House Democrats Will Hold Up Action On Veterans Bill

Leaders Indicate It Will Be Held In Abeyance Until Congressmen Up For Re-election Have Opportunity To Feel Pulse of People At Home

Washington, Feb. 25.—The strategy of letting sentiment for the \$350,000,000 of veterans benefits contained in senate amendments to the independent offices supply bill simmer for a while has been adopted by house Democratic leaders.

To carry this out, a gesture to send the controverted bill to conference by unanimous consent is to be made tomorrow, with the almost certainty of objection. They would automatically return it to the appropriations committee.

There, leaders indicated, it is going to stay for a while in order to give senators and representatives up for re-election ample opportunity to hear from home.

It also was intimated that as a final effort to defeat the amendments incorporating \$350,000,000 more for veterans which were inserted by the senate, the measure might be held up until the end of the session and a resolution adopted merely continuing current appropriations for the next fiscal year for independent offices.

Chairman Buchanan, Democrat, Texas, of the appropriations committee, and Representative Woodrum, Democrat, Virginia, conferred early today at the White House on the plan and later Representative Byrns, of Tennessee, Democratic floor leader, divulged it.

Speaker Rainey described the senate amendments as certain if enacted to "destroy the President's economy program."

Meanwhile, word was passed that should the house agree to them the bill faced a veto the same as the \$2,400,000,000 Patman cash bonus bill which is to be voted on in the house March 12.

After the house plan had been worked out, a conference of Democratic house members scheduled for tonight to consider the senate amendments was indefinitely postponed by Byrns.

"Bolero" Playing Liberty Theatre

Noted Production Featuring George Raft And Fan Dance Girl On Two Days

Telling the intimate story of the life of a world famous dancer, "Bolero," starring George Raft and Carole Lombard, opens a two day engagement at the Liberty Theatre today. Featured in the cast are Sally Rand, the fan dancer of World's Fair fame, and Frances Drake.

"Bolero" reveals the long struggle for success by an ambitious youth, who finally achieves fame only by denying his emotions, by trampling on the hearts of the beautiful women who help him on his way to the top.

The dance numbers are woven about Maurice Ravel's world-famous "Bolero" and in one sequence Raft and Miss Lombard present the tango "Raftero" which promises to become enormously popular in ballrooms throughout the country.

In his role of a colorful dancer, who rises from cheap music halls to the most lavish cafes on the Continent, Raft is ruthless, crafty and determined. When he discovers that the public does not watch him but focuses its attention on the beautiful women with whom he dances, he discards one after another of his dancing partners, as each one outlines her abilities to attract notice.

When he meets Carole Lombard his plans are defeated by love. The tragic intervention of the World War and its effect upon him and his ambition, lead to a dramatic ending.

In the picture Raft tangoes, does the old and new style of Charleston, which he originally created, the strut, the modernistic "Bolero" and he initiates a brand new dance called the "Raftero," inspired by the savage rhythms of Ravel's famous music.

"Bolero" is rated as one of the prize films of the new season and its showing at the Liberty Theatre this week is one of the first in this section of the country.

Young Republicans Opposed To Duncan

Salisbury, March 3.—Young Republicans meeting here tonight effected a permanent organization for the state and elected Edward F. Butler, of Winston-Salem, chairman. As a climax to three hours of discussion the meeting adjourned without expressing a preference for the state chairmanship but will meet again in Charlotte on the eve of the state convention and there and then give expression to their choice for a leader. A resolution was passed, however, by a loud and unanimous vote opposing the re-election of James S. Duncan to that position.

Boone Tillet, of Charlotte, was named secretary under power granted to Chairman Butler.

A resolution on the present sales tax provoked discussion on the part of the delegates who thought a substitute should be suggested but a final compromise resulted in adding a line to the effect that the tax could be eliminated if state office payrolls were curtailed.

Jake Newell, unable to be present, insisted by letter that his name be not considered for the chairmanship as he positively could not take it.

Paris, March 1. (Thursday)—Premier Gaston Doumergue won his budget fight in parliament in a night session when the estimates were adopted by the chamber of deputies at 2 a. m. The vote was 463 to 130. The budget totals about 48,500,000,000 francs.

HOW TO PRUNE

1. Use sharp tools, either knives or saws, depending upon the nature of work to be done.
2. When removing a branch entirely, make a close, clean "collar" cut, very close to the trunk or stem, so as not to leave the least evidence of a stub or spur. A clear collar cut heals very quickly, while the stub cut never entirely heals over until it has permitted decay to enter into the heartwood of the tree.
3. In cutting off large branches, make an undercut on the branch first. Then saw off from above, very close to the main stem. This will prevent the weight of the limb from tearing the trunk.
4. All cuts over one inch in diameter should be painted at once to prevent decay. Any heavy paint with a little lamp black or preferably brown or green coloring, to make less conspicuous, is safe and good. Paint only the wood cut; avoid painting the cambium if possible, for painted cambium heals slowly.
5. In pruning small twigs the cut should always be made just above a bud or node, for only by following this rule can you avoid dead sticks and stubs. Another pointer in this respect is to always cut above a bud which points in the direction you wish the new branch to grow. If you wish the plant to become open and spreading, cut above bud pointing outwards; if you wish it to grow tall and more compact, cut just above an inside bud.
6. Don't try to imitate popadour hair-cuts or feather duster effects in pruning shrubs. They spoil the plant for beauty and utility. A safe rule to avoid this is to cut the heavy branches back a little shorter than the smaller branches and branchlets; then the evidence of heavy pruning will soon be entirely hidden.
7. Do not entirely remodel the habit of a plant. No amount of work done over a period of three seasons so that the plant may have opportunity to grow as you go along.
8. The rejuvenation of shrubs by removing the older stems, make sure that the old stem is entirely removed from the base of crown of the shrub even if you have so scratch a little below the surface of the ground to do it. When stubs are left in the plant or tree the shrub or tree is not being pruned, it is being butchered.

WOMEN! Get rid of the handicaps of a weak, debilitated condition with the assistance of Cardui. Mrs. R. L. West, of Huntsville, Ala., writes: "I was weak and run-down. I had a pain in my side, and I kept losing weight. I grew nervous over my condition—this was unusual for me, for I am very cheerful when I am well and don't easily get nervous. I knew I ought to take something. My aunt told me I ought to try Cardui, which I did. I began to feel better. I kept it up until I had taken three or four bottles. My side quit hurting and I was soon feeling strong and well." Cardui is sold at drug stores here.
