

NEW COMERS IN SUMMIT SECTION

Much Visiting in Community During Past Week; Other News

SUMMIT, April 3.—We have some new neighbors in our community, Mrs. Zora Holway and son, Turner.

Miss Bell Blankenship spent Sunday night with Miss Eva Kight.

Mr. and Mrs. Heg Blankenship spent Sunday night with his father, R. L. Blankenship.

Misses Ennis and Annie Bell Fleenor spent Sunday evening with Miss Ada Beshears.

Miss Ruby Blankenship spent Sunday evening with Misses Rosa and Nina Church.

Mr. and Mrs. Lee J. Church spent Sunday with his son, Mr. Coy Church.

Mr. and Mrs. Arthur Bengt

Nothing Else Can Do The Job As Well As V-C

FERTILIZER has got to grow crops PROFITABLY—a job that can't be done with anything but GOOD FERTILIZER and plenty of it.

V-C FERTILIZERS pay a profit on their cost, thru bigger yields and better quality. You can be sure you are getting good plant food when you buy V-C.

Come in and give us your order now.

WIN A PRIZE!

During the six weeks beginning April 10 and ending May 15 you will have a chance at attractive small prizes and one

GRAND PRIZE Take your KODAK FILMS TO BLUE RIDGE STUDIO

and have them develop it. The print adjudged by three competent judges to be the best submitted during each of the six weeks will entitle the lucky person to an 8x10 enlargement. The one which is given the highest rating during the entire six weeks' period will be given the grand prize—a \$25.00 Porcelain Miniature with gold frame, made either from a Kodak print or sitting at studio.

Be sure to take your Kodak Films direct to BLUE RIDGE STUDIO. Call at the studio for details.

Sponsored by Woman's Club for Benefit of Girl Scout Hut

It's FREE! TO RADIO OWNERS

We make no charge for inspecting your radio aerial or tubes, and charge only for repairs or work necessary to put your set in good condition. Let us check your set and advise what is needed. Our charges are moderate indeed, and our service work is guaranteed. Just call Telephone 22-W and tell us your troubles.

WE'LL PUT YOUR RADIO IN SHAPE ON SHORT NOTICE

FINE WATCH REPAIRING

We are also equipped to do expert Watch and Clock Repairing, and have a complete stock of repair parts. We'll save you money on repair work. Give us a trial—our work and prices will make you a regular customer.

G. W. LYON
Electric and Radio Service
WILKESBORO, N. C.

spent Sunday with Mrs. Mary Ann Church.

Mr. Roe Church, of Hopkins, and Miss Bessie Fletcher, of Summit, visited Mr. R. L. Blankenship a short while Sunday.

Misses Eva Kight and Vestie Church visited Miss May Mikeal Sunday.

Mrs. Julle Blankenship visited Mrs. Mae Adkins and children at Mrs. Ann Church, Sunday evening.

Miss Minnie Bengt visited Misses Rosa and Nina Church, Sunday.

Misses Addie and Lula Adkins visited Miss Maude Beshears Sunday evening.

Girl Scout Notes

(Reported)

Early in 1927, Mr. Sisk and Tom Ward asked Bess Gordon Finley Grier if she would be the leader of a Girl Scout Troop, and help to organize it. As a result, in April, 1927, Margaret Wilkins, Carolyn Taylor, Elizabeth Forester, Julia Finley, Ann Estes, Mary Hix, Kathleen Johnson, Frances Cranor, Frances McNeil, Margaret Vannoy, Frances Cashion, and several others passed the tenderfoot test and became the Cardinal Troop of Girl Scouts. This troop was soon recruited to its full number, of 26 interested girls whose motto was "Be Prepared." In 1928 Mrs. J. H. McNeil became the Lieutenant, and being a nurse she prepared and passed the girls in first aid, etc. Mrs. Ed Long and Mrs. Bell also have been a great help to the Scouts along this line.

Dr. Sink has passed quite a number of the girls on their 2nd class first aid. In 1928 and 1929 the local Girl Scouts provided a room for, and took care of babies, during the fair. There were many mothers attending the fair who took advantage of this opportunity to have trained girls care for their children while they enjoyed the day. During 1931 and part of 1932 the Scout work was inactive in our town, but the interest is renewed, and we are all working hard to make our three troops as efficient as any in the organization. Won't you give us your interest and cooperation?

Among 500 applicants for government seed loans in Catawba county few have as many as six cows or 100 hens, says the county agent.

Chevrolet Dealers Report Big Sales

Only Slightly Less Than Sales Last Year Despite Banking Holiday

Chevrolet dealers in the second ten days of March reported delivering to consumers 10,006 new cars and trucks despite the existence of a national banking holiday through much of the period, H. J. Klingler, vice-president and general sales manager of the Chevrolet Motor Company announced today.

