THERE'S a harmony between the natural loveliness of this modern age and the natural, mild goodness of Camels. And if you find them keeping company, don't be surprised.

Camel has given the world the luxury of a naturally *mild* cigarette—a cigarette that preserves all the refreshing fragrance of the choice, mild tobaccos from which it is made—a cigarette that is delightfully smooth, but never flat, never parched, never tasteless.

Modern smokers are awake to the fact that mere flatness doesn't mean *mildness*. That's one reason there's such a swing to Camels. Watch it right in your own crowd. Join them in Camels—a smoke that's enjoyable all the way—all the time.
