Geraldine Triplett, colored, seven-months-old daughter of Lula Triplett, of this city, died Friday at 5:30 a. m. Burial services were conducted by Rev. H. H. Bingham at Brown cemetery Saturday.

Vets Will Receive Boost In Benefits

President Liberalizes Policy In Handling Administration Of Veterans Laws

Washington, Jan. 19.—In line with mounting congressional sentiment, President Roosevelt today liberalized economy act regulations to raise veterans' compensation approximately \$21,092,206 annually, but it was plainly indicated the President has no present intention of going further at this session.

It being election year, Democratic leaders had informed Mr. Roosevelt that they found a good many party members restive about the veterans' situation. The leaders in turn received word that the President had had modification in mind for some time.

Developments may change the outlook, but the President's order was looked upon as a compromise which might end some of the agitation for enactment of the American Legion program at a cost of possibly \$80,000,000 a year.

One of the legion's proposals was embodied in part in the new regulations—which increased the pension rates for veterans' suffering with service connected disabilities from \$90 to \$100 a month for total disability. Proportionate increases for veterans suffering from loss than total disability were decreed in the changes which the White House estimated would affect 288,000 ex-service men.

Mr. Roosevelt in his executive order reminded that he had directed General Hines of the veterans' administration to make a continuous study of the effect of the economy act regulations on veterans and that he had promised changes where the veterans' interests necessitated them.

Other modifications ordered were summed up by the White House as:

"Liberalization of eligibility rules for hospital treatment in non-service connected cases so as to provide such treatment to veterans suffering with non-service diseases requiring emergency or extensive medical and surgical care, who are unable to pay for same."

"The granting of a pension of \$15 a month to Spanish-American war veterans who served 90 days or more and were honorably discharged, or who, having served less than 90 days, were discharged for disability incurred in line of duty in the service and who are 50 per cent or more disabled without regard to the service origin of the condition or the age of the veteran."

"Increase in burial and funeral allowance for deceased war veterans from \$75 to \$100."

MOTHER KILLS HER THREE CHILDREN

Tampa, Fla.—A 26-year-old mother who said "whiskey wrecked our home," lay in a critical condition in a hospital here Thursday after she had killed her three children.

The woman, Mrs. Irene Saunders, and the bodies of her three children were found in an automobile near here by a farmer.

In a note left for her estranged husband, Mrs. Saunders said, "I never had any happiness except for the six months of our married life. Then whiskey wrecked our home."

The mother was able to tell briefly of slaying her children in the hospital here. She said she gave sleeping tablets to her two sons, eight and four years old, made a bed for them in the rear seat of her automobile and drove around until they were asleep. Then she shot them and her six-month-old baby. She turned the gun on herself and the bullet barely missed her heart.

Three Perish As Flames Destroy W. Va. Residence

Huntington, W. Va., Jan. 21.—Two women and a child died early today as flames swept the home of Donald Ritter, son of a Huntington capitalist.

Mrs. Ritter, 26, her 10-months old daughter, Jeanne, and her sister, Miss Gwendolyn Keifer, 24, were suffocated as they lay in bed.

The bodies were found after firemen extinguished a blaze which destroyed the interior of the residence.

The Ritters had entertained several guests last evening, the party breaking up early this morning. Ritter, the son of C. L. Ritter, Huntington capitalist, left the Ritter home shortly after other guests departed, to spend the night with a friend.

The fire was discovered about 4 o'clock. Ritter said that he believed the blaze was caused by a cigarette dropped on a divan in a living room.

Opposes Open Liquor Sale
Richmond, Va., Jan. 21.—Governor Peery has indicated opposition to the sale of hard liquor in Virginia in anything except sealed containers, and anywhere except in state stores. He said also that his new tax increase measures would be started through the general assembly during the coming week.

Wilkesboro Teams Defeat Traphill

Boys Overwhelm Traphill By Score 38 To 15; Sextet Wins Close Tilt

Basketball teams of Wilkesboro high school defeated Traphill's cage representatives at Traphill Thursday afternoon with the boys overwhelming the home team 38 to 15 and the girls noting out the Traphill sextet by the narrow margin of 10 to 9.

Phillips and Jones were high scorers for the Wilkesboro five, while the work of Bowers was outstanding for Traphill.

The girls' game was close throughout, the teams being evenly matched.

Oliver F. Bauguess Passes At Traphill

Young Man Claimed By Death Yesterday; Was Victim Of Pneumonia

Oliver F. Bauguess, young man of Traphill, died of pneumonia yesterday morning at 1 o'clock. He had been ill for several days.

He was 22 years of age and was the son of Mr. and Mrs. J. M. Bauguess, who survive him. Besides his parents, he is survived by the following brothers and sisters: Mollie, John, Deamie, Fisher, Shirley, Charlie, Bonson, Teresa and Wallace Bauguess and Mrs. Bessie Billings.

