to defe Ashter: 8 months suspended sentence as to Ronck. Return of unemployed city folks to the farm is suggested by see in which the following defendants were indicted N. L. Wooten, managter of the local office of the National Remployment Service, as a mean of relieving the unemployment Julius Johnson, Ed Hayes, Anderson, Parks Billings, Julius situation.

In a letter addressed to 'the agreh, R. D. Sanders, John teachers of the county, Mr. Wood en requests the co-operation of the teachers in ascertaining possible locations for the stranded families. Mr. Wooten's letter follows:

"We have a large number of stranded families-that is, families who have left farms and moved to town-who now desire to go back to farm life.

"We also have hundreds acres of idle farm land in Wilkes county which would furnish employment and a living to many of our stranded families and, if properly managed, will pay dividends to the landlords.

John Elmore, Koonce Prevett, "Possibly you know of farmers who are in need of farm labor or tenants. By helping us locate and make necessary adjustments and arrangements with the landowners, you would be rendering a very special service to your community.

"The towns have a large surplus of unemployed farmers who are needed to till this enormous amount of idle land and these families would be a great help to our rural schools and churches We want you to make a survey of your district by making inquiries of farmers of their labor problems. Get them interested as much as possible and refer all that are interested to us and let us help them make proper ad-

gram production starring Lionel Atwill, portrays the role of a begger reduced to that state bewhe he has been tricked out of his fortune represented by test mill, and due to the loss of his legs in an accident in the

A man of fine education, John Dawson (Atwill) writes treatises on steel and sells them on street corners in all parts of the world, while looking for his wife and daughter who have been taken from him by the man who cheated him of his mill and caused his infirmity.

While traveling, he encounters other beggars and obtains permission from the authorities to organise the beggars into a fraternal organisation so that they might not be burden to the government. He does this in such a way that the organization be comes a very wealthy one, and he succeeds in recouping his losses and regaining control of his ARE YOU DRINKING Pat-T-Pak steel business.

"Beggars in Ermine" plays at the Liberty Theatre next Thursday and Friday, March 22-23 The cast includes Betty Furness. H. B. Walthall, Jamieson Thomsas. James Bush, Stephen Gross, George Hayes, and Astrid Allwyn. The picture was directed by Phil

Read About the New Air-Cell Battery

The Everready Air-Cell "A" Battery is a brand new type of battery. It came into existence as the result of a long research program aimed at finding out how to make rural radio truly practical. Storage battery and dry-cell "A" battery operation both had been tried in the past and both had been proved impractical for the rural market; the storage battery, because of the recharging feature, and the dry "A" battery because of short life and variable voltage, necessitating the use of a resistance coll-

The Air-Cell Battery overcomes these difficulties. It is a primary battery, and needs no recharging. It has as much life as at least 36 dry cells, and two to three times the life of any practical package of dry cells. It delivers a constant voltage, just right for the Air-Cell Tubes (2-volt tubes) used in the CROSLEY BATTERY SET.

When using the Air-Cell Battery, the user does not have to know anything about battery voltage or tube voltage. He has no adjustments to make. The Air-Cell Battery gives from 1,000 to 1,500 hours of service, as compared to 367 hours obtained from the dry "A" Power Pack.

The Everready Air Cell "A" Battery has many points of superiority which makes it the best "A" battery ever made—and it's regular CROSLEY equipment. BU CO
