## DIZZINESS

relieved by Black-Draught

"I decided to take Theodor's Black-Draught, as I had been having bilious spells," writes Mr. Charles E. Stevens, of Columbus, Ind. "When I get bilious, I feel sleepy and tired and do not feel like doing my work. It is hard to tell how I feel, but I do not feel good. I get awfully dizzy. I know then that I had better take something. After I found how good Black-Draught is, that is what I have used. I guess it rids me of the bile, for I feel better—don't feel like I am dropping off to sleep every time I sit down. That, to me, is a very bad feeling."

Now you can get Black-Draught in the form of a SYRUP, for Children.

**Tuberculosis Germ May Be Killed By New Found Serum**

Physician Tells Connecticut Group That Long Sought May Be In Sight

Shelton, Conn., Nov. 13.—A serum which applied to tubercle bacilli will create an acid destructive to itself and to tuberculosis in the human body was described tonight by Dr. Stephen J. Maher, international authority on tuberculosis, to a gathering of Connecticut physicians at Laurel Heights sanatorium.

Dr. Maher said the temptation "to preserve silence on this work of ours until we could say 'here is a cure for tuberculosis' has been very strong.

"We have resisted this temptation because we realized that if we are on the right track the cure will be achieved much sooner if we impart our knowledge of direction to the whole world than if it could be if we tried to find the cure alone.

"Once sighted nothing, not even political scheming, or lack of funds, could keep the world from obtaining immediately and developing immediately the cure for tuberculosis. The which is the greatest prize in the world."

Dr. Maher, in the course of his technical description of experiments, said he had not obtained any convincing evidence that the cocci or diplococci newly created have preventive or curative effect on tuberculosis in guinea pigs or rabbits, and they apparently have no harmful effect on either.

Dr. Maher is chairman of the Connecticut tuberculosis commission. He has spoken at gatherings in this and foreign countries on his warfare against the "white plague."

**Wake Up Your Liver Bile - Without Calomel**

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If food doesn't digest, it just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blisters. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Beware a substitute. Get it at drug stores. GIMMICK CO.
