From information released by the solicitor, it has been impossible to completely reconstruct the killing of Miss Childress if the Tilleys shot her to death. The possible motive and the investigators' interpretation of what took place on the morning of the day the body was found

have been guarded by the au-

thorities. That the killing may have taken place earlier in the day or even the night before, that someone else made the appeal over the telephone and that the note was planted after the death of the girl may be deduced from the latest developments.

Other startling disclosures may be expected any time. It is stated that little informa-

Why Liquid Laxatives De You No Harm

The dose of a liquid laxative can be measured. The action can be controlled. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The right liquid laxative will bring a periect mo discomfort at the time, or afterward. The wrong cathartic may keep

you constipated as long as you keep on using it! An approved liquid laxative (one

which is most widely used for both adults and children) is syrup pepsin. Dr. Caldwell's Syrup Pepsia is a prescription, and is perfectly sofe. Its larative action is based on seams a natural laxative. The bowels will not become dependent on this form of help, as they do in the case of cathartics containing mineral drugs Ask your druggist for Dr. Caldwell's Syrup Pepsin. Member N. R. A.