In the comparable period last year reported retail sales were 10,378 new cars and trucks, Mr. Klingler stated.

Owing to the difficulty of getting cars to dealers because of lack of facilities for clearing drafts, stocks of new cars in the field were reduced 3,477 units in the second ten days of the month, Mr. Klingler reported.

"From the first of this year to March 20 deliveries to consumers were 88,068 units as compared with 86,769 in the comparable period of 1932," Mr. Klingler stated.

"In the last ten days of March last year we sold at retail 13,504 units, and I am in hopes that a sufficient amount of buying deferred by the banking situation will fall into the last period of this month to make the March total compare favorably with March of 1932.

"In both January and February we exceeded our retail sales of last year by a comfortable margin."

BED SWEET POTATOES FOR EARLY SETTING

It will take about eight to ten bushels of average-size sweet potatoes to produce enough slips to set one acre of land at the first pulling but if two or three successive pullings can be made, five bushels of seed will be sufficient.

"It is about time now to bed the seed sweet potatoes," says E. B. Morrow, extension horticulturist at State college. "A good rule to follow is to plant the beds at least six to seven weeks before the plants are wanted for setting in the field. For eastern Carolina, this means planting the beds during the first week in April and for the Piedmont and mountain sections a few days later. By all means use seed that is free from blemishes and rotten spots. Treat the seed with a solution of mercuric chloride to kill any disease spores that may be present."

The mercuric chloride solution is made by mixing one ounce of the chemical to 24 gallons of water. This will give better results than the formaldehyde solution, Morrow says.

In preparing the solution, mix the mercuric chloride with a small amount of warm water and then add the additional cold water. It is best to use a wooden container and after 15 bushels of seed have been treated, make up a fresh solution.

Mr. Morrow says do not bed the potatoes until they are dry, then place them about three-fourths of an inch apart in the bed to prevent crowding of the slips. Cover with two to three inches of clean sand. If the bed is dry at the time of bedding, water moderately but never soak the bed until it is water-logged.

When potatoes are bedded as late as the first week in April, protection is not absolutely needed though a layer of pine straw about 4 to 6 inches deep will protect from the cold and conserve the moisture.

Annual Kelvinator Campaign Launched By S. P. U. Company

The annual Kelvinator campaign staged by the Southern Public Utilities company is now under way, and prospective buyers are offered the greatest Kelvinator ever built at lower prices.

New 1933 Kelvinators are now on display at the office of the S. P. U. company and all who are contemplating purchasing this season are invited to see them and to get full details of all improvements that have been made by the manufacturers.

You are now privileged to purchase a Kelvinator with a down payment of only \$10.00, with 24 months to pay the balance. In this way the Kelvinator will effect savings that will pay for itself by protecting foods used by your family.

With lower electrical rates now in effect and the new low prices announced on each unit, there is no reason why every home may not have the convenience of a Kelvinator now, representatives of the S. P. U. company state.

This is the time of year to think about electrical refrigeration and when they are so popularly priced Kelvinator will naturally be foremost in your mind.

A horse that feels his oats usually jumps at the wrong time.—Harry R. Detweiler.

The Family DOCTOR

By John Joseph Gains, M. D.

A very ancient complaint, and an annoying one, as you well know, who are subject to attacks when least expected. Folks with full vessels are liable to it; those with "catarrh," the old bogey-man of the quack. Those with high blood-pressure? Well, if you have it, the nose-bleed is likely to prove helpful at least for awhile. Let it bleed if you have increased blood-pressure—it will lower tension.

Most people do the very wrong thing for an attack of nose-bleed; they rush to a basin of warm water, and try to get as much of it in the nose as possible. I've seen men try to drive their forefingers into the nostril as far as possible, for what purpose they could not tell. They snort, blow the nose violently, rasp the throat, and do everything to keep up the local uproar. Everything but the right thing,—which is to try to quiet the nerves, cease snorting, poking fingers and washing out with warm water. . . . Just be still, if you can. Let it drain, at least till the doctor comes, if you were so scared that you sent for him posthaste.

Every individual has his own time of blood-coagulation. This is important to him—that is, the number of minutes it takes his blood to form a clot, which arrests the nose-bleed. A clot cannot ever form, under warm water douches, and forefinger pokings, and snortings. Sit still—be still—apply cold if anything—short not at all. Gentle pressure at sides of nose may slow down blood flow. Firm pressure up-and-down and maintained—each side of nose. No time wasted, no harm done if it does not help. But be quiet—deliberate; I never saw a death from nose-bleed.

The time to cure nose-bleed is to get next your good doctor when the nose isn't bleeding. Tell the doctor I said so.

