

# "Astonishing?" Yes! but **TRUE**."

## LINCOLN

Lincoln was loved because he understood the unwritten laws of humanity. First in his heart were his fellowmen. You, too, can be a great benefactor to your family . . . by providing them with SAFETY MURRAY TIRES.

## 13-PLATE BATTERY

### Strongest Guarantee Ever Written . . .

Guaranteed Against All Road Hazards, Blowouts, Bruises, Cuts, Faulty Brakes, Wheels Out of Alignment, Everything Except Punctures, Running Flat, Fire or Theft.

Here's Murray's common sense guarantee—unlimited as to time, or on a 12-month basis. Unlimited as to mileage and specifically protecting you against everything that can happen to a tire while in service. It's the only guarantee strong enough to fit the superb quality and performance of the Murray tire. And all this in writing. Read its unusual guarantee. It has to be the finest quality throughout to merit the backing of such a guarantee. Buy a Tube with every tire for better service.

## 6 Important Reasons

# Why **Murray** TRUCK TIRES ARE BETTER

### Murray Heavy Duty Bus and Truck Tires

30 x 5	\$19.65
32 x 6 8-Ply	25.50
32 x 6 10-Ply	33.50
34 x 7	44.95
40 x 8	68.30

### High Pressure Tires

	Luckstone	MURRAY Heavy Duty
30 x 3 1/2	\$4.65	\$ 5.95
31 x 1	8.10	9.45
32 x 4	8.35	9.85
32 x 4 1/2		14.35

## YET CHEAPER!

### Astonishing? Yes! But TRUE!

Why do "gentlemen prefer blondes"? Is it because their scalps grow more hair. The average blonde has a hair count of 140,000. Brunettes average 102,000. Read-heads are lowest with only 88,000.

### Eyes Differ Even More

That's why we ask you not to buy tires by their looks. Get the specification on just what goes into the making of MURRAY Tires and then no other tire will compare with it.

Thicker, Heavier  
Sidewall Buttresses  
of Strong Thread  
Rubber

Deeper Non-Skid  
Thread For Longer  
Service

Two Breaker Plies  
From Bead to Bead of  
10-Ply and Larger  
Sizes

Stronger Latex Coated  
Carcass For Longer  
Life

Wider Flat Tread For  
Longer Wear and  
Greater Traction

Greater Cross Sectional  
Width . . . Greater  
Air Capacity
