

Wright Eulogized By County Board

Resolution Passed at Meeting of Board of Education a Few Days Ago

A resolution in tribute to the late Prof. C. C. Wright, former superintendent of schools, was adopted by the board of education at its regular meeting on the first Monday in the month. A copy of the resolution was released to the press Friday. Following is the resolution:

"Charlie Calvin Wright, Educator of Wilkes County, after more than fifty-four years devoted to the service of education ceased from his labor July fourteenth, nineteen hundred thirty-three.

"With a deep sense of personal bereavement but with an abiding satisfaction in the fullness of his years of life and work, this Board records its profound sorrow for the loss of its former Superintendent, who, for so long a time has been to each of us much more than a business associate.

"In a very large measure the success of education in this great Northwest Section of North Carolina has been directly due to his personal efforts and in a greater degree its high standing and commanding influence in Wilkes county may be attributed to his genius for organization and leadership.

"His sense of Justice was instinctive and controlling; his patience unflinching and his charity responsive to countless demands. He never turned from those who needed his counsel, his assistance or his friendly guidance, and the circle of his devoted friends extended far beyond the bounds of his recent activities. He possessed in a rare degree a combination of keen insight, inflexible purpose and strong mentality, together with

a gentleness and delicate, punctilious regard for the rights and views of others that endeared him to all who were privileged to know him and explains in no small degree the strength and scope of his influence.

"A recognized leader in his chosen profession, his finest achievement was the cultivation of a nature so thoughtful for others, whatever their station, that none who came within its radiance failed to be warmed and inspired by it.

"He had an orderly and constructive mind and a faculty for encouraging and helping others. Always he seemed 'A man of cheerful yesterdays and confident tomorrows.'

"Resolved: That this resolution be spread upon the minutes of the Board of Education of Wilkes county, a copy sent to the family and a copy to the local papers.

C. O. McNEIL,
Chairman.
R. R. CHURCH,
D. F. SHEPHERD,
Members.
C. B. ELLER,
Superintendent."

The Family DOCTOR

WORRIES

We all know that worry shortens life. It is said to encourage heart disease—man's chief enemy today. Worry don't get one anywhere; it never pays dividends. It is the contented mind that yields the golden profits.

I knew a man who was constipated—I should put the word in capital letters; he declared that "dynamite" would not set his eliminator in motion! He took everything he could hear of with only meager results—the condition grew steadily worse.

Finally he felt that he could work no longer; he went to a justly famous western clinic—submitted to the most searching examination, X-ray, and most critical blood-tests.

There was NOTHING physically wrong with this man; the doctors told him so.

"What," he almost yelled; "do you tell me there's nothing wrong with me? I who haven't had a decent bowel movement in years of time? Here I've come hundreds of miles, to be told this; I KNOW BETTER."

The neurologist took him in charge. "How many times do you get angry in a day?" the doctor asked.

"How many? I'm angry right now. Who wouldn't be?"

"Look here," said the specialist. "There's nothing organically wrong with you; your organs are absolutely normal. You stop all your secretions with your nasty temper! Now you go home, and stop that system of grouch. Go to the toilet every morning at 7: Stay there till the bowel moves. Do that every morning. And stop fighting." There was nothing left to do. The fellow obeyed orders to the letter—was cured. Told me himself. Mind over matter—worry—does the harm.

During the recent heat wave in New York 115 babies and 500 aged persons died as a result of the high temperature.

Pontiac Eight Sales Show

Big Increase This Month
Retail demand, continuing strongly into August, has raised Pontiac straight eight sales during the first 10 days of this month to the highest point for any corresponding period since 1929, according to figures released by Sales Manager R. K. White.

"Pontiac's 1933 sales through August 10 exceed the same period of 1932 by 23,015 units," said Mr. White. "Pontiac, the largest selling straight eight in the world, has accounted to date

for approximately 80 per cent of leg of demand authorizing the all sales made during 1933 in market at July. Pontiac sold 7,000 more cars than in July of the entire straight eight field.

"The remarkable manner in which sales are holding up offers the best proof of the strong back-

If your elephant wants to ride on top IT'S ALL RIGHT WITH A CHEVROLET

CHEVROLET We didn't actually plan on elephants when we chose the bodies for the new Chevrolet. But we did choose bodies rigid enough, and strong enough, to support six tons of elephant, or anything else you can name. . . . Fisher bodies . . . steel bodies plus a hardwood frame . . . exactly the same type of bodies used on all 12 and 16-cylinder cars. Steel alone is not enough to make you as safe and secure as we want you to be in a Chevrolet. A steel body, welded into a solid wall of protection plus resilient hardwood reinforcing to take up stress, absorb shocks and prevent the steel from following its natural tendency to buckle under pressure makes the sturdiest body of all—the kind used on the Chevrolet, and on no other low-priced car. Remember that when you buy a car. Be sure to get all you pay for . . . the super-safety of a steel-plus-wood Fisher body.

HERE'S HOW YOU CAN SAVE \$1250 OR MORE

place your order NOW
make only a small down payment
take delivery any time during September
and enjoy your Kelvinator while it pays for itself

PRICES GO UP SEPT. 1ST

By placing your order now you can save \$12.50 on the lowest priced model—and many times this amount on the larger, more expensive models. All you have to do is make a small down payment and we will hold your Kelvinator for you and deliver it any time during September. In this way, you can save the difference between the present low prices and the new, higher prices which go into effect September 1st—and maybe sooner, should unforeseen conditions arise.

Don't take a chance on losing this big saving. Come in as soon as possible and place your order. (C-1855-4)
