-AND your dollar buys MORE right now than it may ever buy again. You can see that as well as we can.

As raw materials-cotton and rubber-go skyrocketing, tires are bound to go higher, too. The best advice is - "Don't wait." We offered that advice months ago, when Goodyear prices were scraping bottom. Many people who took it have thanked us; others say they will never get caught again.

So we repeat! BUY NOW-because Goodyears are STILL priced very low and they can't stay at these levels very long.

Today the best buy for the least money is the new Goodyear Pathfinder. For years "the quality tire within the reach of all," the Pathfinder is now stepped up in mileage, safety and good looks. It has FULL CENTER TRACTION-20% thicker non-skid tread-stouter body of Supertwist Cord, the cord that gives under road shocks, doesn't heat up, prevents blowouts, stands hard knocks, runs out a full long life of trouble-free miles.

Be sure your new tubes are quality Goodyears, too.