CERTIFICATE OF DISSOLUTION

State of North Carolina—Department of State

To All to Whom These Presents May Come—Greeting:

Whereas, it appears to my satisfaction, by duly authenticated record of the proceedings for the voluntary dissolution thereof by the unanimous consent of all stockholders, deposited in my office, that the C. & S. Motor Express Company, Incorporated, a corporation of this state, whose principal office is situated in the town of North Wilkesboro, county of Wilkes, state of North Carolina (E. F. Caldwell, being the agent therein and in charge thereof, upon whom process may be served), has complied with the requirements of Chapter 22, Consolidated Statutes, entitled "Corporations," preliminary to the issuing of this Certificate of Dissolution:

Now therefore, I, Stacey W. Wade, Secretary of State of the state of North Carolina, do hereby certify that the said corporation did, on the 5th day of April, 1933, file in my office a duly executed and attested consent in writing to the dissolution of said corporation, executed by all the stockholders thereof, which said consent and the record of the proceedings aforesaid are now on file in my said office as provided by law.

In testimony whereof, I have hereto set my hand and affixed my official seal at Raleigh, this 5th day of April, A. D. 1933.

STACEY W. WADE,
Secretary of State.

EVERY DAY IS BARGAIN DAY HERE

HUSBAND GOES HOME TO TRIPLE TRAGEDY

Grand Rapids, Mich., April 6.

—A husband returning to his home with high hopes of a reconciliation today found the wife he left two days ago and their children slain and the man whom he blamed for the estrangement unconscious in a gas-filled kitchen.

The wife, Mrs. Mattie Sue Bengert, 28, was strangled in her bed, and a son, Carl L. Bengert, Jr., eight, was similarly slain and the body placed in an automobile in the yard. The other child, three-months-old Thalbert Allen, was dead in the kitchen oven; with all gas jets turned on.

The man, Henry B. Bedford, 43, principal of Turner public school here, lay across two chairs in the kitchen, unconscious from gas fumes. He had not regained consciousness this evening, but attendants at a hospital where he was taken said he probably would recover.

Police said they found nothing immediately to contradict the theory of Bengert that his wife and children had been slain by Bedford, who then attempted to kill himself.

Bengert, a cabinet maker, told police of difficulties which had developed and increased after Bedford went to board in his home two years ago. Bedford was the owner of the house, he said, and moved in as a boarder with his tenants after he was divorced.

The husband said he had accused Bedford of making love to Mrs. Bengert and that on Tuesday there was a bitter quarrel which ended with Bedford ordering him out of the house. Mrs. Bengert, he said, refused to move out with him, accusing him of being "foolishly jealous." Bengert then left and remained with relatives until today.

This morning, Bengert said, he received a message from his wife asking him to return at 1:30 p. m. He kept the appointment, only to find his family dead.

WILKESBORO HIGH SCHOOL HONOR ROLL

Following is the honor roll of Wilkesboro high school for the sixth month:

First grade: Louise Kennedy, Nancy Lee Yates, Stewart Blevins, Louise Anderson.

Second grade: Mary Gage Barber, Nell Hubbard, Gladys Howell, Peele Sykes.

Third grade: Betty Henderson, Francis Willard, Joy Miller, Esie Barlow, Albert Dennis (due to have been on honor roll for fifth month).

Fourth grade: James Hempbill, Ray Stroud, Fay Wright.

Fifth grade: Peggy Somers, Baxter Davis.

Sixth grade: Pauline Church, Virginia Miller, Boyd Cook, Constance Smythey, Don Story.

Seventh grade: William Gray,

Eighth grade: Marjorie Blevins, Paula Craft, Lorene Guthrie, Edie Bell Phillips, Willie Hamby.

Ninth grade: Kate Ogilvie, Treva Johnson, Annie Lee Ferguson, Helen Bumgarner.

Tenth grade: James Bumgarner, Milford Tedder, Ethel Davis, Lucile Hartley, Virginia Laws, Thelma Miller, Hazel Walker, Geneva Wallace, Carol Cowles, Myrtle Yates.

Eleventh grade: James Hamby, Alta Ellis, Virginia Craft, Sam Ogilvie, Nell Hartley, Broadus Canter.

"As usual, when winter gives way to spring, the farmer becomes optimistic and plans for another year, trusting that things will change in his favor."—County Agent R. W. Pou, of Forsyth.

Important Message To Farmers!

There's no use talking about it—it's a known fact that there is no better fertilizer on the market than **Armour's**. If there was, we would be selling another brand as we have always tried to give our customers the very best for their money.

Farmers, you are busy now preparing your land for planting corn and other crops. Regardless of how well you prepare the land and what grade seeds you use, you will not obtain the desired results from your labor unless you use the right kind of fertilizer—and that right kind is—

ARMOUR'S Field-Tested Fertilizers

Come and get your supply of fertilizer while our stock is complete. You will find that our prices are most reasonable as we operate with minimum overhead expense.

Get our prices on farming implements, garden tools, wire fencing, roofing, paints, etc., before buying elsewhere. You will find in our stock just the articles you need about the farm or home.
