Julia A. Winkler, et al vs. Alonzo Stroud, et al

T. C. Caudill vs. W. E. Colvard

BEER TAX BRINGS IN \$9,139,687 IN APRIL

Washington, May 18.—Legalized beer added \$9,139,687 to the government's revenue in April when nearly every other important form of taxation showed decreases from the previous month.

Collections from the \$5 a barrel tax on beer brought the government \$8,269,052 while the license fees of retail and wholesale dealers in the 3-2 beverage added \$869,811 and the tax on 3.2 wine beverage amounted to \$824.

Good Word For Parents
Mamma: Have you said your prayers, Robert?
Robert: Of course.
Mamma: And did you ask to be made a better little boy?
Robert: Yes, and I put in a good word for you and father, too.

YOUNG MAN KILLED WHEN HIT BY CAR

Charlotte, May 18.—An unidentified youth was killed here tonight when struck by an automobile occupied by a party of boys and girls who, police said, fled from the scene, abandoning the automobile which careened into another car after striking the boy.

Police said they found a half gallon and a pint of whisky in the abandoned car. Ownership was being traced through the license tag.

In Berlin a noisy machine is confiscated by the police and fitted with a silencer at the owner's expense.

Huge String of Fish Caught By Boone Man

(Watauga Democrat)
Dr. J. M. Gaither and J. B. Brewer exhibited one of the finest strings of trout seen in many years Tuesday afternoon. There were perhaps twenty-five of them, both rainbow and speckle, ranging in size from ten to eighteen inches. They were taken from the waters of the Watauga river.

The Cause
Political Candidate: Now, I ask you, why do they celebrate Washington's birthday instead of mine?
Man in Audience: 'Cause Washington never told a lie.

CAMELS SURE APPEAL TO ME

THEY USE MORE EXPENSIVE TOBACCOS

CAMEL'S costlier tobaccos do taste better

Henry Ford
Dearborn, Mich.

May 15, 1933

Time and again I am told—by my own organization and by others—that I penalize myself by quality.

Friendly critics protest our putting into the Ford V-8 what they call "twenty-year steel." They say such quality is not necessary; the public does not expect it; and that the public does not know the difference anyway.

But I know the difference.

I know that the car a man sees is not the car he drives—he drives the car which the engineer sees. The car which is seen, comprises beauty of design, color and attractive accessories,—all desirable, of course. The best evidence that we think so is that they are all found on the Ford V-8.

But these are not the car. The car proper, which is the basis of all the rest, is the type of engine and its reliability; the structure of chassis and body, ruggedly durable; the long thought and experiment given to safety factors; the steady development of comfort, convenience and economy. These make the car.

A car can be built that will last two or three years. But we have never built one. We want the basic material of our car to be as dependable the day it is discarded as the day it is bought. Ford cars built 15 years ago are still on the road. It costs more to build a durable car—but two items we do not skimp are cost and conscience. A great many things could "get by"—the public would never know the difference. But we would know.

The new Ford V-8 is a car that I endorse without any hesitancy. I know what is in it. I trust our whole thirty years' reputation with it. It is even better than our previous V-8. It is larger, more rugged and mechanically a better job all round.

I readily say this in an advertisement because I know the car will back it up.

Henry Ford
