grow Fairer as life goes by is the sight of flowers and the sound of music."—John Richard Green.

**SAFEGUARD THE FALL PIGS**

It is unfortunate that with the good corn crop prevailing in certain sections of the county that we have a shortage of pigs. However, this shortage can be made up to a large extent by exercising more care with the fall litter.

Most fall pigs are farrowed in September, which is a very critical time in the life of the pig, for the care given at this time has much to do with the profits received later on. Internal parasites are very destructive to young pigs, therefore, it is wise to arrange to have new quarters for them and the sows. If placed on infested territory the chances are that they will not make economical gains. One should also look forward to some good winter forage, such as oats, barley, rye and rape as a means of reducing the feed bills and keeping the pigs healthy. Pigs on forage with the proper grain supplement always make more rapid and economical gains than those fed in dry lots.

If pigs are to do well they must have a good supply of their mother's milk. It is false economy to limit the ration of the brood sows, for if they are fed enough of a well balanced ration the pigs will be better fed. A good litter of pigs is eight to a sow. Some money can be made on seven pigs per litter, but when the number falls below six, raising pigs is not profitable. Pigs should not be weaned until they are eight weeks old.

**CORN IS SHORT, PROSPECTS GOOD FOR HIGH PRICED PORK NEXT SPRING**

Two factors contribute to an estimate that hogs will bring good prices next year; one is the short corn

crop in the middle west and the other is the shortage of brood sows carried from last year. With these factors in mind, Chatham farmers who have a fair corn crop in sight should certainly plan to feed out some hogs this fall and winter in order to take advantage of these prospective good prices. Ten demonstrations involving 120 hogs conducted last year, proved conclusively that Chatham farmers can produce pork as efficiently and economically as any farmers in the state. When we consider that the hogs involved in these projects averaged a gain of better than a pound and a half a day and also that farmers feeding these hogs were returned \$1.65 per bushel for every bushel of corn fed to these hogs, after deducting purchase price of all other feeds, it can be very readily seen that the feeding of hogs in this countryside this year will be a good sound business policy.

**for ANY BABY**

WE can never be sure just what makes an infant restless, but the remedy can always be the same. Good old Castoria! There's comfort in every drop of this pure vegetable preparation, and not the slightest harm in its frequent use. As often as Baby has a fretful spell, is feverish, or cries and can't sleep, let Castoria soothe and quiet him. Sometimes it is a touch of the colic, or constipation. Or dreaded diarrhea—a condition that should be checked without delay. Just keep Castoria handy and give it promptly. Relief will follow very promptly; if it doesn't you should call a physician.
