Annual Meeting of Dairymen At Raleigh In July

Secretary Wallace and Other Leaders in Agriculture Expected To Attend

The North Carolina dairy association will hold its annual meeting this summer along with the state farmers' convention and the ninth annual gathering of the American Institute of Cooperation to be held at State college during the week of July 24 to 29.

"We have planned our dairy meeting during the week of July 24 that we may take part in the discussions about milk marketing and related subjects which will be an important feature of the institute program," says J. A. Arey, dairy specialist at State college. "In the past we have not been worried with a marketing problem because we have never produced enough milk for the needs of our local people. However, with a reduced buying power on the part of the people and the steady increase in dairy herds we are beginning to be faced with this problem. It is wise for us to meet together to work out some definite plans."

Arey points out that Secretary Henry A. Wallace will attend the convention this year and that some of the leading milk marketing specialists of the nation will be present. Mr. Arey has arranged a two-day program for the state's dairymen on Wednesday and Thursday, July 26 and 27. The annual banquet and business meeting of the association will be held in the college dining hall Wednesday evening. Arey also points out that dairymen attending this conference may secure rooms free of charge in the college dormitories as long as they last. Meals will cost little and every dairymen should use this opportunity as the time for taking a short vacation at little expense.

Thinks She Is World's Largest Cow

"Lone Star" failed to diet, and as a result she was awarded a trip to the World's Fair at Chicago. "Lone Star" claims the title of the "world's largest cow." She is owned by Miss Jeanne of San Antonio, Tex., weighs 2,800 pounds, stands 73 inches high and measures 15 feet, nose to end of tail. Shown above she is ridden by Miss Frances Green as she features the animal exhibition at the fair. Her owner offers a \$500 reward for proof of a cow larger than "Lone Star."

Upturn in Business Shown in Increases Of Federal Revenue

First 11 Months of Fiscal Year Pusses 1932 Record; May Is Better Month

Washington, June 22—A widespread improvement of business in many lines was indicated in tax collections for May, sending the total for the fiscal year since last July 1 above the total of the previous year for the first time.

Statistics announced today by the internal revenue bureau showed the collections for 11 months amounted to \$1,368,238,226 as compared with \$1,350,734,652 in the same period of the previous year.

Collections for the month of May aggregated \$114,754,133 as compared with \$89,062,187 in April and \$69,013,131 in May, 1932. Taxes on tobacco, beer, stock sales and issues, gasoline, lubricating oils, checks and numerous minor articles showed business in those lines was increasing.

By giving his bees attention at the proper time, C. A. Edmondson, of Morganton, has prevented his bees from swarming for the past five years. He harvests excellent crops of honey each season.

Wake Up Your Liver Bile - Without Calomel

If this bile is not flowing freely, your food doesn't digest. It just clogs in the bowels. Can't sleep up your stomach. You have a thick, bad taste and your breath is foul, often breaks out in blisters. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up."

They contain wonderful, harmless, gentle vegetable extracts, causing them to come to making the bile flow freely.

Don't wait until it's too late. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the outside label. Beware of substitutes. West-Allison, © 1933, G. M. Co.

Loans Will Help Refinance Farmer

Information Is Given Out In Statement Received By F. D. Hackett

Farmers of this county will be interested in the statement just received by Frank D. Hackett, secretary-treasurer of the Moravian National Farm Loan association from Henry S. Johnson, agent of the farm loan commissioner, stationed in the Federal Land Bank of Columbia, telling how it is expected there will be a very substantial scale-down in the debts of many borrowers because the farmer getting a loan will be able to offer cash for settlement of debts which he might not otherwise be able to pay.

Commissioner's loans are being made to reduce and refinance farmer's debts on a long term basis, to supply working capital and to refinance foreclosed farms. The collateral accepted is first or second mortgages upon all or any part of the farm property, real or personal, including crops. Of course, before the commissioner makes a second mortgage loan he will ask the holder of the first mortgage to waive foreclosure rights in accordance with the commissioner's regulations.

Loans are limited to a maximum of \$5,000 each. These loans plus all prior mortgages or other evidences of indebtedness secured by the farm property may not exceed 75 per cent of the appraised value thereof.

During the first three years the loans are in effect, borrowers will not be required to make payments on the principal if they are not otherwise in default with respect to the conditions or covenants of their mortgages. The loan must be repaid in such annual or semi-annual installments as will discharge the debt within the agreed period.

The commissioner's agent also points out that these are collateralized and not personal loans and that the financial condition of the applicant as well as his history must be considered, including, of course, the ability of the farmer to repay his loan. The properties are appraised by the Federal Land Bank appraiser and he uses the same general values in arriving at the value of the property to be offered as collateral. The principal difference between the Federal Land Bank loan and the commissioner's loan is that the land bank loan is made only on the farm property and cannot exceed 50 per cent of the normal, apprais-

ed value of the land plus 20 per cent of the insured, permanent improvements whereas the commissioner's agent may lend up to 75 per cent of the normal value and accept second mortgages and personal property as security.

The agent points out that for the convenience of the public the secretary-treasurer of the local national farm loan association has been appointed as correspondent and that farmers should find it convenient and satisfactory to make their applications to this correspondent rather than apply directly to the agent stationed in the Federal Land Bank

MITCHELL IS FOUND NOT GUILTY BY JURY

New York, June 22—Two softly spoken words—"not guilty"—brought Charles E. Mitchell to his feet yesterday in the dingy federal court room where for nearly six weeks he stood trial on charges of evading more than \$850,000 income taxes.

His face fiery red and his eyes moist with tears, the former head of the world's second largest bank heard 12 jurors acquit him on both counts of his indictment, slightly more than 24 hours after they had received the case.

To a crowd that pressed around him as he left the court room a moment later, Mitchell spoke in a trembling voice:

"I can't say anything now. I'm too moved."