The funeral was to be held at the Bauguess family cemetery this morning at 11 o'clock by Rev. L. E. Sparks.

BOTH ROOSEVELTS ARE PEANUT FANS

Washington, Jan. 17.—President Roosevelt has saved the peanut stand station of Steve Zasilakos at the corner of the White House grounds.

Steve, who has sold peanuts at this stand for more than a quarter of a century, was ordered by police to move the other day after complaints that he was interfering with traffic at this busy corner.

Mrs. Roosevelt clipped the story from the newspaper and sent it to Stephen T. Early, a secretary to the President, with a written inquiry: "Must this man go?"

Mr. Early started investigation and suddenly discovered that President Roosevelt had already acted after reading the story.

QUESTION AND ANSWER

QUESTION—Where can information on the Corn-Hog Reduction Campaign be secured?

ANSWER—A study of the Corn-Hog reduction plan has been made by W. W. Shay, swine extension specialist at State College and printed as Extension Circular No. 196. In this circular Shay shows the amount of cash payment made by the government and also the amount that corn and hogs must sell for to return a profit equal to the amount of payment offered by the government. Copies of this circular may be secured by writing F. H. Jeter, Agricultural Editor, Raleigh.

QUESTION AND ANSWER

QUESTION—What fertilizer should be put on a peach orchard that was sown to vetch last fall?

ANSWER—Any fertilizer mixture carrying a nitrogen content equivalent to 100 pounds of nitrate of soda can be used as a top dressing. This should be applied between February 20 and March 1 or about ten days before the trees bloom. A further application of 100 pounds of nitrate of soda or its equivalent should be broadcast when the cover crop is turned under which is usually about April 15. The turning under of the cover crop, however, depends upon seasonal conditions.

Florida Sheriff Arrested

Tampa, Fla., Jan. 19.—Sheriff Will C. Spencer, of Hillsborough county, was arrested at his office today by Justice of the Peace J. A. Saveres on information filed in criminal court yesterday by County Solicitor Morris Givens, alleging extortion, malpractice, and voluntarily allowing prisoners to escape, and immediately made \$8,000 bond, although only \$5,000 was required.

DOUBT SIMMONS TO SEEK OFFICE

New Bern, Jan. 21.—Celebrating his eightieth birthday yesterday, Senator Furnifold Simmons declined to discuss current reports that he is being urged to seek the seat in congress now held by Congressman Charles L. Abernethy.

His reticence to even discuss the subject was taken by friends to indicate that reports circulated this week merely were a concoction of political gossip.

The general belief here is that the venerable former senator—considered a master political strategist—will make up his mind for himself and will not be swayed by the advice of others. It is believed unlikely that the senator, at his advanced age, will seek further political honors.

BANG!! Another New Year's Resolution

The Family DOCTOR

By John Joseph Gains, M. D.

WINTER HANDICAPS
The sedentary season—for most people. Only out-door workers get sufficient exercise for those on full diet. Too much of quiet is not the best for health and vigor. Especially when one is overfed.

Many a case of indolent colitis is inaugurated during winter days. Rural dwellers who do their own butchering, season their own sausages, and they naturally love spices, mustards, peppers, and other stimulants for the linings of the digestive tract. Harm often comes from too much spicing. Constipation, from lack of green-leaf vegetables in winter is most common. A patient asked me the other day, "Why is it that in winter my bowel clogs right up—and in the warm months never gives me trouble?" The answer is, more exercise outdoors—and more green vegetables—with less of seasoned, heavy food.

Since conditions like the foregoing are almost impossible to evade, I may be able to advise my readers; do not take active, harsh purgative medicines. I saw a man who had taken a much-advertised pill for over twenty years; I had to operate on him for horrible "itching piles;" he had not slept for two weeks when he consulted me. The pills, irritating the rectum caused the trouble.

The bowel, of course, must be kept eliminating. Some patients take "mineral oil" with happy effect. Cascara, combined with phenolphthalein is one of the best mixtures; especially should we avoid pills that contain aloes—which often furnish rectal diseases that require medical or surgical attention.

My attention was called just today—to a good laxative preparation, that advised the patient to drink at least ten glasses of water daily when using it. Fine—about the water.

QUESTION AND ANSWER

QUESTION—How much land should be prepared for planting a home garden?

ANSWER—The size of the family should govern the size of the garden. A tenth of an acre will produce an abundance of vegetables for one person and this amount should be allowed for each member of the family except for children under five years of age. If such crops as water-melons, cantaloupes, Irish and sweet potatoes are to be grown, a larger acreage is needed. If these are grown outside the garden, half an acre will be sufficient to furnish a family of five.

All small grain has been planted and much of the winter wood supply hauled in Lincoln county. Farmers admit being in better condition than in some years past.

The widespread belief that there were man-made marks on the planet Mars, came about when the astronomer Schiaparelli announced the discovery of "Canali" on the Martian continent, and the word "Canali" was translated into English as canals, instead of channels.
